Title: Surface Management (43 CFR subpart 3809).

OMB Control Number: 1004-0194.

Abstract: Under the General Mining Law, a citizen may enter onto public domain lands that are subject to the law to prospect and explore for valuable mineral deposits. They may do so without seeking the government's permission beforehand. The rights to a deposit of a valuable mineral are granted through the act of discovering the mineral deposit. After making a discovery, a prospector may choose to

locate and record a mining claim to protect investments in exploration and to have a secure tenure to discovered valuable mineral deposits. Locating a mining claim is not a prerequisite for conducting operations on the public lands, nor is it even a requirement for carrying out mining operations. The BLM uses the regulations at 43 CFR subpart 3809 to govern hardrock mineral exploration and development on the public lands and Federal interests in the lands. The hardrock minerals are subject to the provisions of the 1872 General Mining Law (30 U.S.C. 22, *et seq.*, as amended).

BLM collects form and nonform information on surface management activities from mining claimants and operators.

Burden Estimate Per Form: The following chart lists form and non-form information collection requirements that are submitted quarterly, monthly, on occasion, and annually to the BLM by the private sector.

Title: Timber Export Reporting and Substitution Determination (43 CFR part 5420)

OMB Control Number: 1004-0058.

Abstract: The BLM manages and sells timber located on the revested Oregon and California Railroad and the reconveyed Coos Bay Wagon Road Grant Lands under the authority of the Act of August 28, 1937 (50 Stat. 875, 43 U.S.C. 1181e). Under the Act of July 31, 1947, as amended (61 Stat. 681, 30 U.S.C. 601 et seq.), BLM also manages and sells timber located on other lands under our jurisdiction. The Department of the Interior and Related Agencies Appropriation Acts of 1975 and 1976 contained a requirement for the inclusion of provisions in timber sale contracts that will ensure that unprocessed timber sold from public lands under the jurisdiction of the BLM will not be exported or used by the purchasers as a substitute for timber they export or sell for export. The regulations at 43 CFR part 5400, Sales of Forest Products, General, cover these provisions.

Timber purchasers or their affiliates must submit the information listed at 43 CFR 5424.1(a) using Form 5460-17, Substitution Determination. We collect the purchaser's name, timber contract number, processing facility location, total volume of Federal timber purchased on an annual basis, total volume of private timber exported on an annual basis, and method of measuring the volume. The regulation at 43 CFR 5424.1(b) requires that the purchasers or affiliates retain a record of Federal timber acquisitions and private timber exports for three years from the date the activity occurred. BLM uses this

information to determine if there was a substitution of Federal timber for exported private timber in violation of 43 CFR 5400.0-3(c).

Burden Estimate Per Form: We estimate it takes 1 hour to complete Form 5460-17 and is submitted on occasion to the BLM by the private sector.

Annual Responses: 1.

Application Fee Per Response: 0.
