Submission for OMB Review; Comment Request

DOC will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: U.S. Census Bureau.

Title: 2007 Economic Census Covering the Mining Sector.

Form Number(s): MI-21101, MI-21102, MI-21171, MI-21201, MI-21202, MI-21203, MI-21204, MI-21205, MI-21206, MI-21207, MI-21208, MI-21209, MI-21210, MI-21211, MI-21271, MI-21301, MI-21302, MI-21351, MI-21352.

Agency Approval Number: None.

Type of Request: New collection.

Burden: 63,540 hours in FY 2008.

Number of Respondents: 15,000.

Average Hours Per Response: 4 hours and 15 minutes.

Needs and Uses: The 2007 Economic Census covering the Mining Sector will use a mail canvass, supplemented by data from federal administrative records, to measure the economic activity of approximately 25,000 mining establishments classified in the North American Industry Classification System (NAICS).

The mining sector of the economic census distinguishes two basic activities: Mine operation and mining support activities. The economic census will produce basic statistics for number

of establishments, shipments, payroll, employment, detailed supplies and fuels consumed, depreciable assets, inventories, and capital expenditures. It also will yield a variety of subject statistics, including shipments by product line, type of operation, size of establishments and other industry-specific measures.

This information collection is part of the 2007 Economic Census, which is required by law under Title 13, United States Code (U.S.C.).

The economic census is the primary source of facts about the structure and functioning of the Nation's economy and features unique industry and geographic detail. Economic census statistics serve as part of the framework for the national accounts and provides essential information for government, industry, business, and the general public. The Federal Government uses information from the economic census as an important part of the framework for the national accounts, input-output measures, key economic indexes, and other estimates that serve as the factual basis for economic policy-making, planning, and program administration. State and local governments rely on the economic census as a unique source of comprehensive economic statistics for small geographical areas for use in policy-making, planning, and program administration. Finally, industry, business, and the general public use data from the economic census for economic forecasts, market research, benchmarks for their own sample-based surveys, and business and financial decision making.

If the economic census was not conducted, the Federal Government would lose vital source data and benchmarks for the national accounts, input-output tables, and other composite measures of economic activity, causing substantial degradation in the quality of these important statistics. Further, the government would lose critical benchmarks for current, sample-based economic surveys and an essential source of detailed, comprehensive economic information for use in policy-making and program administration.

Affected Public: Business or other for-profit organizations.

Frequency: One time.

Respondent's Obligation: Mandatory.
Legal Authority: Title 13 U.S.C., 131 & 224.

OMB Desk Officer: Brian Harris-Kojetin, (202) 395-7314.

Chlorinated Isocyanurates from the People's Republic of China: Extension of Time Limit for Preliminary Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: March 5, 2007.

FOR FURTHER INFORMATION CONTACT:

Katharine Huang or Charles Riggle, AD/CVD Operations, Office 8, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone (202) 482-1271 or (202) 482-0650, respectively.

Background

On July 27, 2006, the Department of Commerce (the "Department") published a notice of initiation of administrative review of the antidumping duty order on chlorinated isocyanurates from the People's Republic of China, covering the period December 16, 2004, through May 31, 2006. See *Initiation of Antidumping and Countervailing Duty Administrative Reviews and Request for Revocation in Part*, 71 FR 42626 (July 27, 2006). The preliminary results are currently due no later than March 2, 2007.

Statutory Time Limits

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), requires the Department to make a preliminary determination within 245 days after the last day of the anniversary month of an order or finding for which a review is requested and a final determination within 120 days after the date on which the preliminary determination is published. However, if it is not practicable to complete the review within these time periods, section 751(a)(3)(A) of the Act allows the Department to extend the 245-day time limit for the preliminary determination to a maximum of 365 days and the time limit for the final determination to 180 days (or 300 days if the Department does not extend the time limit for the preliminary determination) from the date of publication of the preliminary determination.

Extension of Time Limit for Preliminary Results of Review

We determine that it is not practicable to complete the preliminary results of

this review within the original time limit. Additional time is required to analyze complicated issues raised by the parties regarding possible affiliation. Therefore, the Department is extending the time limit for completion of the preliminary results by 60 days until no later than May 1, 2007. We intend to issue the final results no later than 120 days after the publication of the preliminary results notice.

This extension is in accordance with section 751(a)(3)(A) of the Act.

Dated: February 20, 2007.

Stephen J. Claeys,

Deputy Assistant Secretary for Import Administration.
