

of the proposed rule is to ensure that contractor personnel who have access to DoD information systems are properly trained and managed. The legal basis for the rule is 44 U.S.C. 3541. The proposed rule will apply to entities that perform information assurance functions for DoD. Approximately 83 small business concerns fall into this category annually. Contractors performing information assurance functions will be required to ensure that personnel accessing information systems have the proper and current information assurance certification to perform information assurance functions, in accordance with DoD 8570.01–M. No special skills are required for this compliance requirement. The proposed rule does not duplicate, overlap, or conflict with any other relevant Federal rules.

A copy of the analysis may be obtained from the point of contact specified herein. DoD invites comments from small businesses and other interested parties. DoD also will consider comments from small entities concerning the affected DFARS subparts in accordance with 5 U.S.C. 610. Such comments should be submitted separately and should cite DFARS Case 2006–D023.

C. Paperwork Reduction Act

The Paperwork Reduction Act does not apply, because the proposed rule does not contain any information collection requirements that require the approval of the Office of Management and Budget under 44 U.S.C. 3501, *et seq.*

SUPPLEMENTARY INFORMATION:

A. Background

DFARS 252.204-7004 contains a substitute paragraph for use with the clause at FAR 52.204-7, Central Contractor Registration, to address DoD-unique requirements relating to contractor registration in the Central Contractor Registration (CCR) database.

Item I of Federal Acquisition Circular 2005-10, published at 71 FR 36923 on

June 28, 2006, amended the clause at FAR 52.204-7 to include requirements for the Government to validate a contractor's Taxpayer Identification Number (TIN), and for the contractor to consent to this validation, as part of the CCR registration process.

This proposed rule amends DFARS 252.204-7004 to address TIN validation, for consistency with the changes made to FAR 52.204-7.

This rule was not subject to Office of Management and Budget review under Executive Order 12866, dated September 30, 1993.

B. Regulatory Flexibility Act

DoD does not expect this rule to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because the rule relates to an administrative requirement for TIN validation, which is performed by the Government. Contractors need only provide consent for TIN validation as part of the CCR registration process. Therefore, DoD has not performed an initial regulatory flexibility analysis. DoD invites comments from small businesses and other interested parties. DoD also will consider comments from small entities concerning the affected DFARS subpart in accordance with 5 U.S.C. 610. Such comments should be submitted separately and should cite DFARS Case 2006-D037.

C. Paperwork Reduction Act

The Paperwork Reduction Act does not apply, because the rule does not impose any information collection requirements that require the approval of the Office of Management and Budget under 44 U.S.C. 3501, *et seq.*

Michele P. Peterson,

Editor, Defense Acquisition Regulations System.

Therefore, DoD proposes to amend 48 CFR Part 252 as follows:

PART 252—SOLICITATION PROVISIONS AND CONTRACT CLAUSES

1. The authority citation for 48 CFR Part 252 continues to read as follows:

Authority: 41 U.S.C. 421 and 48 CFR Chapter 1.

2. Section 252.204-7004 is amended as follows:

a. By revising the section heading, clause title, and clause date; and

b. In paragraph (a), by revising the definition of "Registered in the CCR database" to read as follows:

252.204-7004 Alternate A, Central Contractor Registration.

Alternate A, Central Contractor Registration (XXX 2007)

* * * * *

(a) * * *
"Registered in the CCR database" means that—

(1) The Contractor has entered all mandatory information, including the DUNS number or the DUNS+4 number, into the CCR database;

(2) The Contractor's CAGE code is in the CCR database; and

(3) The Government has validated all mandatory data fields, to include validation of the Taxpayer Identification Number (TIN) with the Internal Revenue Service, and has marked the records "Active." The Contractor will be required to provide consent for TIN validation to the Government as part of the CCR registration process.
