

collection will provide the DHP with information to provide technical assistance and to track and monitor program outcomes. The DCI will provide the program with the ability to review progress and generate reports on

financial and programmatic objectives. In addition, the reporting will increase HRSA's ability to quickly and efficiently analyze data, identify trends, make timely program decisions, and provide the Department of Health and Human

Services (HHS), Congress, and other Agencies with data.

The burden estimate for Awardees to complete and submit a submission is as follows:

Submission type	Number of respondents	Responses per respondent	Total number of responses	Hours per response	Total burden hours
Mid-year Report	62	1	62	45	2,790
Final Report	62	1	62	45	2,790
Progress Indicator Report	62	1	62	50	3,100
Total	62	186	8,680

Send comments to Susan G. Queen, PhD, HRSA Reports Clearance Officer, Room 10-33, Parklawn Building, 5600 Fishers Lane, Rockville, MD 20857. Written comments should be received within 60 days of this notice.

Dated: January 19, 2007.

Caroline Lewis,

Acting Associate Administrator for Administration and Financial Management.

Proposed Collection; Comment Request; Phase II of a Prospective Cohort Study of Diet and Cancer in Members of the American Association of Retired Persons

SUMMARY: In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, for opportunity for public comment on proposed data collection projects, the National Cancer Institute (NCI), the National Institutes of Health (NIH) will publish periodic summaries of proposed projects to be submitted to the Office of

Management and Budget (OMB) for review and approval.

Proposed Collection: Title: Phase II of A Prospective Cohort Study of Diet and Cancer in Members of the American Association of Retired Persons. *Type of Information Collection Request:* New. *Need and Use of Information Collection:* The specific objectives of the current study are to: (1) Examine prospectively the relation between diet and major cancers (especially those of the breast, colorectal, prostate, and non-Hodgkin's lymphoma; (2) in a series of pilot studies, evaluate the quality and completeness of dietary data collected from automated web-based dietary assessment instruments, individually and collectively, in a large cohort, and; (3) in a calibration substudy, compare energy expenditure (measured by doubly labeled water) and protein and potassium intakes (measured by 24-hour urinary nitrogen and potassium excretion) with intakes of energy, protein, and potassium as reported on web-based, automated 24-Hour Dietary Record (24HR), an automated Diet History Questionnaire (DHQ), and an automated DHQ adjusted by automated 7-Day Food Lists (7DFLs) to assess measurement error structure in the instruments.

The proposed study will build on the existing Prospective Study of Diet and

Cancer in members of the American Association of Retired Persons by updating exposure information in the existing cohort and allowing for continued tracking and follow-up; (2) expanding the cohort by recruiting additional participants and surveying their diet and other exposures. In addition to the 566,403 persons from the original cohort, a new cohort of 2.5 million 50-59 year olds from the same states as the original AARP cohort, and 4 million 50-69 year olds from 8 new states will be contacted as part of the recruitment and data collection effort. Phase II will apply the latest technology to use web-based data collection instruments for economical and efficient assessment of dietary exposures of study participants. This uniquely designed cohort study has a capacity greater than that of any previous study for evaluating connections between dietary factors and major cancers.

Frequency of Response: The frequency of response is dependent on the instrument and the portion of the study that the respondent is participating in (pilot, main study, and/or calibration substudy), as described in the table below. *Affected Public:* Individuals. *Type of Respondents:* U.S. adults (person ages 50-85).

The annual reporting burden is as follows:

TABLE A.—ANNUALIZED BURDEN ESTIMATES FOR THE PHASE II NIH-AARP DIET AND HEALTH STUDY DATA COLLECTION

Type of response	Estimated number of respondents	Frequency of response	Average time per response	Annual hour burden
Pilot Studies:				
Personal characteristics Questionnaire (PCQ)	Completed one time; counted in main study.			
Diet History Questionnaire (DHQ)	Completed one time; counted in main study.			
24-Hour Food Recall	1,500	3	0.42	1,890
7-Day Food List	1,500	1	1.75	2,625
Other Dietary Assessment Instruments	1,500	1	0.25	75
Pilot Study Total	1,500	4,590

TABLE A.—ANNUALIZED BURDEN ESTIMATES FOR THE PHASE II NIH-AARP DIET AND HEALTH STUDY DATA COLLECTION—Continued

Type of response	Estimated number of respondents	Frequency of response	Average time per response	Annual hour burden
Main Study:				
PCQ	1,710,403	1	0.25	427,601
DHQ	1,710,403	1	1.0	1,710,403
24-Hour Food Recall	1,710,403	6	0.42	4,310,216
7-Day Food List	1,710,403	1	1.75	2,993,205
Other Dietary Assessment Instruments	1,710,403	1	.25	427,601
Main Study Total	1,710,403	9,869,026
Calibration Substudy:				
PCQ	Completed one time; counted in main study.			
DHQ	Completed one time; counted in main study.			
24-Hour Food Recall	400	2	0.42	1344
7-Day Food List	400	1	1.75	1400
Physical Activity Questionnaire	400	1	0.25	100
Calibration Substudy Total	400	2,844

There are no Capital, Operating, or Maintenance Costs to report.

Request for Comments: Written comments and/or suggestions from the public and affected agencies are invited on one or more of the following points: (1) Whether the proposed collection of information is necessary for the proper performance of the function of the agency, including whether the information will have practical utility; (2) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and (4) Ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the data collection plans and instruments, contact Arthur Schatzkin, M.D., Dr. P.H., Nutritional Epidemiology Branch, Division of Cancer Epidemiology and Genetics, National Cancer Institute, NIH, DHHS, 6120 Executive Blvd., EPS-MS-C 7242, Bethesda, MD, 20892, U.S.A. or call non-toll-free number 301-594-2931 or e-mail your request, including your address to: schatzka@mail.nih.gov.

Comments Due Date: Comments regarding this information collection are best assured of having their full effect if

received within 60 days of the date of this publication.

Dated: January 16, 2007.

Rachelle Ragland-Greene,

NCI Project Clearance Liaison, National Institutes of Health.

BILLING CODE 4140-01-P

DEPARTMENT OF HOMELAND SECURITY

U.S. Citizenship and Immigration Services

Agency Information Collection Activities: Extension of an Existing Information Collection, Comment Request

ACTION: 30-Day Notice of Information Collection Under Review; Employment Eligibility Verification; Form I-9; OMB Control No.1615-0047.

The Department of Homeland Security, U.S. Citizenship and Immigration Services (USCIS) has submitted the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995. The information collection was previously published in the **Federal Register** on November 13, 2006, at 71 FR 66183, allowing for a 60-day public comment period. USCIS received three comments from the public and responded to the three commenters.

The purpose of this notice is to allow an additional 30 days for public

comments. Comments are encouraged and will be accepted until February 26, 2007. This process is conducted in accordance with 5 CFR 1320.10.

Written comments and/or suggestions regarding the item(s) contained in this notice, especially regarding the estimated public burden and associated response time, should be directed to the Department of Homeland Security (DHS), and to the Office of Management and Budget (OMB) USCIS Desk Officer. Comments may be submitted to: USCIS, Director, Regulatory Management Division, Clearance Office, 111 Massachusetts Avenue, 3rd floor Suite 3008, Washington, DC 20529. Comments may also be submitted to DHS via facsimile to 202-272-8352 or via e-mail at rfs.regs@dhs.gov, and to the OMB USCIS Desk Officer via facsimile at 202-395-6974 or via e-mail at kastrich@omb.eop.gov.

When submitting comments by e-mail please make sure to add OMB Control Number 1615-0047. Written comments and suggestions from the public and affected agencies should address one or more of the following four points:

(1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and
