II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item III below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange is proposing to trade the Shares pursuant to UTP. The index underlying each Fund ("each, an Index") consists of both U.S. and/or foreign stocks. The investment objective of each Fund is to provide investment results that correspond generally to the price and yield performance of its underlying Index. In seeking to achieve its respective investment objective, each Fund utilizes a "representative sampling" strategy, which is a passive investment strategy, to track its applicable Index. Each Fund will attempt to hold a representative sample of the Index's component securities utilizing quantitative analytical models. At least 90% of each Fund's total assets will be invested in the Index's component securities. Each Fund also may invest up to 10% of its total assets in stocks that are not included in its Index.

The Commission previously approved the original listing and trading of the Shares on the American Stock Exchange LLC ("Amex").⁴ The Exchange deems the Shares to be equity securities, thus rendering trading in the Shares subject to the Exchange's existing rules governing the trading of equity securities. The trading hours for the Shares on the Exchange are the same as those set forth in NYSE Arca Equities Rule 7.34, except that the Shares, with the exception of iShares S&P/TOPIX 150 Index Fund, will not trade during the Opening Session (4 a.m. to 9:30 a.m.

⁴ See Securities Exchange Act Release No. 44700 (August 14, 2001), 66 FR 43927 (August 21, 2001) (SR-Amex-2001-34).

⁷ 17 CFR 200.30-3(a)(12).

Eastern Time) unless the Indicative Optimized Portfolio Value (“IOPV”) is calculated and disseminated during that time. The iShares S&P/TOPIX 150 Index Fund will trade during the Opening Session since there is no overlap in trading hours of the Opening Session and the foreign markets trading the S&P/TOPIX 150 Index Fund securities. Also the last calculated IOPV for this Fund is available to investors during the Opening Session by means of the consolidated tape or major market data vendors and remains unchanged during the Opening Session.

Quotations for and last sale information regarding the Shares for each Fund are disseminated through the Consolidated Quotation System. The provider of each underlying Index disseminates the value of such index intra-day on a real-time basis as individual component securities of the underlying Index change in price. The intra-day value of each underlying Index is disseminated every 15 seconds throughout Amex’s trading day by organizations authorized by each respective underlying Index provider. Amex disseminates the net asset value (“NAV”) for each Fund on a daily basis and the final dividend amounts that each Fund pays.

To provide updated information relating to the Shares for use by investors, professionals, and persons wishing to create or redeem them, Amex disseminates the IOPV for each Fund as calculated by a securities information provider. The IOPV is disseminated on a per-share basis every 15 seconds during regular Amex trading hours of 9:30 a.m. to 4 p.m. or 4:15 p.m. Eastern Time, depending on the time Amex specifies for the trading of the Shares.

For the iShares S&P/TOPIX 150 Index Fund, there is no overlap in trading hours between the foreign markets trading the underlying Index component securities and Amex. Therefore, for this Fund, the IOPV is calculated based on closing prices in the principal foreign market for securities in the Fund portfolio, which are then converted from the applicable foreign currency to U.S. dollars. The IOPV for this Fund is updated every 15 seconds during Amex’s regular trading hours of 9:30 a.m. to 4 p.m. or 4:15 p.m. Eastern Time, as applicable, to reflect changes in currency exchange rates between the U.S. dollar and the applicable foreign currency.

Each of the other Funds includes companies trading in markets with trading hours overlapping Amex’s regular trading hours. During the overlap period for these Funds, an IOPV calculator updates an IOPV every 15

seconds to reflect price changes in the principal foreign markets, and converts such prices into U.S. dollars based on the current currency exchange rates. When the foreign market or markets are closed but Amex is open for trading, the IOPV is updated every 15 seconds to reflect changes in currency exchange rates.

The IOPV may not reflect the value of all securities included in the applicable underlying Index, and the IOPV does not necessarily reflect the precise composition of the current portfolio of securities held by each Fund at a particular point in time. Therefore, the IOPV on a per-share basis disseminated during Amex’s regular trading hours should not be viewed as a real-time update of the NAV of a particular Fund, which is calculated only once a day. The IOPV is intended to closely approximate the value per-share of the portfolio of securities for a Fund and provide for a close proxy of the NAV at a greater frequency for investors.

The Commission has granted each Fund an exemption from certain prospectus delivery requirements under Section 24(d) of the Investment Company Act of 1940 (“1940 Act”).⁵ Any product description used in reliance on the Section 24(d) exemptive order will comply with all representations made and all conditions contained in the application for orders under the 1940 Act.⁶

In connection with the trading of the Shares, the Exchange would inform ETP Holders in an Information Circular of the special characteristics and risks associated with trading the Shares, including how they are created and redeemed, the prospectus or product description delivery requirements applicable to the Shares, applicable Exchange rules, how information about the value of each underlying Index is disseminated, and trading information.

In addition, before an ETP Holder recommends a transaction in the Shares, the ETP Holder must determine that the Shares are suitable for the customer, as required by NYSE Arca Equities Rule 9.2(a)–(b).

The Exchange intends to utilize its existing surveillance procedures applicable to derivative products to monitor trading in the Shares. The Exchange represents that these procedures are adequate to monitor Exchange trading of the Shares.

⁵ 15 U.S.C. 80a–24(d).

⁶ See *In the Matter of iShares, Inc., et al.*, Investment Company Act Release No. 25623 (June 25, 2002).

2. Statutory Basis

The Exchange believes that the proposal is consistent with Section 6(b) of the Act⁷ in general and Section 6(b)(5) of the Act⁸ in particular in that it is designed to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, to remove impediments and perfect the mechanisms of a free and open market, and to protect investors and the public interest. In addition, the Exchange believes that the proposal is consistent with Rule 12f–5 under the Act⁹ because it deems the Shares to be equity securities, thus rendering trading in the Shares subject to the Exchange’s existing rules governing the trading of equity securities.

B. Self-Regulatory Organization’s Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

Written comments on the proposed rule change were neither solicited nor received.

III. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

The Commission will post all comments on the Commission's Internet Web site (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room. IV. Commission's Findings and Order Granting Accelerated Approval of the Proposed Rule Change

After careful review, the Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange.¹⁰ In particular, the Commission finds that the proposed rule change is consistent with Section 6(b)(5) of the Act,¹¹ which requires that an exchange have rules designed, among other things, to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and in general to protect investors and the public interest. The Commission believes that this proposal should benefit investors by increasing competition among markets that trade the Shares.

In addition, the Commission finds that the proposal is consistent with Section 12(f) of the Act,¹² which permits an exchange to trade, pursuant to UTP, a security that is listed and registered on

another exchange.¹³ The Commission notes that it previously approved the listing and trading of the Shares on Amex.¹⁴ The Commission also finds that the proposal is consistent with Rule 12f-5 under the Act,¹⁵ which provides that an exchange shall not extend UTP to a security unless the exchange has in effect a rule or rules providing for transactions in the class or type of security to which the exchange extends UTP. The Exchange has represented that it meets this requirement because it deems the Shares to be equity securities, thus rendering trading in the Shares subject to the Exchange's existing rules governing the trading of equity securities.

The Commission further believes that the proposal is consistent with Section 11A(a)(1)(C)(iii) of the Act,¹⁶ which sets forth Congress' finding that it is in the public interest and appropriate for the protection of investors and the maintenance of fair and orderly markets to assure the availability to brokers, dealers, and investors of information with respect to quotations for and transactions in securities. Quotations for and last sale information regarding the Shares are disseminated through the Consolidated Quotation System. Furthermore, an IOPV calculator updates the applicable IOPV every 15 seconds to reflect price changes in the principal foreign markets and converts such prices into U.S. dollars based on the current currency exchange rate. When the foreign market or markets are closed but Amex is open for trading, the IOPV is updated every 15 seconds to reflect changes in currency exchange rates. NYSE Arca Equities Rule 7.34 describes the situations when the Exchange would halt trading when the IOPV or the value of the Index underlying one of the Funds is not calculated or widely available.

The Commission notes that, if the Shares should be delisted by Amex, the original listing exchange, the Exchange would no longer have authority to trade the Shares pursuant to this order.

In support of this proposal, the Exchange has made the following representations:

¹³ Section 12(a) of the Act, 15 U.S.C. 78l(a), generally prohibits a broker-dealer from trading a security on a national securities exchange unless the security is registered on that exchange pursuant to Section 12 of the Act. Section 12(f) of the Act excludes from this restriction trading in any security to which an exchange "extends UTP." When an exchange extends UTP to a security, it allows its members to trade the security as if it were listed and registered on the exchange even though it is not so listed and registered.

¹⁴ See *supra* note 3.

¹⁵ 17 CFR 240.12f-5.

¹⁶ 15 U.S.C. 78k-1(a)(1)(C)(iii).

1. The Exchange's surveillance procedures are adequate to monitor the trading of the Shares.

2. In connection with the trading of the Shares, the Exchange would inform ETP Holders in an Information Circular of the special characteristics and risks associated with trading the Shares.

3. The Information Circular would inform participants of the prospectus or product delivery requirements applicable to the Shares. This approval order is conditioned on the Exchange's adherence to these representations.

The Commission finds good cause for approving this proposal before the thirtieth day after the publication of notice thereof in the **Federal Register**. As noted previously, the Commission previously found that the listing and trading of the Shares on Amex is consistent with the Act. The Commission presently is not aware of any regulatory issue that should cause it to revisit that earlier finding or preclude the trading of the Shares on the Exchange pursuant to UTP. Therefore, accelerating approval of this proposal should benefit investors by creating, without undue delay, additional competition in the market for the Shares.

V. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,¹⁷ that the proposed rule change (SR-NYSEArca-2006-38) is approved on an accelerated basis.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.¹⁸

Secretary.
