RIN 1652-AA41

Transportation Worker Identification Credential Implementation in the Maritime Sector; Hazardous Materials Endorsement for a Commercial Driver’s License; Correction

AGENCY: Transportation Security Administration (TSA).

ACTION: Final rule; correction.

SUMMARY: This document contains corrections to the final rule published in the **Federal Register** on January 25, 2007. That rule requires credentialed merchant mariners and workers with unescorted access to secure areas of vessels and facilities to undergo a security threat assessment and receive a biometric credential, known as a Transportation Worker Identification Credential (TWIC). This rule correction revises a paragraph of the appeal and waiver process in part 1515. In addition, this rule correction redesignates a paragraph in part 1540 under the procedures for security threat assessment and revises text in part 1572 concerning the list of disqualifying offenses. These revisions are necessary to correct typographical errors and in one instance, to remove a word from a definition as mandated by recent legislative action.

DATES: Effective March 26, 2007.

FOR FURTHER INFORMATION CONTACT: Christine Beyer, TSA-2, Transportation Security Administration, 601 South 12th Street, Arlington, VA 22202-4220; telephone (571) 227-2657; facsimile (571) 227-1380; e-mail *Christine.Beyer@dhs.gov*.

SUPPLEMENTARY INFORMATION:

Background

On January 25, 2007, the Department of Homeland Security, through TSA and the U.S. Coast Guard (Coast Guard) published a final rule in the **Federal Register** (72 FR 3492) making technical

changes to various provisions of chapter XII, title 49 (Transportation) of the Code of Federal Regulations (CFR), and implementing the TWIC program in the maritime sector of the nation's transportation system. The final rule enhances port security by requiring security threat assessments of individuals who have unescorted access to secure areas and improving access control measures to prevent unauthorized individuals from gaining unescorted access to secure areas. The final rule amends existing appeal and waiver procedures, and expands the provisions to apply to TWIC applicants and air cargo personnel.

This rule correction document revises a paragraph in the appeal and waiver process codified in part 1515, redesignates a paragraph codified in part 1540 procedures for security threat assessment, and revises text in the list of disqualifying offenses codified in part 1572. Finally, we re-word the definition of "transportation security incident" in § 1572.103(a)(5). This definition is based on the definition of "transportation security incident" in 46 U.S.C. 70101(6), which was amended by sec. 124 of the SAFE Port Act, Public Law 109-347. We are amending the rule to conform to that statute.

The request for review may not include evidence or information that was not presented to TSA in the request for a waiver under 49 CFR 1515.7. The ALJ may consider only evidence or information that was presented to TSA in the waiver request. Atlantic Highly Migratory Species; Atlantic Commercial Shark Management Measures; Gear Operation and Deployment; Complementary Closures

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule.

SUMMARY: This final rule will implement additional handling, release, and disentanglement requirements for sea turtles and other non-target species caught in the commercial shark bottom longline (BLL) fishery. These requirements increase the amount of handling, release, and disentanglement gear that are required to be on BLL vessels and are intended to reduce post hooking mortality of sea turtles and other non-target species consistent with the Highly Migratory Species (HMS) Fishery Management Plan (FMP). This final rule will also implement management measures, consistent with those recommended by the Caribbean Fishery Management Council (CFMC) and implemented by NMFS on October 28, 2005, that prohibit vessels issued HMS permits with BLL gear onboard from fishing in six distinct areas off the U.S. Virgin Islands and Puerto Rico, year-round. These six closures are intended to minimize adverse impacts to Essential Fish Habitat (EFH) for reef-dwelling species.

DATES: This final rule is effective March 9, 2007.
