Section 73.1620(a) requires licensees to notify the Commission that construction of a station has been completed and that the station is broadcasting program material. The notification in Section 73.1620(f) alerts the UHF translator station that the potential of interference exists. The report in Section 73.1620(g) stating deviations are necessary to eliminate possible abuses of the FCC's processes and to ensure that comparative promises relating to service to the public are not inflated.
