

Finally, three specialty stainless steels typically used in certain industrial blades and surgical and medical instruments are also excluded from the scope of this order. These include stainless steel strip in coils used in the production of textile cutting tools (e.g., carpet knives).⁵ This steel is similar to AISI grade 420 but containing, by weight, 0.5 to 0.7 percent of molybdenum. The steel also contains, by weight, carbon of between 1.0 and 1.1 percent, sulfur of 0.020 percent or less, and includes between 0.20 and 0.30 percent copper and between 0.20 and 0.50 percent cobalt. This steel is sold under proprietary names such as "GIN4 Mo." The second excluded stainless steel strip in coils is similar to AISI 420-J2 and contains, by weight, carbon of between 0.62 and 0.70 percent, silicon of between 0.20 and 0.50 percent, manganese of between 0.45 and 0.80 percent, phosphorus of no more than 0.025 percent and sulfur of no more than 0.020 percent. This steel has a carbide density on average of 100 carbide particles per 100 square microns. An example of this product is "GIN5" steel. The third specialty steel has a chemical composition similar to AISI 420 F, with carbon of between 0.37 and 0.43 percent, molybdenum of between 1.15 and 1.35 percent, but lower manganese of between 0.20 and 0.80 percent, phosphorus of no more than 0.025 percent, silicon of between 0.20 and 0.50 percent, and sulfur of no more than 0.020 percent. This product is supplied with a hardness of more than Hv 500 guaranteed after customer processing, and is supplied as, for example, "GIN6".

[Docket No. 0612243002-7057-01]

Amendment to the Required Minimum Performance Ratings for Optional Third-Year Funding for the Miami/Ft. Lauderdale, Oklahoma City and Honolulu Minority Business Enterprise Centers

AGENCY: Minority Business Development Agency, Commerce.

ACTION: Notice.

SUMMARY: On August 17, 2004, the Minority Business Development Agency (MBDA) published a **Federal Register** notice soliciting competitive applications for operators of the Miami/Ft. Lauderdale, Oklahoma City and Honolulu Minority Business Enterprise Centers (MBECs) (formerly Minority Business Development Centers). No other MBECs were included as part of this competitive solicitation. The August 17, 2004 notice provides for a two-year award period, with an optional third-year award period available at the sole discretion of MBDA and the Department of Commerce. The notice also provides that only those MBECs achieving "outstanding" performance ratings for each of the two prior program

years are eligible to receive funding for the optional third-year of the award.

This notice amends the August 17, 2004 notice to change the minimum required performance rating for the optional third-year award period from "outstanding" to "at least commendable" for the first program year. The "outstanding" performance requirement for the second program year continues to apply. MBDA is making this amendment to allow the operators of these three MBECs to be eligible for a third and final year of continuation funding if they achieve at least a "commendable" performance rating for first program year and an "outstanding" performance rating for the second program year.

DATES: The optional third-year award period, if approved by the Department of Commerce Grants Officer, will be effective as of January 1, 2007 and will continue through December 31, 2007.

FOR FURTHER INFORMATION CONTACT: Mr. Efrain Gonzalez, Program Manager, Minority Business Development Agency, Office of Business Development, 1401 Constitution Avenue, NW., Room 5075, Washington, DC 20230. Mr. Gonzalez may be reached by telephone at (202) 482-1940 and by e-mail at egonzalez@mbda.gov.

SUPPLEMENTARY INFORMATION: On August 17, 2004, MBDA published a **Federal Register** notice (69 FR 51064) soliciting competitive applications for operators of the Miami/Ft. Lauderdale, Oklahoma City and Honolulu MBECs, which cover the metropolitan statistical areas of Miami/Ft. Lauderdale, Florida, the State of Oklahoma and the Island of Hawaii, respectively. No other MBECs were included as part of this competitive solicitation. The August 17, 2004 notice provides for a two-year award period (January 1, 2005-December 31, 2006), with a third-year option (January 1, 2007-December 31, 2007) available at the sole discretion of MBDA and the Department of Commerce. The August 17, 2004 notice further provides that only those MBECs achieving "outstanding" performance ratings for each of the two prior program years are eligible to receive funding for the optional third-year of the award. Pursuant to the August 17, 2004 notice, two-year awards were made to M. Gill and Associates (Miami/Ft. Lauderdale MBEC), Langston University (Oklahoma City MBEC) and the University of Hawaii (Honolulu MBEC) for the award period January 1, 2005-December 31, 2006.

MBDA has determined that it is necessary to amend the August 17, 2004 notice to change the minimum required

performance rating for optional third-year funding from "outstanding" to "at least commendable" (as defined in the FFO accompanying the original notice) for the first program year. All other provisions of the original August 17, 2004 notice remain the same.

Limitation of Liability

Publication of this announcement does not oblige the Department of Commerce or MBDA to award a third-year extension to any of the MBEC operators or projects identified in this notice or to obligate any available funds for such purpose.

Electronic Access

This **Federal Register** document is available on the Government Printing Office's website at: www.gpoaccess.gov/fr/index.

Background

The MSRA, signed into law by President Bush on January 12, 2007, set

forth new requirements related to overfishing, including new ACL and AM provisions for federally managed fisheries in the U.S. exclusive economic zone. NMFS intends to revise the National Standard 1 (NS1) Guidelines, 50 CFR 600.310, through a proposed and final rule to incorporate guidance of these MSRA sections before the end of 2007. NMFS is seeking input on ACLs and AMs and related matters in the NS1 guidelines. More background related to this action is contained in the NOI published on February 14, 2007 (72 FR 7016), and is not repeated here.
