Title: Motor Vehicle and Engine Compliance Program Fees (Renewal).

ICR numbers: EPA ICR No. 2080.03, OMB Control No. 2060-0545.

ICR Status: This ICR is scheduled to expire on March 31, 2007. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: EPA charges user fees for administering its vehicle and engine certification programs. In 2004 the fees were extended to include certification applications for recently regulated categories of off-road vehicles and engines. Manufacturers and importers of covered vehicles and engines are required to pay the applicable certification fee prior to their certification applications being reviewed. This involves submitting payments along with a filing form identifying the engine family to be covered by the fee. There are also correction and refund forms. This ICR estimates the paperwork burden of submitting these fees and associated forms. This information collection covers the entire certification fees program, both on-road and off-road.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 0.3 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying

information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Manufacturers or importers of passenger cars, motorcycles, light trucks, heavy duty truck engines, and non-road vehicles or engines required to receive a certificate of conformity from EPA prior to selling or introducing these products into commerce in the U.S.

Estimated Number of Respondents: 419.

Frequency of Response: On occasion.

Estimated Total Annual Hour Burden: 694.8.

Estimated Total Annual Cost: \$46,198, including \$11,028 in O&M costs and no startup or capital costs.

Changes in the Estimates: There is an increase of 65.8 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This increase is due to use of actual counts, rather than projections, of fee forms submitted, and to an increase in the estimated time required to process reduced fee and refund requests.

Dated: March 12, 2007.

Director, Collection Strategies Division.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Medicare & Medicaid Services

Privacy Act of 1974: Report of Modified System of Records

AGENCY: Department of Health and Human Services (HHS), Centers for Medicare & Medicaid Services (CMS).

ACTION: Notice of Modified System of Records (SOR).

SUMMARY: In accordance with the requirements of the Privacy Act of 1974, we are proposing to modify a SOR titled, "Long Term Care-Minimum Data Set" (MDS), System No. 09-70-1517, most recently modified at 67 FR 6714 (February 13, 2002). We propose to assign a new CMS identification number to this system to simplify the obsolete and confusing numbering system originally designed to identify the Bureau, Office, or Center that maintained information in the Health Care Financing Administration systems of records. The new identifying number for this system should read: System No. 09-70-0528.

We propose to modify existing routine use number 1 that permits disclosure to agency contractors and consultants to include disclosure to CMS grantees who perform a task for the agency. CMS grantees, charged with completing projects or activities that require CMS data to carry out that activity, are classified separate from CMS

contractors and/or consultants. The modified routine use will remain as routine use number 1. We also propose to modify existing routine use number 3 that permits disclosure to Peer Review Organizations (PRO). The name of PROs has been changed to read: "Quality Improvement Organizations (QIO)." QIOs will continue work to implement quality improvement programs, provide consultation to CMS, its contractors, and to state agencies. The modified routine use will remain as routine use number 3.

We will delete routine use number 6 authorizing disclosure to support constituent requests made to a congressional representative. If an authorization for the disclosure has been obtained from the data subject, then no routine use is needed. The Privacy Act allows for disclosures with the "prior written consent" of the data subject.

We are modifying the language in the remaining routine uses to provide a proper explanation as to the need for the routine use and to provide clarity to CMS's intention to disclose individual-specific information contained in this system. The routine uses will then be prioritized and reordered according to their usage. We will also take the opportunity to update any sections of the system that were affected by the recent reorganization or because of the impact of the Medicare Prescription Drug, Improvement, and Modernization Act of 2003 (MMA) (Pub. L. 108-173) provisions and to update language in the administrative sections to correspond with language used in other CMS SORs.

The primary purpose of the system is to aid in the administration of the survey and certification, and payment of Medicare Long Term Care services, which include skilled nursing facilities (SNFs), nursing facilities (NFs) SNFs/NFs, and hospital swing beds, and to study the effectiveness and quality of care given in those facilities. Information in this system will also be used to: (1) Support regulatory, reimbursement, and policy functions performed within the Agency or by a contractor or consultant; (2) assist another Federal or state agency, agency of a state government, an agency established by state law, or its fiscal agent; (3) support Quality Improvement Organizations (QIO); (4) assist other insurers for processing individual insurance claims; (5) facilitate research on the quality and effectiveness of care provided, as well as payment related projects; (6) support litigation involving the Agency; (7) assist national accrediting organizations; and (8)
