Bureau of Customs and Border Protection

Automated Commercial Environment (ACE): National Customs Automation Program Test of Automated Truck Manifest for Truck Carrier Accounts; Deployment Schedule

AGENCY: Customs and Border Protection; Department of Homeland Security.

ACTION: General notice.

SUMMARY: The Bureau of Customs and Border Protection, in conjunction with the Department of Transportation, Federal Motor Carrier Safety Administration, is currently conducting a National Customs Automation Program (NCAP) test concerning the transmission of automated truck manifest data. This document announces the next group, or cluster, of ports to be deployed for this test.

DATES: The ports identified in this notice, in the states of Idaho and Montana, are expected to be fully deployed for testing by February 22, 2007. Comments concerning this notice and all aspects of the announced test may be submitted at any time during the test period.

FOR FURTHER INFORMATION CONTACT: Mr. James Swanson via e-mail at james.d.swanson@dhs.gov.

SUPPLEMENTARY INFORMATION:

Background

The National Customs Automation Program (NCAP) test concerning the transmission of automated truck manifest data for truck carrier accounts was announced in a notice published in the **Federal Register** (69 FR 55167) on September 13, 2004. That notice stated that the test of the Automated Truck Manifest would be conducted in a phased approach, with primary

deployment scheduled for no earlier than November 29, 2004.

A series of **Federal Register** notices have announced the implementation of the test, beginning with a notice published on May 31, 2005 (70 FR 30964). As described in that document, the deployment sites for the test have been phased in as clusters. The ports identified belonging to the first cluster were announced in the May 31, 2005 notice. Additional clusters were announced in subsequent notices published in the **Federal Register** including: 70 FR 43892 (July 29, 2005); 70 FR 60096 (October 14, 2005); 71 FR 3875 (January 24, 2006); 71 FR 23941 (April 25, 2006); 71 FR 42103 (July 25, 2006) and 71 FR 77404 (December 26, 2006).

New Cluster

Through this notice, CBP announces that the next cluster of ports to be brought up for purposes of deployment of the test, to be fully deployed by February 22, 2007, will be the following specified ports in the States of Idaho (ID) and Montana (MT): Eastport, ID; Porthill, ID; Roosville, MT; Whitlash, MT; Del Bonita, MT; Wildhorse, MT; Sweetgrass, MT; Piegan, MT; Willow Creek, MT; Turner, MT; Morgan, MT; Scobey, MT; Opheim, MT; Raymond, MT; and Whitetail, MT. This deployment is for purposes of the test of the transmission of automated truck manifest data only; the Automated Commercial Environment (ACE) Truck Manifest System is not yet the mandated transmission system for these ports. The ACE Truck Manifest System will become the mandatory transmission system in these ports only after publication in the **Federal Register** of 90 days notice, as explained by CBP in the **Federal Register** notice published on October 27, 2006 (71 FR 62922).

Previous NCAP Notices Not Concerning Deployment Schedules

On Monday, March 21, 2005, a notice was published in the **Federal Register** (70 FR 13514) announcing a modification to the NCAP test to clarify that all relevant data elements are required to be submitted in the automated truck manifest submission. That notice did not announce any change to the deployment schedule and is not affected by publication of this notice. All requirements and aspects of the test, as set forth in the September 13, 2004 notice, as modified by the March 21, 2005 notice, continue to be applicable.

Dated: February 5, 2007.

Jayson P. Ahern,

Assistant Commissioner, Office of Field Operations.

DEPARTMENT OF HOMELAND SECURITY

Transportation Security Administration

Intent To Request Renewal From OMB of One Current Public Collection of Information: Sensitive Security Information Threat Assessments

AGENCY: Transportation Security Administration, DHS.

ACTION: Notice.

SUMMARY: The Transportation Security Administration (TSA) invites public comment on one currently approved information collection requirement abstracted below that we will submit to the Office of Management and Budget (OMB) for renewal in compliance with the Paperwork Reduction Act. TSA is seeking to renew the control number for the maximum three-year period in order to continue compliance with sec. 525 of the Department of Homeland Security Appropriations Act of 2007 (DHS Appropriations Act), and to continue the process TSA developed to determine whether the party or representative of a party seeking access to sensitive security information (SSI) in a civil proceeding in federal court may be granted access to the SSI.

DATES: Send your comments by April 16, 2007.

ADDRESSES: Comments may be mailed or delivered to Katrina Kletzly, Attorney-Advisor, Office of the Chief Counsel, TSA-2, Transportation Security Administration, 601 South 12th Street, Arlington, VA 22202-4220.

FOR FURTHER INFORMATION CONTACT: Katrina Kletzly at the above address, by telephone (571) 227-1995 or facsimile (571) 227-1381.

SUPPLEMENTARY INFORMATION:

Comments Invited

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. Therefore, in preparation for OMB review and approval of the following information collection, TSA is soliciting comments to—

(1) Evaluate whether the proposed information requirement is necessary for

the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Information Collection Requirement

TSA requested and subsequently received emergency clearance of this information collection request on January 12, 2007, which collection was assigned OMB control number 1652-0042. TSA is now seeking to renew the control number for the maximum three-year period in order to continue compliance with sec. 525 of the Department of Homeland Security Appropriations Act of 2007 (DHS Appropriations Act), and to continue the process TSA developed whereby a party seeking access to SSI in a civil proceeding in federal court that demonstrates a substantial need of relevant SSI in the preparation of the party's case, and that the party is unable without undue hardship to obtain the substantial equivalent of the information by other means, may request that the party or party's representative be granted conditional access to the SSI at issue in the case. Additionally, court reporters who are required to record or transcribe testimony containing specific SSI and do not have a current clearance required for access to classified national security information as defined by E.O. 12958 will need to request to be granted access to SSI. In order to determine if the individual may be granted access to SSI for this purpose, TSA will conduct a threat assessment that includes: (1) A fingerprint-based criminal history records check (CHRC); (2) a name-based check to determine whether the individual poses or is suspected of posing a threat to transportation or national security, including checks against terrorism, immigration or other databases TSA maintains or uses; and (3) a professional responsibility check (if applicable).

TSA will use the information collected to conduct the threat assessment for the purpose of determining whether the provision of such access to the information for the proceeding presents a risk of harm to the nation. The results of the threat

assessment will be used to make a final determination on whether the individual may be granted access to the SSI at issue in the case. TSA estimates that the total annual hour burden for this collection will be 180 hours, based on an estimated 180 annual respondents and a one hour burden per respondent.

Issued in Arlington, Virginia, on February 8, 2007.

Peter Pietra,

Director of Privacy Policy and Compliance.
