

arising from GD having some level of ownership interest in two of the three companies currently in the market for melt-pour LAP services for mortar rounds and artillery shells are compounded by the fact that DZI appears likely to lose access to the Kansas AAP and, thus, may be unable to compete for the next round of contracts. This raises the likelihood that GD could act unilaterally to raise prices or otherwise engage in anticompetitive behavior in the market for melt-pour LAP services for mortar rounds and artillery shells. The proposed transaction also raises competitive concerns relating to the current round of competition for melt-pour LAP services for 120 mm and 60 mm and 81 mm mortar rounds.

Absent Commission action, it appears likely that the only two potential bidders for current and future melt-pour LAP service contracts for mortar rounds or artillery shells are SNC and American Ordnance. With the proposed acquisition, GD has an incentive to act unilaterally to raise prices in the relevant product market because it will own all of SNC and receive half of the profits from American Ordnance. GD would have an incentive to submit bids with higher pricing, or other less competitive terms, than SNC would have submitted as an independent company because even if GD/SNC loses the bid, it would lose to American Ordnance, in which GD shares fifty percent of the profits. Therefore, GD would have less incentive to compete vigorously for these contracts, because it would benefit financially regardless of which company wins the contract.

The proposed transaction also increases the likelihood that GD and American Ordnance could coordinate their competing bids for contracts. Through its ownership in American Ordnance, GD would have certain contacts and access to competitively sensitive information that could facilitate reaching terms of coordination, and the detection and punishment of deviations from those terms.

VI. Entry Conditions

Entry into the market for the provision of melt-pour LAP services for mortar rounds and artillery shells appears unlikely to occur within the relevant time frame. Establishing a melt-pour operation to effectively enter and compete in this market is expensive and time-consuming, and is unlikely to occur in the next two years, particularly because the Army is not planning any new acquisitions before 2011. Further, even if a firm were to enter the market, it would face the difficult task of

winning a bid for a critical product without a demonstrated track record of being able to produce and deliver the product.

VII. The Proposed Consent Agreement

The proposed Consent Agreement effectively remedies the competitive harm that would likely result from the acquisition by requiring GD to divest its interest in American Ordnance, at no minimum price, to a purchaser that receives the prior approval of the Commission and in a manner that receives the prior approval of the Commission. The proposed Consent Agreement requires GD to divest its interest in American Ordnance within four months after it completes its acquisition of SNC. By requiring the divestiture of General Dynamic's interest in American Ordnance to a third party, the proposed Consent Agreement ensures that American Ordnance and a combined GD/SNC will remain independent competitors in the market post-acquisition.

Because the Consent Agreement contemplates a divestiture by GD of its interest in American Ordnance after acquiring SNC, an order to hold the American Ordnance business separate ("Hold Separate Order") is included. The Hold Separate Order requires that GD keep the American Ordnance business separate and apart from its other GD businesses, and that the company refrain from involvement in the direction, oversight, or influence of American Ordnance's business. The Hold Separate Order also requires that GD's members of American Ordnance's board of managers be replaced with independent managers who are not affiliated with GD in any way. GD may not permit any of its employees, officers, or directors to be involved in the operations of American Ordnance while the Hold Separate Order remains in effect.

The proposed Consent Agreement also allows the Commission to appoint an interim monitor to oversee GD's compliance with all of its obligations and performance of its responsibilities pursuant to the Commission's Decision and Order. The interim monitor, if appointed, would be required to file periodic reports with the Commission to ensure that the Commission remains informed about the status of the divestiture and the efforts being made to accomplish the divestiture.

The proposed Consent Agreement includes a provision that requires GD to notify the Commission within five days of submitting a proposal to obtain the facilities use contract for either the Iowa AAP or the Milan AAP, and to provide

the Commission with copies of all documents submitted as part of the proposal. This notification will allow the Commission to consult with the Department of Defense and the Army regarding possible competitive concerns that may arise in the future should GD be awarded the contracts to operate these melt-pour facilities in addition to owning SNC.

The purpose of this analysis is to facilitate public comment on the Consent Agreement, and it is not intended to constitute an official interpretation of the Consent Agreement or to modify its terms in any way.

By direction of the Commission.

Donald S. Clark,

Secretary.

Administration for Children and Families

Submission for OMB Review; Comment Request

Title: Evaluation of the Community Healthy Marriage Initiative.
OMB No.: No collection.

Description: The administration for Children and Families, United States Department of Health and Human Services, is conducting a demonstration and evaluation called Community Healthy Marriage Initiative (CHMI). Demonstration programs will be funded to support healthy marriage directly as well as encourage community changes in norms that increase support for healthy marriages and improve child and family well-being. The objective of the impact evaluation is to evaluate the community effects of these interventions on marital stability and satisfaction and child and family well-being outcomes among low-income families. Primary data for the impact evaluation will come from three waves of in-person data collection. This collection is a baseline survey of community members where CHMI demonstrations are operating, the first of three CMI surveys. The impact evaluation will assess the effects of community healthy marriage initiatives by comparing family and child well-being outcomes in the CHMI communities with similar outcomes in comparison communities that are well matched to the demonstration project sites.

Respondents: Community members aged 18-49 in three study sites and three comparison communities.

ANNUAL BURDEN ESTIMATES

Instrument	Number of respondents	Number of responses per respondent	Average burden hours per response	Total burden hours
CHMI Baseline Survey	4,200	1	0.666666	2,800

Estimated Total Annual Burden Hours: 2,800

Additional Information: Copies of the proposed collection may be obtained by writing to the Administration for Children and Families, Office of Administration, Office of Information Services, 370 L'Enfant Promenade, SW., Washington, DC 20447, Attn: ACF Reports Clearance Officer. All requests should be identified by the title of the information collection. E-mail address: infocollection@acf.hhs.gov.

OMB Comment: OMB is required to make a decision concerning the collection of information between 30 and 60 days after publication of this document in the **Federal Register**. Therefore, a comment is best assured of having its full effect if OMB receives it within 30 days of publication. Written comments and recommendations for the proposed information collection should

be sent directly to the following: Office of Management and Budget, Paperwork Reduction Project, 725 17th Street, NW., Washington, DC 20503, Attn: Desk Officer for ACF.

Dated: January 3, 2007.
