[Docket No. CP06-421-000]

Transcontinental Gas Pipe Line Corporation; Notice of Availability of the Environmental Assessment for the Proposed Potomac Expansion Project

January 16, 2007.

The staff of the Federal Energy Regulatory Commission (Commission or FERC) has prepared the Environmental Assessment (EA) for the construction and operation of the Potomac Expansion Project as proposed by Transcontinental Gas Pipe Line Corporation (Transco) in the above-referenced docket.

The EA was prepared to satisfy the requirements of the National Environmental Policy Act. The staff concludes that approval of the proposed Potomac Expansion Project, with appropriate mitigating measures as recommended, would not constitute a major federal action significantly affecting the quality of the human environment. The EA evaluates alternatives to the proposal, including the no-action alternative.

The EA addresses the potential environmental effects of the construction and operation of the proposed Potomac Expansion Project in Campbell, Pittsylvania, and Fairfax Counties, Virginia, including the construction of:

- About 16.4 miles of 42-inch-diameter pipeline;
- About 3.4 miles of 30-inch-diameter pipeline replacement with 42-inch-diameter pipeline; and
- New and replacement aboveground facilities at existing aboveground facilities.

The purpose of the Potomac Expansion Project is to: expand delivery capacity on Transco's existing mainline pipeline system to deliver up to 165,000 dekatherms per day of incremental primary firm transportation from Transco's interconnects with East Tennessee Natural Gas and Pine Needle LNG to interconnects with the customers' local distribution systems in northern Virginia, Washington, DC, and Baltimore, Maryland.

The EA has been placed in the public files of the FERC. A limited number of copies of the EA are available for distribution and public inspection at: Federal Energy Regulatory Commission, Public Reference Room, 888 First Street NE, Room 2A, Washington, DC 20426, (202) 502-8371.

In addition, copies of the EA have been mailed to Federal, State, and local government agencies; elected officials; Native American tribes; local libraries and newspapers; intervenors in the FERC's proceeding; and affected landowners and individuals.

Any person wishing to comment on the EA may do so. To ensure consideration prior to a Commission decision on the proposal, it is important that we receive your comments before the date specified below. Please carefully follow these instructions to ensure that your comments are received in time and properly recorded:

- Send an original and two copies of your comments to: Secretary, Federal Energy Regulatory Commission, 888 First Street, NE, Room 1A, Washington, DC 20426.
