

notifications disclosing all changes in membership.

On May 27, 2003, Semiconductor Test Consortium, Inc. filed its original notification pursuant to Section 6(a) of the Act. The Department of Justice published a notice in the **Federal Register** pursuant to Section 6(b) of the Act on June 17, 2003 (68 FR 35913).

The last notification was filed with the Department on October 25, 2006. A notice was published in the **Federal Register** pursuant to Section 6(b) of the Act on November 22, 2006 (71 FR 67643).

Patricia A. Brink,

Deputy Director of Operations, Antitrust Division.

[FR Doc. 07-1200 Filed 3-14-07; 8:45 am]

BILLING CODE 4410-11-M

DEPARTMENT OF LABOR

Mine Safety and Health Administration

Proposed Information Collection Request Submitted for Public Comment and Recommendations; Safety Standards for Underground Coal Mine Ventilation—Belt Entry Used as an Intake Air Course To Ventilate Working Sections and Areas Where Mechanized Mining Equipment Is Being Installed or Removed

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506 (c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed.

Currently, the Mine Safety and Health Administration (MSHA) is soliciting comments concerning the extension of the information collection related to 30 CFR Sections 75.350, 75.351, 75.352 and 75.371.

DATES: Submit comments on or before May 14, 2007.

ADDRESSES: Send comments to, Debbie Ferraro, Management Services Division, 1100 Wilson Boulevard, Room 2171,

Arlington, VA 22209-3939. Commenters are encouraged to send their comments on computer disk, or via Internet E-mail to *Ferraro.Debbie@DOL.GOV*. Ms. Ferraro can be reached at (202) 693-9821 (voice), or (202) 693-9801 (facsimile).

FOR FURTHER INFORMATION CONTACT: The employee listed in the **ADDRESSES** section of this notice.

SUPPLEMENTARY INFORMATION:

I. Background

The Safety Standards for Underground Coal Mine Ventilation—Belt Entry rule provides safety requirements for the use of the conveyor belt entry as a ventilation intake to course fresh air to working sections and areas where mechanized mining equipment is being installed or removed in mines with three or more entries. This rule is a voluntary standard. If the mine operators choose to use belt air to ventilate working places, the provisions will maintain the level of safety in underground mines while allowing them to implement advances in mining atmospheric monitoring technology. This rule offers alternate provisions that mine operators need to follow if they want to use belt air to ventilate working sections.

II. Desired Focus of Comments

MSHA is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

A copy of the proposed information collection request can be obtained by contacting the employee listed in the **FOR FURTHER INFORMATION CONTACT** section of this notice, or viewed on the Internet by accessing the MSHA home page (<http://www.msha.gov>) and then choosing "Statutory and Regulatory

Information" and "**Federal Register Documents.**"

III. Current Actions

This request for collection of information from mine operators that elect to use belt air to ventilate working sections and areas where mechanized equipment is being installed or removed will be used by coal mine supervisors and employees, State mine inspectors, and Federal mine inspectors. The information will provide insight into the hazardous conditions that have been encountered and those that may be encountered. The records of inspections greatly assist those who use them in making decisions that will ultimately affect the safety and health of miners working in belt air mines.

Type of Review: Extension.

Agency: Mine Safety and Health Administration.

Title: Safety Standards for Underground Coal Mine Ventilation—Belt Entry Used as an Intake Air Course to Ventilate Working Sections and Areas Where Mechanized Mining Equipment Is Being Installed or Removed.

OMB Number: 1219-0138.

Frequency: On Occasion.

Affected Public: Business or other for-profit.

Respondents: 45.

Total Burden Hours: 9758.

Total Burden Cost (operating/maintaining): \$87,137.

Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.

Dated at Arlington, Virginia, this 9th day of March, 2007.

David L. Meyer,

Director, Office of Administration and Management.

[FR Doc. E7-4723 Filed 3-14-07; 8:45 am]

BILLING CODE 4510-43-P

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[Docket No. OSHA-2007-0014]

Standard on Additional Requirements for Special Dipping and Coating Operations (Dip Tanks); Extension of the Office of Management and Budget's Approval of Information Collection (Paperwork) Requirement

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Request for public comment.

SUMMARY: OSHA solicits public comment concerning its proposal to extend OMB approval of the information collection requirement specified in its standard on Additional Requirements for Special Dipping and Coating Operations (Dip Tanks) (29 CFR 1910.126(g)(4)). The provision is to ensure that employers make employees aware of the minimum distance between goods being electrostatically deteared.

DATES: Comments must be submitted (postmarked, sent, or received) by May 14, 2007.

ADDRESSES: *Electronically:* You may submit comments and attachments electronically at <http://www.regulations.gov>, which is the Federal eRulemaking Portal. Follow the instructions online for submitting comments.

Facsimile: If your comments, including attachments, are not longer than 10 pages, you may fax them to the OSHA Docket Office at (202) 693-1648.

Mail, hand delivery, express mail, messenger, or courier service: When using this method, you must submit three copies of your comments and attachments to the OSHA Docket Office, OSHA Docket No. OSHA-2007-0014, U.S. Department of Labor, Occupational Safety and Health Administration, Room N-2625, 200 Constitution Avenue, NW., Washington, DC 20210. Deliveries (hand, express mail, messenger, and courier service) are accepted during the Department of Labor's and Docket Office's normal business hours, 8:15 a.m. to 4:45 p.m., e.t.

Instructions: All submissions must include the Agency name and OSHA docket number for the ICR (OSHA Docket No. OSHA-2007-0014). All comments, including any personal information you provide, are placed in the public docket without change, and may be made available online at <http://www.regulations.gov>. For further information on submitting comments see the "Public Participation" heading in the section of this notice titled **SUPPLEMENTARY INFORMATION**.

Docket: To read or download comments or other material in the docket, go to <http://www.regulations.gov> or the OSHA Docket Office at the address above. All documents in the docket (including this **Federal Register** notice) are listed in the <http://www.regulations.gov> index; however, some information (e.g., copyrighted material) is not publicly available to read or download through the Web site. All submissions, including copyrighted material, are available for inspection

and copying at the OSHA Docket Office. You may also contact Theda Kenney at the address below to obtain a copy of the ICR.

FOR FURTHER INFORMATION CONTACT: Theda Kenney or Todd Owen, Directorate of Standards and Guidance, OSHA, U.S. Department of Labor, Room N-3609, 200 Constitution Avenue, NW., Washington, DC 20210; telephone (202) 693-2222.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent (i.e., employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (the OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of efforts in obtaining information (29 U.S.C. 657).

The standard on Additional Requirements for Special Dipping and Coating Operations, 29 CFR 1910.126(g)(4), requires employers to post a conspicuous sign near each piece of electrostatic deteareing equipment that notifies employees of the minimum safe distance they must maintain between goods undergoing electrostatic deteareing and the electrodes or conductors of the equipment used in the process. Doing so reduces the likelihood of igniting the explosive chemicals used in electrostatic deteareing operations.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirement is necessary for the proper performance of the Agency's functions to protect employees,

including whether the information is useful;

- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirement, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

OSHA is requesting that OMB extend its approval of the information collection requirement contained in the Standard on Additional Requirements for Special Dipping and Coating Operations (Dip Tanks) (29 CFR 1910.126(g)(4)). The Agency is requesting to retain its previous burden hour estimate of 1 hour. The Agency will summarize the comments submitted in response to this notice, and will include this summary in the request to OMB.

Type of Review: Extension of currently approved information collection requirement.

Title: Standard on Additional Requirements for Special Dipping and Coating Operations (Dip Tanks) (29 CFR 1910.126).

OMB Number: 1218-0237.

Affected Public: Business or other for-profit.

Number of Respondents: 0.

Frequency of Recordkeeping: On occasion.

Total Responses: 1.

Average Time Per Response: 0.

Estimated Total Burden Hours: 1.

Estimated Cost (Operation and Maintenance): \$0.

IV. Public Participation—Submission of Comments on this Notice and Internet Access to Comments and Submissions

You may submit comments in response to this document as follows:

(1) Electronically at <http://www.regulations.gov>, which is the Federal eRulemaking Portal; (2) by facsimile (FAX); or (3) by hard copy. All comments, attachments, and other material must identify the Agency name and the OSHA docket number for the ICR (OSHA Docket No. OSHA-2007-0014). You may supplement electronic submissions by uploading document files electronically. If you wish to mail additional materials in reference to an electronic or facsimile submission, you must submit them to the OSHA Docket Office (see the section of this notice titled **ADDRESSES**). The additional

materials must clearly identify your electronic comments by your name, date, and the docket number so the Agency can attach them to your comments.

Because of security procedures, the use of regular mail may cause a significant delay in the receipt of comments. For information about security procedures concerning the delivery of materials by hand, express delivery, messenger, or courier service, please contact the OSHA Docket Office at (202) 693-2350 (TTY (877) 889-5627).

Comments and submissions are posted without change at <http://www.regulations.gov>. Therefore, OSHA cautions commenters about submitting personal information such as social security numbers and date of birth. Although all submissions are listed in the <http://www.regulations.gov> index, some information (e.g., copyrighted material) is not publicly available to read or download through this website. All submissions, including copyrighted material, are available for inspection and copying at the OSHA Docket Office. Information on using the <http://www.regulations.gov> Web site to submit comments and access the docket is available at the Web site's "User Tips" link. Contact the OSHA Docket Office for information about materials not available through the Web site, and for assistance in using the Internet to locate docket submissions.

Electronic copies of this **Federal Register** document are available at <http://www.regulations.gov>. This document as well as news releases and other relevant information also are available at OSHA's webpage at <http://www.osha.gov>.

V. Authority and Signature

Edwin G. Foulke, Jr., Assistant Secretary of Labor for Occupational Safety and Health, directed the preparation of this notice. The authority for this notice is the Paperwork Reduction Act of 1995 (44 U.S.C. 3506 *et seq.*) and Secretary of Labor's Order No. 5-2002 (67 FR 65008).

Signed at Washington, DC, on March 9, 2007.

Edwin G. Foulke, Jr.

Assistant Secretary of Labor.

BILLING CODE 4510-26-P

NATIONAL TRANSPORTATION SAFETY BOARD

Sunshine Act Meeting; Notice

TIME AND DATE: 9:30 a.m., Tuesday, March 20, 2007. (The time of this meeting has changed to 12:30 p.m.)
PLACE: NTSB Conference Center, 429 L'Enfant Plaza SW., Washington, DC 20594.
STATUS: The two items are open to the public.

MATTERS TO BE CONSIDERED:

7870: *Railroad Accident Report—Collision Of Two CN Freight Trains, Anding, Mississippi, July 10, 2005 (DCA-05-MR-011).*

7834A: *Marine Accident Brief and Safety Recommendation Letter—Fire on Board U.S. Small Passenger Vessel Massachusetts, Boston Harbor, Massachusetts, June 12, 2006.*

NEWS MEDIA CONTACT: Telephone: (202) 314-6100. Individuals requesting specific accommodations should contact Chris Bisett at (202) 314-6305 by Friday, March 16, 2007.

The public may view the meeting via live or archived Webcast by accessing a link under "News & Events" on the NTSB home page at <http://www.nts.gov>.

FOR FURTHER INFORMATION CONTACT:

Vicky D' Onofrio, (202) 314-6410.

Dated: March 13, 2007.

Candi R. Bing,

Federal Register Alternate Liaison Officer.

BILLING CODE 7533-01-M

NUCLEAR REGULATORY COMMISSION

[Docket No. 70-1257]

Notice of License Renewal Request of AREVA NP, Richland, WA, and Opportunity To Request a Hearing

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of license renewal application, and opportunity to request a hearing.

DATES: A request for a hearing must be filed by May 14, 2007.

FOR FURTHER INFORMATION CONTACT:

Merritt Baker, Project Manager, Fuel Facility Licensing Directorate, Division of Fuel Cycle Safety and Safeguards, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555.
Telephone: (301) 415-6155; *fax number:* (301) 415-5955; *e-mail:* mnb@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The U.S. Nuclear Regulatory Commission (NRC) has received, by letter dated October 24, 2006, a license renewal application from AREVA NP, Inc. (AREVA), requesting renewal of License No. SNM-1227 at its Richland fuel fabrication facility located in Richland, Washington. License No. SNM-1227 authorizes the licensee to possess and use special nuclear material for the manufacture of fuel for nuclear power plants.

The Richland facility has been licensed by the Atomic Energy Commission and its successor, the NRC, to manufacture low-enriched uranium fuel for nuclear power plants. The license was renewed in 1996 for a period of 10 years, expiring on November 30, 2006. By applications dated October 24 and December 13, 2006, AREVA requested renewal of their license for a period of 40 years. The NRC will review the license renewal application for compliance with applicable sections of regulations in Title 10 of the Code of Federal Regulations (10 CFR)—Energy, Chapter I—Nuclear Regulatory Commission. The license renewal application included an Environmental Report, which the NRC will review and use to prepare an environmental assessment to assist in the NRC's determination on the license renewal application, as required by 10 CFR Part 51, Environmental Protection Regulations for Domestic Licensing and Related Regulatory Functions, and the National Environmental Policy Act.

An NRC administrative review, documented in a letter to AREVA dated February 7, 2007, (ML070320061) found the application acceptable to begin a technical review. Because AREVA filed the application for renewal not less than 30 days before the expiration of the date stated in the existing license, the existing license will not expire until the Commission makes a final determination on the renewal application, in accordance with the timely renewal provision of 10 CFR 70.38(a)(1). If the NRC approves the renewal application, the approval will be documented in NRC License No. SNM-1227. However, before approving the proposed renewal, the NRC will need to make the findings required by the Atomic Energy Act of 1954, as amended, and NRC's regulations. These findings will be documented in a Safety Evaluation Report and an Environmental Assessment and/or an Environmental Impact Statement.
