

(FONSI) and the determination was made that no environmental impact statement is required to support the Manila-Washam Plan. Pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Regulations (40 CFR part 1500); and the Natural Resources Conservation Service Regulations (7 CFR part 650); the Natural Resources Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Manila-Washam Salinity Control Project, Daggett County, Utah; and Sweetwater County, Wyoming. Written comments regarding this action may be submitted to: Sylvia Gillen, State Conservationist, USDA/NRCS, Wallace F. Bennett Federal Building, 125 South State Street, Room 4402, Salt Lake City, UT 84138-1100. Comments must be received no later than 30 days after this notice is published.

DATES: *Effective Date:* February 8, 2007.

FOR FURTHER INFORMATION CONTACT: Sylvia Gillen, State Conservationist, Natural Resources Conservation Service, Wallace F. Bennett Federal Building, 125 South State Street, Room 4402, Salt Lake City, UT 84138-1100; telephone (801) 524-4555.

SUPPLEMENTARY INFORMATION: The environmental assessment of this federally-assisted action documents that the project will not cause significant local, regional, State, or national impacts on the human environment. The findings of Sylvia Gillen, State Conservationist, indicate that the preparation and review of an environmental impact statement is not needed for this project.

The project purpose is to reduce salt loading to the Green River, a tributary to the Colorado River. Excessive loading is a result of seepage from the canal and delivery ditch systems and inefficient irrigation application methods and procedures. The planned works of improvement include replacement of delivery ditches with an on-farm underground pipeline delivery system; the installation of irrigation sprinkler systems; structures for water control; and wildlife habitat development. These enduring practices are accompanied by facilitating management practices such as: Irrigation Water Management, Wildlife Habitat Management Wetland, and Wildlife Habitat Management Upland.

This Notice of a Finding of No Significant Impact (FONSI) has been forwarded to the Environmental Protection Agency and to various Federal, State and local agencies and

interested parties. Copies of the FONSI and Plan/Environmental Assessment are available by request from Sylvia Gillen, Utah State Conservationist. Basic data developed during the environmental evaluation are on file and may be reviewed by contacting Sylvia Gillen, Utah State Conservationist. Copies of the Plan/Environmental Assessment and FONSI may be obtained from Ms. Karyl Fritsche, District Conservationist, USDA/NRCS, 80 North, 500 West, Vernal, UT 84078; telephone: (435) 789-2100; extension 32.

No administrative action on implementation of this project will be taken until 30 days after the date of this notice is published.

(This activity is listed in the Catalog of Federal Domestic Assistance under No. 10.902, Soil and Water Conservation and Environmental Quality Incentive Program 10.912.)

Signed in Salt Lake City, Utah, on January 25, 2007.

Sylvia A. Gillen,

State Conservationist.

ACTION: Notice of a public meeting.

SUMMARY: The South Atlantic Fishery Management Council (Council) will hold a meeting of its Shrimp Review Panel, in Charleston, SC.

DATES: The meeting will take place February 26–27, 2007. The meeting will be held from 1 p.m. to 5 p.m. on February 26, and from 8:30 a.m. to 12 noon on February 27.

ADDRESSES: The meeting will be held at the South Atlantic Fishery Management Council office, 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405; telephone: (843) 571–4366 or toll free (866) SAFMC–10; fax: (843) 769–4520.

SUPPLEMENTARY INFORMATION: The meeting is being convened to address the condition of the pink shrimp stock and over-wintering of white shrimp. Amendment 6 to the Fishery Management Plan for the Shrimp Fishery of the South Atlantic Region established a proxy for a minimum stock size threshold as a parent stock size capable of producing maximum sustainable yield (BMSY) the following year. The annual estimates of this BMSY proxy have been below the threshold value for more than two consecutive years. This situation may require future action by the Council, based on the findings and recommendations of its Shrimp Review Panel.

If necessary, the Panel may also make a recommendation on closing the Exclusive Economic Zone (EEZ) to protect over-wintering white shrimp if a closure is requested by the states. The Panel will prepare a report regarding its recommendations and forward it to the Council's Scientific and Statistical Committee and the Shrimp Committee to determine if further action is needed.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the Council's intent to take final action to address the emergency.
