#### National Institute for Occupational Safety and Health (NIOSH) Advisory Board on Radiation and Worker Health (ABRWH or Advisory Board)

In accordance with section 10(a)(2) of  
the Federal Advisory Committee Act  
(Pub. L. 92-463), the Centers for Disease  
Control and Prevention announces the  
following committee meeting:

toll free dial in number is 1-866-643-6504  
with a pass code of 9448550.

*Status:* Open to the public.

*Background:* The Advisory Board was  
established under the Energy Employees  
Occupational Illness Compensation Program  
Act of 2000 to advise the President on a  
variety of policy and technical functions  
required to implement and effectively  
manage the new compensation program. Key  
functions of the Advisory Board include  
providing advice on the development of  
probability of causation guidelines which  
have been promulgated by the Department of  
Health and Human Services (HHS) as a final  
rule, advice on methods of dose  
reconstruction which have also been  
promulgated by HHS as a final rule, advice  
on the scientific validity and quality of dose  
estimation and reconstruction efforts being  
performed for purposes of the compensation

program, and advice on petitions to add  
classes of workers to the Special Exposure  
Cohort (SEC).

In December 2000, the President delegated  
responsibility for funding, staffing, and  
operating the Advisory Board to HHS, which  
subsequently delegated this authority to the  
CDC. NIOSH implements this responsibility  
for CDC. The charter was issued on August  
3, 2001, renewed at appropriate intervals,  
and will expire on August 3, 2007.

*Purpose:* This Advisory Board is charged  
with (a) providing advice to the Secretary,  
HHS, on the development of guidelines  
under Executive Order 13179; (b) providing  
advice to the Secretary, HHS, on the  
scientific validity and quality of dose  
reconstruction efforts performed for this  
program; and (c) upon request by the  
Secretary, HHS, advising the Secretary on  
whether there is a class of employees at any  
Department of Energy facility who were  
exposed to radiation but for whom it is not  
feasible to estimate their radiation dose, and  
on whether there is reasonable likelihood  
that such radiation doses may have  
endangered the health of members of this  
class.

*Matters to be Discussed:* The agenda for the  
conference call includes: Revisit Board  
Policy on Sanford Cohen & Associates  
(SC&A) Hill Visits; Limiting the Time of

Assignments for Dose Reconstruction  
Reviews; Work Group Updates; Discussion of  
NIOSH Budget Issues; Schedule of Future  
Board Meetings and Calls; and Board  
Working Time.

The agenda is subject to change as  
priorities dictate. There is no public  
comment period, however, written comments  
may be submitted. Any written comments  
received will be provided at the meeting and  
should be submitted to the contact person  
below well in advance of the meeting.
