**SUPPLEMENTARY INFORMATION:** NPS planning staff, staff at Sagamore Hill, and key park partners collaborated in the development of the Draft GMP/EIS. A previous master plan was prepared for the park in 1963 but was not approved. Project scoping for the GMP began in May 2003. Formal public scoping sessions were held in Oyster Bay and NYC in April 2004. A preliminary alternatives newsletter was prepared and distributed in April 2005 followed by two community meetings.

The Draft GMP/EIS addresses the following issues—improving the visitor experience, broadening and diversifying the park audience, improving operational efficiency, and enhancing resource protection. Key park partners closely involved in the development of planning alternatives include the Theodore Roosevelt Association, the Friends of Sagamore Hill, and the park's Volunteer Advisory Board.

In addition to *Alternative 1—Status Quo*, which describes the continuation of current management practices, the plan includes two action alternatives. *Alternative 2—Building Capacity* emphasizes building the park's capacity to address its basic visitor services and operational needs. Alternative 3 is the National Park Service's preferred alternative. *Alternative 3—Past Meets Present* emphasizes rehabilitation of the park's cultural resources and improvements to its visitor services and facilities to offer expanded opportunities for visitors to explore the site's contemporary relevance in the same context in which they explore its history.

After public review of the Draft GMP/EIS, the National Park Service will consider public comments, and a Final GMP/EIS will be prepared. The Final GMP/EIS is scheduled for completion in 2007. Before including your address, phone number, e-mail address or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
