SUPPLEMENTARY INFORMATION: In compliance with 44 U.S.C. 3507, FDA has submitted the following proposed collection of information to OMB for review and clearance:

Guidance for Industry on How to Use E-mail to Submit a Notice of Final Disposition of Animals Not Intended for Immediate Slaughter—21 CFR 514.117(b)(2) and 21 CFR 511.1(b)(5); (OMB Control Number 0910-0453)—Extension

The Center for Veterinary Medicine (CVM) monitors the final disposition of investigational animals where such animals do not enter the human food chain immediately at the completion of the investigational study. CVM's monitoring of the final disposition of investigational food animals is intended to ensure that unsafe residues of new animal drugs do not get into the food supply. CVM issues a slaughter authorization letter to investigational new animal drug (INAD) sponsors that sets the terms under which investigational animals may be slaughtered (21 CFR 511.1(b)(5)). Also in this letter, CVM requests that sponsors submit a notice of final disposition of investigational animals not intended for immediate slaughter (NFDA). NFDAs have historically been submitted to CVM on paper. CVM's guidance on "How to Use E-mail to Submit a Notice of Final Disposition of Animals Not Intended for Immediate Slaughter" provides sponsors with the option to submit an NFDA as an e-mail attachment to CVM via the Internet.

In the **Federal Register** of November 9, 2006 (71 FR 65827), FDA published a 60-day notice soliciting public comment on the proposed collection of information requirements. In response to that notice, no comments were received.

The likely respondents for this collection are INAD sponsors.
