

a term of viticultural significance until April 23, 2009.

(b) *Approved maps.* The appropriate maps for determining the boundary of the Green Valley of Russian River Valley viticultural area are three United States Geological Survey maps. They are titled:

* * * * *

(c) *Boundary.* The Green Valley of Russian River Valley viticultural area is located in Sonoma County, California. The beginning point is located in the northeastern portion of the "Camp Meeker Quadrangle" map where the line separating Section 31 from Section 32, in Township 8 North (T.8N.), Range 9 West (R.9W.) intersects River Road.

* * * * *

(d) From December 21, 1983, until April 23, 2007, the name of this viticultural area was "Sonoma County Green Valley". Effective April 23, 2007, this viticulture area is named "Green Valley of Russian River Valley". Existing certificates of label approval showing "Sonoma County Green Valley" as the appellation of origin will be revoked by operation of this regulation on April 23, 2009.

Signed: January 3, 2007.

John J. Manfreda,

Administrator.

Approved: February 1, 2007.

Timothy E. Skud,

Deputy Assistant Secretary (Tax, Trade, and Tariff Policy).

BILLING CODE 4810-31-P

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 117

[CGD01-07-026]

Drawbridge Operation Regulations; Gowanus Canal, Brooklyn, NY

AGENCY: Coast Guard, DHS.

ACTION: Notice of temporary deviation from regulations.

SUMMARY: The Commander, First Coast Guard District, has issued a temporary deviation from the regulation governing the operation of the Hamilton Avenue Bridge across Gowanus Canal, mile 1.2, at Brooklyn, New York. Under this temporary deviation the draw may remain in the closed position from April 3, 2007 through April 5, 2007 and from April 6, 2007 through September 29, 2007, a four-hour advance notice shall be required for all bridge openings. This

deviation is necessary to facilitate scheduled bridge maintenance.

DATES: This deviation is effective from April 3, 2007 through September 29, 2007.

ADDRESSES: Materials referred to in this document are available for inspection or copying at the First Coast Guard District, Bridge Branch Office, One South Street, New York, New York, 10004, between 7 a.m. and 3 p.m., Monday through Friday, except Federal holidays. The telephone number is (212) 668-7165. The First Coast Guard District Bridge Branch Office maintains the public docket for this temporary deviation.

FOR FURTHER INFORMATION CONTACT: Judy Leung-Yee, Project Officer, First Coast Guard District, at (212) 668-7165.

SUPPLEMENTARY INFORMATION: The Hamilton Avenue Bridge across Gowanus Canal, mile 1.2, at Brooklyn, New York, has a vertical clearance in the closed position of 19 feet at mean high water and 23 feet at mean low water. The existing operating regulations are listed at 33 CFR 117.5.

The bridge owner, New York City Department of Transportation (NYCDOT), requested a temporary deviation to allow the bridge to remain in the closed position to facilitate scheduled electrical and mechanical bridge maintenance.

Under this temporary deviation the Hamilton Avenue Bridge may remain in the closed position from April 3, 2007 through April 5, 2007, and from April 6, 2007 through September 29, 2007, the draw shall open after at least a four-hour advance notice is given by calling the contractor at (201) 400-5243.

In accordance with 33 CFR 117.35(c), this work will be performed with all due speed in order to return the bridge to normal operation as soon as possible.

This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: March 15, 2007.

Gary Kassof,

Bridge Program Manager, First Coast Guard District.

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 117

[CGD01-07-020]

Drawbridge Operation Regulations; Taunton River, Fall River and Somerset, MA

AGENCY: Coast Guard, DHS.

ACTION: Notice of temporary deviation from regulations.

SUMMARY: The Commander, First Coast Guard District, has issued a temporary deviation from the regulation governing the operation of the Brightman Street Bridge across the Taunton River at mile 1.8, between Fall River and Somerset, Massachusetts. Under this temporary deviation, the bridge may remain in the closed position from 9 p.m. on April 13, 2007 through 5 p.m. on April 28, 2007. This deviation is necessary to facilitate un-scheduled bridge maintenance.

DATES: This deviation is effective from 9 p.m. on April 13, 2007 through 5 p.m. on April 28, 2007.

ADDRESSES: Materials referred to in this document are available for inspection or copying at the First Coast Guard District, Bridge Branch Office, 408 Atlantic Avenue, Boston, Massachusetts, 02110, between 7 a.m. and 3 p.m., Monday through Friday, except Federal holidays. The telephone number is (617) 223-8364. The First Coast Guard District Bridge Branch Office maintains the public docket for this temporary deviation.

FOR FURTHER INFORMATION CONTACT: John McDonald, Project Officer, First Coast Guard District, at (617) 223-8364.

SUPPLEMENTARY INFORMATION: The Brightman Street Bridge, across the Taunton River at mile 1.8, between Fall River and Somerset, Massachusetts, has a vertical clearance in the closed position of 27 feet at mean high water and 31 feet at mean low water. The existing drawbridge operation regulations are listed at 33 CFR 117.619.

The owner of the bridge, Massachusetts Highway Department (MHD), requested a temporary deviation to facilitate un-scheduled emergency bridge maintenance, replacement of deteriorated floor beams. The bridge will not be able to open while the bridge maintenance is underway.

Under this temporary deviation, the Brightman Street Bridge need not open for the passage of vessel traffic from 9 p.m. on April 13, 2007 through 5 p.m. on April 28, 2007.

An 18' x 43' construction work barge may be located in the channel during the prosecution of this bridge maintenance. The work barge will move upon request by calling the bridge tender either on the land line (508) 672-5111 or on VHF channel 13 and 16.

In accordance with 33 CFR 117.35(c), this work will be performed with all due speed in order to return the bridge to normal operation as soon as possible.

Should the bridge maintenance authorized by this temporary deviation be completed before the end of the effective period published in this notice, the Coast Guard will rescind the remainder of this temporary deviation, and the bridge shall be returned to its normal operating schedule. Notice of the above action shall be provided to the public in the Local Notice to Mariners and the **Federal Register**, where practicable.

This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: March 15, 2007.

Gary Kassof,

Bridge Program Manager, First Coast Guard District.

BILLING CODE 4910-15-P

DEPARTMENT OF THE INTERIOR

National Park Service

36 CFR Parts 1, 3 and 7

RIN 1024-AD07

Boating and Water Use Activities

AGENCY: National Park Service, Interior.

ACTION: Final rule.

SUMMARY: The National Park Service (NPS) is revising rules that regulate boating and water use activities in areas administered by the NPS. The rule is intended to address changing visitor use patterns, changing technologies, compelling boating and water safety issues, and the evolution of related statutory authorities. The goal is to provide for greater consistency with United States Coast Guard (USCG) regulations and state laws and regulations and to establish rules which will be more clearly understood by the visiting public, and which can be more effectively communicated and enforced by NPS personnel. Promulgation of the final rule will eliminate many requirements which are ineffective or out of date and will provide flexibility in managing safety, resource preservation, and public use needs throughout the National Park System.

DATES: This regulation becomes effective April 23, 2007.

FOR FURTHER INFORMATION CONTACT: Jerry Case, Regulations Program Manger, National Park Service, 1849 C Street, NW., Room 7241, Washington, DC 20240. Phone: (202) 208-4206. E-mail: Jerry_Case@nps.gov.

SUPPLEMENTARY INFORMATION: The regulations contained in Parts 1 through 7 of Title 36 of the Code of Federal Regulations (CFR) are the basic mechanisms used by the National Park Service (NPS) to protect the natural and cultural resources of the parks and to protect visitors and property within the parks. Parts 1 through 6 are general regulations applicable to all areas of the National Park System, with some exceptions, while Part 7 contains special regulations, which have been found necessary for individual parks as supplements to the general regulations. Part 3 is specific to boating and water activities. The Part 3 regulations were last revised in 1983. Although amendments and additions have been made from time to time since 1983, this was usually in response to new situations for which the existing regulations were not sufficient. For example, personal watercraft (PWC) were addressed in 36 CFR 3.24, promulgated in April, 2000. Between 1983 and the present, the evolution of statutory authorities, changing visitor use patterns, new technologies, and continued boating and water safety issues coupled with evolving national trends to address such issues, all revealed that a comprehensive review of Part 3 regulations was needed.

A work group of experienced employees from a wide variety of parks with water-based recreation and resources management responsibilities was established to work on Part 3. The work group included an experienced State Boating Law Administrator, representing the National Association of State Boating Law Administrators (NASBLA). Park superintendents were asked to provide comments regarding boating and water safety issues apart from those addressed in the existing Part 3, and comments were received from sixteen parks and from the staff at the NPS Washington Office. All comments were evaluated by the workgroup. Some of the comments were incorporated into the proposed rule. Other comments were more appropriately addressed in section(s) of 36 CFR other than Part 3. Some comments, specific to an individual park's circumstances, are more appropriately addressed as special regulations in Part 7.

The NPS faced several situations where parks were unclear about enforcing USCG regulations and/or state laws and regulations. Specifically, an issue arose about the applicability of USCG regulations on a tour boat being operated on Crater Lake which is a non-navigable body of water. Lake Mead was also presented with a requirement to provide lifeguards on beaches because of Nevada state water use regulations. In addition to these specific questions, there has been some general confusion about the order of applicability or hierarchy of adopting USCG regulations and state boating safety laws and regulations in relation to NPS specific regulations contained in Part 3. The required order of applicability, or hierarchy, of laws and regulations on park waters is as follows:

1. Regulations in Title 36, Code of Federal Regulations (CFR) will apply over any comparable law or regulation.

2. Laws and regulations of the USCG adopted pursuant to § 3.2 (a) will apply over any comparable state law or regulation.

3. Non-conflicting state boating safety laws and regulations that are not addressed by either 36 CFR or by the USCG are adopted pursuant to 3.2(b). The NPS is not adopting state water use laws or regulations unless specifically indicated in Part 3.

Where the NPS, USCG, and State have a comparable but different rule, the NPS rule applies first, except where we have specifically adopted the more stringent rule in our regulation (See 3.10(a)(2)). The USCG rule will apply when no NPS rule exists and if the NPS and USCG do not have a rule then the State boating safety rule applies.

The work group took several factors into consideration while discussing regulations to be changed, deleted, or written anew. Those factors include compliance with the NPS mission, safety issues, resource protection issues, clarity of existing regulations, reducing NPS regulations where possible and the consistency of regulations with the USCG, the states, and among units of the National Park System to the extent possible. As a result of the review, the proposed changes to Part 3 are expected to be more clearly understood by the public and be more effectively communicated and enforced by NPS employees. In addition the changes will enhance the NPS focus on safety and resource preservation issues, provide flexibility to address changing technologies, maintain minimum regulation necessary to address safety and resource preservation and provide for greater consistency in enforcement
