POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The Department maintains records on CD-ROM, and the contractor and

subcontractor maintain data for this system on computers and in hard copy.

RETRIEVABILITY:

Records in this system are indexed by a number assigned to each individual that is cross-referenced by the individual's name on a separate list.

SAFEGUARDS:

All physical access to the Department's site and to the sites of the Department's contractor and subcontractor, where this system of records is maintained, is controlled and monitored by security personnel. The computer system employed by the Department offers a high degree of resistance to tampering and circumvention. This security system limits data access to Department and contract staff on a "need to know" basis and controls individual users' ability to access and alter records within the system. The contractor, Westat, and its subcontractor, InfoUse, have established similar sets of procedures at their sites to ensure confidentiality of data. Their systems ensure that information identifying individuals is in files physically separated from other research data. They will maintain security of the complete set of all master data files and documentation. Access to individually identifiable data will be strictly controlled. At each site, all data will be kept in locked file cabinets during nonworking hours, and work on hardcopy data will take place in a single room, except for data entry. Physical security of electronic data will also be maintained. Security features that protect project data include password-protected accounts that authorize users to use the Westat or InfoUse system but to access only specific network directories and network software; user rights and directory and file attributes that limit those who can use particular directories and files and determine how they can use them; and additional security features that the network administrators establish for projects as needed.

RETENTION AND DISPOSAL:

Records are maintained and disposed of in accordance with the Department's Records Disposition Schedules, Part 3, Items 2b, 4a, and 5a.

SYSTEM MANAGER AND ADDRESS:

Joe Pepin, Unit Leader, Data Collection and Analysis Unit, Rehabilitation Services Administration, Office of Special Education and Rehabilitative Services, U.S. Department of Education, 400 Maryland Avenue, SW., room 5057, Potomac Center Plaza, Washington, DC 20202-2800.
