EPAAR Prescription and Solicitation Provision—EPA Green Meetings and Conferences**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Proposed rule.

SUMMARY: EPA is proposing to revise the EPA Acquisition Regulation (EPAAR) Subparts 1523 and 1552 to establish policy and procedures for acquiring environmentally preferable meeting and conference services. This proposed EPAAR revision will add a prescription and solicitation provision that Agency employees will be required to use when soliciting quotes or offers for meeting and conference space and services. The solicitation provision will require meeting and conference venues to provide EPA with information about environmentally preferable features and practices in use at their facilities. As stated in the Federal Acquisition Regulation (FAR), environmentally preferable products and services are those “that have a lesser or reduced effect on human health and the environment when compared with competing products or services that serve the same purpose.” The intent of this rule is to ensure that environmental preferability is considered in each purchase of commercial meeting and conference services, which furthers the EPA mission to protect human health and the environment.

This action revises the EPAAR, but does not impose any new requirements on Agency contractors. The procedure will require Agency employees to request information from prospective meeting venues about their environmentally preferable (green) practices for consideration in the award decision, thus encouraging the industry to adopt more of these practices so that we will be more likely to do business with them. This rule imposes no requirement or standard that a facility must meet in order to do business with us.

DATES: Interested parties should submit comments in writing on or before March 26, 2007.

SUPPLEMENTARY INFORMATION:**I. General Information**

The proposed EPAAR additions are necessary so that the Agency can ensure that environmental preferability is considered in all purchases of commercial meeting and conference services. The new solicitation provision will not impose a substantial additional burden on meeting venues since they currently submit quotes or offers to the Agency in response to solicitations for meeting and conference services, and the rule will allow the information to be obtained electronically or orally when appropriate to the acquisition. The EPAAR changes are consistent with the FAR.

II. Statutory and Executive Order Reviews*A. Executive Order 12866*

It has been determined that this rule is not a “significant regulatory action” under the terms of Executive Order 12866 and is therefore not subject to OMB review.

B. Paperwork Reduction Act

This action does not impose an information collection burden under the provisions of the Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.* This rule does not impose any new information collection or other requirements on Agency contractors. Collection of information from prospective contractors via Agency solicitation is covered under existing active clearances OMB 9000-0136, Commercial Item Acquisitions—FAR Sections Affected: Part 12; 52.212-1 and 52.212-3, a Federal Acquisition Regulation clearance, in the case of commercial item simplified acquisitions; and OMB 2030-0006, Invitations for Bids and Request for Proposals (IFBs and RFPs), an EPA clearance, in the case of sealed bid or negotiated procurements. These clearances allow information to be collected from a quoter or offeror with the purpose of evaluating its capabilities for performing the contract requirements. In the case of this regulation, one of EPA’s requirements is to purchase environmentally preferable meeting and conference services to the greatest extent practicable, so we will need to solicit from each facility a technical description of environmentally preferable measures it has in place.

C. Regulatory Flexibility Act

The Regulatory Flexibility Act (RFA) generally requires an agency to prepare a regulatory flexibility analysis of any rule subject to notice and comment

rulemaking requirements under the Administrative Procedure Act or any other statute unless the agency certifies that the rule will not have a significant economic impact on a substantial number of small entities. Small entities include small businesses, small organizations, and small governmental jurisdictions.

For purposes of assessing the impacts of today's rule on small entities, small entity is defined as: (1) A small business as defined by the Small Business Administration's (SBA) regulations at 13 CFR 121.201; (2) a small governmental jurisdiction that is a government of a city, county, town, school district or special district with a population of less than 50,000; and (3) a small organization that is any not-for-profit enterprise which is independently owned and operated and is not dominant in its field.

After considering the economic impacts of today's proposed rule on small entities, I certify that this action will not have a significant economic impact on a substantial number of small entities. This proposed rule will not impose any new requirements on small entities.
