

I. National Technology Transfer Advancement Act

As noted in the notice of reconsideration and request for public comment, CAA section 12(d) of the National Technology Transfer and Advancement Act (NTTAA) of 1995 (Pub. L. 104-113; 15 U.S.C. 272 note) directs EPA to use voluntary consensus standards in its regulatory activities unless to do so would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., materials specifications, test methods, sampling procedures, business practices) developed or adopted by one or more voluntary consensus bodies. The NTTAA directs EPA to provide Congress, through OMB, with explanations when EPA does not use available and applicable voluntary consensus standards.

This notice of final action on reconsideration does not involve technical standards. EPA's compliance with CAA section 12(d) of the NTTAA has been addressed in the preamble of the underlying final OSWI rules (70 FR 74891, December 16, 2005).

J. Congressional Review Act

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA submitted a report containing the final rules and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the final rules in the **Federal Register** on December 16, 2005. The final rules are not "major rules" as defined by 5 U.S.C. 804(2). The final emission guidelines were effective on February 14, 2006. The final NSPS were effective on June 16, 2006. The EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the U.S. prior to publication of the rule in the **Federal Register**.

SUPPLEMENTARY INFORMATION:

A. Background

Item II of Federal Acquisition Circular 2005-11, published at 71 FR 38247 on July 5, 2006, added Part 18 to the Federal Acquisition Regulation (FAR). FAR Part 18 provides a single reference to Governmentwide acquisition flexibilities that may be used to facilitate and expedite acquisitions of supplies and services during emergency situations. This interim DFARS rule adds a new Part 218 to provide a single reference to the additional acquisition flexibilities available to DoD.

Consistent with the FAR, the flexibilities in DFARS Part 218 are divided into two subparts. The first subpart, entitled "Available Acquisition Flexibilities" identifies the DoD flexibilities that may be used anytime and do not require an emergency declaration. The second subpart, entitled "Emergency Acquisition Flexibilities" identifies the DoD flexibilities that may be used only after an emergency declaration or designation has been made by the appropriate official. The second subpart is further divided into three sections: Contingency operation; Defense or recovery from certain attacks; and Incidents of national significance, emergency declaration, or major disaster declaration.

DoD would like to hear the views of interested parties on the sufficiency of these provisions. In particular, DoD is interested in receiving input as to whether the provisions sufficiently clarify the existing DFARS flexibilities that can be used in emergency situations or whether more detailed, comprehensive coverage is needed.

This rule was not subject to Office of Management and Budget review under Executive Order 12866, dated September 30, 1993.

B. Regulatory Flexibility Act

DoD does not expect this rule to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because the rule is a compilation of existing authorities, and makes no change to DoD contracting policy. Therefore, DoD has not performed an initial regulatory flexibility analysis. DoD invites comments from small businesses and other interested parties. DoD also will consider comments from small entities concerning the affected DFARS subparts in accordance with 5 U.S.C. 610. Such comments should be submitted separately and should cite DFARS Case 2006-D036.

C. Paperwork Reduction Act

The Paperwork Reduction Act does not apply, because the rule does not impose any information collection requirements that require the approval of the Office of Management and Budget under 44 U.S.C. 3501, *et seq.*

D. Determination to Issue an Interim Rule

A determination has been made under the authority of the Secretary of Defense that urgent and compelling reasons exist to publish an interim rule prior to affording the public an opportunity to comment. This action is necessary to improve DoD's ability to expedite acquisitions of supplies and services during emergency situations. Comments received in response to this interim rule will be considered in the formation of the final rule.

Defense Federal Acquisition Regulation Supplement; Notification Requirements for Critical Safety Items (DFARS Case 2004–D008)

AGENCY: Defense Acquisition Regulations System, Department of Defense (DoD).

ACTION: Final rule.

SUMMARY: DoD has issued a final rule amending the Defense Federal Acquisition Regulation Supplement (DFARS) to add policy regarding notification of potential safety issues under DoD contracts. The rule contains a contract clause requiring contractors to promptly notify the Government of any nonconformance or deficiency that could impact item safety.

DATES: *Effective Date:* January 22, 2007.

FOR FURTHER INFORMATION CONTACT: Mr. Mark Gomersall, Defense Acquisition Regulations System, OUSD (AT&L) DPAP (DARS), IMD 3C132, 3062 Defense Pentagon, Washington, DC 20301–3062. Telephone (703) 602–0302; facsimile (703) 602–0350. Please cite DFARS Case 2004–D008.

SUPPLEMENTARY INFORMATION:

A. Background

This final rule contains a new contract clause requiring contractors to notify the Government of any nonconformance or deficiency that could impact the safety of items acquired by or serviced for the Government. The rule is a result of Section 8143 of the Fiscal Year 2004 DoD Appropriations Act (Pub. L. 108–87), which required examination of appropriate standards and procedures to ensure timely notification to the Government and contractors regarding safety issues, including defective parts.

DoD published a proposed rule at 70 FR 44077 on August 1, 2005. Thirteen respondents submitted comments on the proposed rule. A discussion of the comments is provided below.

1. *Comment:* One respondent recommended amending the clause prescription at DFARS 246.371(a)(2) and (3) to change the term “system” to “critical safety system.”

DoD Response: The term “system” relates to an assemblage of subsystems, assemblies, and components that comprise an end item. Adding “critical safety” to the term “system” is unnecessary and would be confusing where major or less-than-major systems are not described in terms such as “critical safety.”

2. *Comment:* Five respondents suggested requiring the use of the Government-Industry Data Exchange Program (GIDEP) as the method for notification of safety issues and for reporting all types of technical data and reliability information.

DoD Response: The primary objective of this DFARS rule is to ensure that contractors who have delivered defective products with potential safety implications notify affected contracting offices quickly, using whatever method
