

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Agricultural Research Service

Notice of Intent to Grant Exclusive License

AGENCY: Agricultural Research Service, USDA.

ACTION: Notice of intent.

SUMMARY: Notice is hereby given that the U.S. Department of Agriculture, Agricultural Research Service, intends to grant to Caribbean Dairy Institute, Inc. of Mayagüez, Puerto Rico, an exclusive license to U.S. Patent Application Serial No. 10/895,797, "Methods for Prevention and Treatment of Mastitis", filed on July 21, 2004.

DATES: Comments must be received within thirty (30) days of the date of publication of this Notice in the **Federal Register**.

ADDRESSES: Send comments to: USDA, ARS, Office of Technology Transfer, 5601 Sunnyside Avenue, Room 4-1174, Beltsville, Maryland 20705-5131.

FOR FURTHER INFORMATION CONTACT: June Blalock of the Office of Technology Transfer at the Beltsville address given above; telephone: 301-504-5989.

SUPPLEMENTARY INFORMATION: The Federal Government's patent rights to this invention are assigned to the United States of America, as represented by the Secretary of Agriculture. It is in the public interest to so license this invention as Caribbean Dairy Institute, Inc. of Mayagüez, Puerto Rico has submitted a complete and sufficient application for a license. The prospective exclusive license will be royalty-bearing and will comply with the terms and conditions of 35 U.S.C. 209 and 37 CFR 404.7. The prospective exclusive license may be granted unless, within thirty (30) days from the date of this published Notice, the Agricultural Research Service receives written evidence and argument which establishes that the grant of the license

would not be consistent with the requirements of 35 U.S.C. 209 and 37 CFR 404.7.

Richard J. Brenner,

Assistant Administrator.

BILLING CODE 3410-03-P

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: U.S. Census Bureau.

Title: 2008 Census Coverage Measurement, Independent Listing and Relisting Operations.

Form Number(s): DX-1302.

Agency Approval Number: None.

Type of Request: New collection.

Burden: 1,559 hours.

Number of Respondents: 40,000.

Average Hours Per Response: 2 minutes.

Needs and Uses: In preparation for the 2010 Census, the U.S. Census Bureau requests authorization from OMB to conduct the Census Coverage Measurement (CCM) Independent Listing Interview and the CCM Relisting Interview as part of the 2008 Dress Rehearsal. The CCM program for the dress rehearsal is designed to test that all planned coverage measurement operations are working as expected, that they are integrated internally, and that they are coordinated with the appropriate census operations.

The 2008 Census Dress Rehearsal will be conducted in two sites, one urban, and the other one, a mix of urban and suburban. San Joaquin County, California is the urban site. South Central North Carolina has been selected as the urban/suburban mix test site. This area consists of Fayetteville and nine counties surrounding Fayetteville (Chatham, Cumberland, Harnett, Hoke, Lee, Montgomery, Moore, Richmond, and Scotland).

The 2008 CCM test will be comprised of two samples selected to measure census coverage of housing units and the household population: The

population sample (P sample) and the enumeration sample (E sample). The P sample is a sample of housing units and persons obtained independently from the census for a sample of block clusters. The E sample is a sample of census housing units and enumerations in the same block cluster as the P sample. The independent roster of housing units is obtained during the CCM Independent Listing, the results of which will be matched to census housing units in the sample block clusters, surrounding blocks, and across the entire site. Separate OMB packages will be submitted for subsequent CCM field operations.

The CCM operations planned for the dress rehearsal, to the extent possible, will mirror those that will be conducted for the 2010 Census to provide estimates of net coverage error and components of coverage error (omissions and erroneous enumerations) for housing units and persons in housing units (see Definition of Terms). The data collection and matching methodologies for previous coverage measurement programs were designed only to measure net coverage error, which reflects the difference between omissions and erroneous inclusions.

The Independent Listing Operation is the first step in the CCM process. It will be conducted to obtain a complete inventory of all housing unit addresses within the CCM sample block clusters before the 2008 Census Dress Rehearsal enumeration commences. In both dress rehearsal sites, Listers will canvass every street, road, or other place where people might live in their assigned block clusters and construct a list of housing units. Listers will contact a member of each housing unit (or proxy, as a last resort) to ensure all units at a given address are identified. They will also identify the location of each housing unit by assigning map spots on block cluster maps provided with their assignment materials. If an enumerator is uncertain whether particular living quarters is a housing unit, it will be listed and flagged for possible followup, if still unresolved after matching (this will be a part of the Initial Housing Unit Followup).

Completed Independent Listing Books are subject to Dependent Quality Control (DQC) wherein DQC listers return to the field to check 12 housing units per cluster to ensure that the work
