k. PG&E filed a settlement on behalf of itself and the majority of Federal and State agencies and other stakeholders involved in the relicensing proceeding. The purpose of the settlement agreement is to resolve all issues, except those that may arise under the Endangered Species Act, that have or could have been raised by the settling parties in connection with the Commission's issuance of a new license for the project and to establish PG&E's obligations for the protection, mitigation, and enhancement of resources affected by the project. SMUD asks that the settlement become the preferred alternative in lieu of the preferred alternative identified in the application for new license, filed with the Commission on July 15, 2005.

l. A copy of the settlement agreement is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document.
