SUPPLEMENTARY INFORMATION:

Title: Annual Wildfire Summary Report.

OMB Number: 0596-0025.

Expiration Date of Approval: June 30, 2007.

Type of Request: Extension of a currently approved collection.

Abstract: The Cooperative Forestry Assistance Act of 1978 (16 U.S.C. 2101 (note) Sec. 10) requires the Forest Service to collect information about wildfire suppression efforts by state and local fire fighting agencies in order to support specific congressional funding requests for the Forest Service State and Private Forestry Cooperative Fire Program. The program provides supplemental funding for state and local fire fighting agencies. The Forest Service works cooperatively with state and local fire fighting agencies to support their fire suppression efforts.

State fire marshals use FS-3100-8 (Annual Wildfire Summary Report) to collect information for the Forest Service regarding state and local wildfire suppression efforts. Without this information, the Forest Service would be unable to assess the effectiveness of the State and Private Forestry Cooperative Fire Program. Forest Service managers evaluate the information to determine if the Cooperative Fire Program funds used by state and local fire agencies have improved fire suppression capabilities. The Forest Service shares the information with Congress as part of the annual request for funding for this program.

The information collected includes the number of fires responded to by state or local fire fighting agencies within a fiscal year, as well as the following information pertaining to such fires:

- Fire type (timber, structural, or grassland),
- Size (in acres) of the fires,
- Cause of fires (lightning, campfires, arson, etc.), and
- Suppression costs associated with the fires.

The data gathered is not available from other sources.

Estimate of Annual Burden: 30 minutes.

Type of Respondents: State fire marshals.

Estimated Annual Number of Respondents: 50.

Estimated Annual Number of Responses per Respondent: 1.

Estimated Total Annual Burden on Respondents: 25 hours.

Comment is invited on: (1) Whether this collection of information is necessary for the stated purposes and the proper performance of the functions of the agency, including whether the information will have practical or scientific utility; (2) the accuracy of the agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All comments received in response to this notice, including names and addresses when provided, will be a matter of public record. Comments will be summarized and included in the request for Office of Management and Budget approval.

Date: January 17, 2007.

Robin L. Thompson,

Associate Deputy Chief, State and Private Forestry.
