

NATIONAL PRIORITIES—Continued

Priority	Nature of concern
Tribal	Tribal members face significant threats to human health and the environment posed by pollution of the air, water, and land in Indian country and other tribal areas, including in Alaska, where federally-recognized tribes and tribal members have recognized rights and interests protected by treaty, statute, judicial decisions, and other authorities. A diverse spectrum of regulated facilities exists in Indian country, including drinking water and wastewater treatment systems, manufacturing facilities, facilities discharging pollutants into the air or water, facilities storing, treating or disposing of solid or hazardous waste, abandoned waste sites, and other pollution sources.
National Priority returned to Core Program—Petroleum Refining.	Using compliance and enforcement tools to reduce air emissions and eliminate unpermitted releases from operable domestic petroleum refineries. This priority has met its goal of addressing 80% of refinery capacity, and therefore, is returning to the core program.

At this time we are inviting comments on this list of national priorities and welcome recommendations on other areas that you think should be considered as national priority candidates. EPA intends to consider public comments as we develop a limited number of recommended FY 2008–2010 priorities. When submitting responses to this Notice, commentors should rank which of the areas listed above should be a top concern for national focus, as well as suggest others not included on the current list. If additional problem areas are identified, the commentor should provide supporting information relating to the previously listed criteria. Suggested priority areas that are not chosen may be candidates for individual Regional or State attention and/or continued investigation. Direct your comments to Docket ID No. EPA–HQ–OECA–2007–0066. Please ensure that your comments are submitted within the specified comment period. Comments received after the closing date will be marked “late,” and may only be considered if time permits. It is EPA’s policy to include all comments it receives in the public docket without change and to make the comments available online at <http://www.regulations.gov>, including any personal information provided, unless a comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through www.regulations.gov or e-mail. The www.regulations.gov Web site is an “anonymous access” system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an e-mail comment directly to EPA without going through www.regulations.gov, your e-mail address will be automatically captured and included as part of the comment that is placed in the

public docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses. For additional information about EPA’s public docket visit the EPA Docket Center homepage at <http://www.epa.gov/epahome/dockets.htm>.

B. Projected Time Frames

After receiving comments in response to this Notice, we expect to complete an analysis of proposed priorities and provide a list of final recommendations to OECA’s Assistant Administrator for approval. EPA will share the final recommendations with the Regions, states and tribes in a subsequent **Federal Register** Notice this spring. OECA expects to issue its final FY2008 Work Planning Guidance, which will include the final list of 2008–2010 national priorities, in April 2007.

GENERAL SERVICES ADMINISTRATION

[PBS-N01; Docket 2007-0007, Sequence 7]

Notice of Availability to Distribute a Final Environmental Impact Statement for the Construction of a New Border Station Facility in Madawaska, Maine

AGENCY: Public Buildings Service, GSA.

ACTION: Notice of Availability.

SUMMARY: The General Services Administration (GSA) announces its intent to distribute a Final Environmental Impact Statement (Final EIS) under the National Environmental Policy Act (NEPA) of 1969, as amended, 42 U.S.C. 4321-4347 (NEPA) to assess the potential impacts of the construction of a New Border Station Facility in Madawaska, Maine (the "Proposed Action"). At the request of Customs and Border Protection (CBP), the GSA is proposing to construct a new border station facility which meets their needs, and the design requirements of the GSA.

The existing facilities are undersized and obsolete, and consequently incapable of providing the level of security now required. The Proposed Action has been defined and includes: (a) Identification of land requirements, including acquisition of adjoining land; (b) demolition of existing government structures at the border station; (c) construction of a main administration building and ancillary support buildings; and (d) consequent potential alterations to secondary roads.

Studied alternatives have identified alternative locations for the components of the border station including the main administration and ancillary support buildings, the associated roadway
