DEPARTMENT OF DEFENSE

Office of the Secretary

Notice of Availability of the Draft Programmatic Environmental Impact Statement for DTRA Activities on White Sands Missile Range, New Mexico

AGENCY: Department of Defense, Office of the Under Secretary of Defense for Acquisition, Technology, and Logistics, Defense Threat Reduction Agency.

ACTION: Notice of availability of final programmatic environmental impact statement (PEIS) for increased testing activities at White Sands Missile Range (WSMR), NM.

SUMMARY: Pursuant to the National Environmental Policy Act of 1969, as amended (NEPA) (42 U.S.C. 4321 *et seq.*) and the Council on Environmental Quality Regulations for Implementing the Procedural Provisions of NEPA (40 CFR Parts 1500-1508), DTRA has prepared and issued a final PEIS for the proposed testing activities at WSMR. The PEIS addresses the potential environmental impacts associated with implementing the proposed action, alternative, and no action alternative over a 10 year period. The purpose of the proposed action is to provide adequate test areas and facilities to evaluate the lethality effectiveness of weapon systems used against simulated enemy ground targets producing, storing, or controlling Weapons of Mass Destruction (WMD). There is a need to improve weapon systems designed to defeat enemy military assets including hardened and reinforced structures. These enemy military assets can house WMD and pose a significant threat to international stability and peaceful coexistence among nations. The military structures and equipment of the United States and its allies must also be refined to better withstand attack by enemy weapons systems to reduce collateral damage. The PEIS presents descriptions of the proposed action, an overview of the affected environment at and near the test sites, and the potential environmental consequences associated
