Outside agencies will not have direct access to the IDDMP. They will follow the current practice for accessing physical A-Files, which is to appear in person at the local USCIS office. They are required per the USCIS Records Operations Handbook, to work with their local USCIS office to view A-File information. After showing proper credentials and demonstrating a need to know the specific information requested in the performance of their official duties, the representative will work directly with USCIS records personnel to view the relevant portions of the A-File.

RETENTION AND DISPOSAL:

The A-File records are retained for 75 years from the date the file is retired to the Federal Records Center or date of last action (whichever is earlier) and then destroyed. C-File records are to be destroyed 100 years from March 31, 1956. Automated master index records are permanent and are scheduled to be transferred to NARA in 2006. When a paper A-File is digitized, the digitized A-File becomes the official record and maintains the same retention schedule as the original paper A-File. Options for disposition of paper A-Files that have been digitized are currently under review.
