

compliance with the Acceptable Practices will assure DCMs of their compliance with the requirements of Core Principle 15 as they pertain to conflicts of interest in self-regulation and self-regulatory organizations. The amendments should not impose additional costs, but in fact may reduce costs of compliance in light of the removal of ambiguities. They assure that what is intended to be a bright-line test operates as such. After considering the above mentioned factors and issues, the Commission has determined to propose these amendments to the Acceptable Practices of Core Principle 15. The Commission specifically invites public comment on its application of the criteria contained in Section 15(a) of the Act and furthermore invites interested parties to submit any quantifiable data that they may have concerning the costs and benefits of the proposed amendments to the Acceptable Practices of Core Principle 15.

B. Paperwork Reduction Act of 1995

These proposed amendments to the Acceptable Practices of Core Principle 15 would not impose any new recordkeeping or information collection requirements, or other collections of information that require approval of the Office of Management and Budget under 44 U.S.C. 3501, *et seq.* Accordingly, the Paperwork Reduction Act does not apply. We solicit comment on the accuracy of our estimate that no additional recordkeeping or information collection requirements or changes to existing collection requirements would result from the amendments proposed herein.

C. Regulatory Flexibility Act

The Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, requires federal agencies, in promulgating rules, to consider the impact of those rules on small entities. The proposed amendments to the Acceptable Practices for Core Principle 15 affect DCMs. The Commission has previously determined that DCMs are not small entities for purposes of the Regulatory Flexibility Act.¹² Accordingly, the Chairman, on behalf of the Commission, hereby certifies pursuant to 5 U.S.C. 605(b) that the proposed amendments to the Acceptable Practices will not have a significant economic impact on a substantial number of small entities.

¹² See Policy Statement and Establishment of Definitions of "Small Entities" for Purposes of the Regulatory Flexibility Act, 47 FR 18618, 18619 (Apr. 30, 1982).

(B) The director is a member of the contract market, or a person employed by or affiliated with a member. "Member" is defined according to Section 1a(24) of the Commodity Exchange Act and Commission Regulation 1.3(q). In this context, a person is "affiliated" with a member if he or she is an officer, director, or partner of the member;

Technical Updates to Applicability of the Supplemental Security Income (SSI) Reduced Benefit Rate for Individuals Residing in Medical Treatment Facilities

AGENCY: Social Security Administration (SSA).

ACTION: Notice of proposed rulemaking.

SUMMARY: We propose to revise our regulations to codify two provisions of the Balanced Budget Act of 1997 that affect the payment of benefits under title XVI of the Social Security Act (the Act). One of the provisions extended temporary institutionalization benefits to children receiving SSI benefits who enter private medical treatment facilities and who otherwise would be ineligible for temporary institutionalization benefits because of private insurance coverage. The other provision replaced obsolete terminology in the Act that referred to particular kinds of medical facilities and substituted a broader, more descriptive term.

Electronic Version

Background

The basic purpose of the SSI program is to ensure a minimum level of income to individuals who are age 65 or older, or blind or disabled, and who have limited income and resources. The Balanced Budget Act of 1997 (Public Law 105–33), enacted August 5, 1997, contained two provisions that affected the payment of SSI benefits to certain SSI beneficiaries who are institutionalized. One of the provisions extended temporary institutionalization benefits to children who enter private medical treatment facilities and who otherwise would be subject to a reduced benefit because of private insurance coverage. The other provision removed obsolete terminology in the Act that referred to particular categories of inpatient medical facilities and substituted the broader, more descriptive term “medical treatment facility.” This change in terminology permits us to correct an unintended inequity in the amount of SSI benefits that were payable to certain children under the obsolete terminology.

Extending Temporary Institutionalization Benefits to Children Under Age 18 in Private Institutions

Residents of public institutions generally are ineligible to receive SSI payments. However, there are some exceptions to this general rule. One exception in section 1611(e)(1)(B) of the Act provides that residents of medical treatment facilities (which we are proposing to define as a facility licensed or otherwise approved by a Federal, State, or local government to provide inpatient medical care and services) may be eligible for SSI if Medicaid pays a substantial part (more than 50 percent) of the cost of the beneficiary’s care. In such cases, SSI payments to the resident of the medical treatment facility are limited to a maximum of \$30 a month.

Another exception in section 1611(e)(1)(G) of the Act allows payment of full SSI benefits for up to 3 full months after entering a public facility if a physician certifies that the recipient’s stay in the facility is likely not to exceed 3 months and we determine the recipient needs to continue to maintain and provide for the expenses of the home to which he or she may return.

These benefits are referred to as “temporary institutionalization benefits.”

The Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (Public Law 104–193), enacted August 22, 1996, amended section 1611(e)(1)(B) of the Act to allow children under age 18 who are in medical treatment facilities and who have private health insurance to receive the reduced SSI payment (\$30). However, Public Law 104–193 did not amend the statutory provision on temporary institutionalization to extend such benefits to children with private health insurance. Consequently, children who were temporarily in private medical facilities could not be eligible for 3 months of full benefits if private health insurance, or a combination of Medicaid and private health insurance, paid more than 50 percent of the cost of their care. Payments to these children were limited to the reduced benefit amount of no more than \$30 a month beginning with their first full month of institutionalization.

Section 5522(c) of Public Law 105–33 revised section 1611(e)(1)(G) of the Act to correct this omission. Prior to this revision, section (e)(1)(G) specified that the recipient must be an inmate of either a public institution whose primary purpose is to provide medical or psychiatric care, or a hospital, extended care facility, nursing home, or intermediate care facility that receives payments under a State plan approved under title XIX. As a result of Public Law 105–33, and subject to SSI eligibility and benefit computation rules, those children in private medical facilities for whom private health insurance, or a combination of Medicaid and private health insurance was paying more than 50 percent of the cost of care, now can be eligible for continuation of their full SSI benefits for up to 3 months under section 1611(e)(1)(G) of the Act. For example, when a child who is receiving SSI while living at home goes into a medical treatment facility, and private insurance through the parent’s employment pays for more than 50 percent of the cost of care, the child can continue to receive SSI benefits during a temporary institutionalization of up to 3 months. Providing SSI benefits during a temporary period of institutionalization is a provision designed to enable SSI beneficiaries (adult or child) to provide for the expenses of the home where they live and to reduce the risk of losing their place of residence due to a sudden loss of SSI benefits during a temporary period of institutionalization.

Revised Terminology for Inpatient Providers

Section 5522(c) of Public Law 105–33 also replaced outdated terminology in section 1611(e)(1)(B) of the Act. Prior to this statutory change, section 1611(e)(1)(B) specified certain categories of inpatient providers used in the Medicaid program. In the early years of the SSI program, the terminology “hospital, extended care facility, nursing home, or intermediate care facility” provided a comprehensive list of all possible inpatient settings as defined by the Medicaid program. However, as Medicaid dropped or renamed some of those coverage categories and added new categories, the list in section 1611(e)(1)(B) became obsolete and was no longer used. As a result, prior to Public Law 105–33, children in certain kinds of inpatient facilities were subject to the reduced benefit amount of no more than \$30, while children in other kinds of Medicaid covered inpatient facilities could receive the full SSI benefit. For example, Medicaid created the new coverage category of Psychiatric Residential Treatment Facility (PRTF) for individuals under age 21. PRTFs can receive substantial Medicaid payments, including the room and board payment. Before Public Law 105–33 made this technical amendment, children residing in a PRTF received full SSI benefits because that kind of facility was not listed in section 1611(e)(1)(B) as a facility whose residents would be subject to the \$30 payment limit. For many PRTF residents, Medicaid was paying all of their expenses, and yet Public Law 104–193 required payment of the full SSI benefit rate. This situation created an inequity between those children and children in other kinds of Medicaid covered inpatient facilities. This change in terminology now allows for similarly situated children (i.e., children residing in medical treatment facilities where Medicaid is providing for more than 50 percent of the cost of their care) to be paid the same amount of SSI benefits.

Explanation of Proposed Changes

We propose to make the following changes to our rules to codify provisions of Public Law 105–33 that affect the payment of benefits under title XVI of the Act to individuals who are in institutions:

- We propose to revise § 416.212(b)(1) by adding “or private” to the introductory text to reflect the provision that gives full temporary institutionalization benefits to children who enter private medical treatment

facilities when Medicaid pays more than 50 percent of the cost of their care.

- We propose to revise §§ 416.201 and 416.414(c) to remove the definition for “medical care facility” and replace it with a new definition for “medical treatment facility.”

- We propose to amend §§ 416.201, 416.211(b) and (c)(5)(iv), 416.414(a), (b)(2) and (3)(i)–(ii), 416.571, 416.1149(a)(1) and (c)(1)(i)–(ii), 416.1165(g)(6) and (i)(1), 416.1167(a)(2), and 416.1202(b)(2)(i) by eliminating the obsolete terms “medical facility” and “medical care facility” and replacing them with the term “medical treatment facility.”

- We propose to amend § 416.708(k) by eliminating the terms “hospital”, “skilled nursing facility”, and “intermediate care facility” and replacing them with the term “medical treatment facility.”

Clarity of These Regulations

Executive Order 12866, as amended by Executive Order 13258, requires each agency to write all rules in plain language. In addition to comments you may have on these proposed rules, we also invite your comments on how to make these rules easier to understand. For example:

- Have we organized the material to suit your needs?

- Are the requirements in the rules clearly stated?

- Do the rules contain technical language or jargon that is unclear?

- Would a different format (grouping and order of sections, use of headings, paragraphing) make the rules easier to understand?

- Would more (but shorter) sections be better?

- Could we improve clarity by adding tables, lists, or diagrams?

- What else could we do to make the rules easier to understand?

Regulatory Procedures

Executive Order 12866, as Amended by Executive Order 13258

We have consulted with the Office of Management and Budget (OMB) and determined that these proposed rules meet the criteria for a significant regulatory action under Executive Order 12866, as amended by Executive Order 13258. Thus, they were reviewed by OMB.

Regulatory Flexibility Act

We certify that these proposed rules will not have a significant economic impact on a substantial number of small entities as they affect individuals only. Therefore, a regulatory flexibility analysis as provided in the Regulatory

Flexibility Act, as amended, is not required.

Paperwork Reduction Act

In order to codify two provisions of the Balanced Budget Act of 1997, we are proposing to revise our regulations that affect the payment of benefits under title XVI of the Act. One of the provisions extended temporary institutionalization benefits to children who enter private medical treatment facilities and who otherwise would be subject to a reduced benefit because of private insurance coverage. The other provision replaced obsolete terminology in the Act that referred to particular kinds of medical facilities and substituted a broader, more descriptive term.

As a result, we are amending the terminology in § 416.708 (k) by eliminating the terms “hospital”, “skilled nursing facility”, and “intermediate care facility” and replacing them with the term “medical treatment facility.” As outlined below this section contains specific public reporting requirements that require clearance under the Paperwork Reduction Act of 1995. Respondents to this collection are SSI recipients who are admitted to, or discharged from, a medical treatment facility or other public or private institution.

Title/section & collection description	Annual number of respondents	Frequency of response	Average burden per response (minutes)	Estimated annual burden (hours)
What you must report 416.708(k) Admission to or discharge from: (1) A medical treatment facility, (2) A public institution, or (3) A private institution.	34,200	1	7	3,990

An Information Collection Request has been submitted to OMB for clearance.

We are soliciting comments on the burden estimate; the need for the information; its practical utility; ways to enhance its quality, utility and clarity; and on ways to minimize the burden on respondents, including the use of automated collection techniques or other forms of information technology. Comments should be sent to OMB by fax or by email to: Office of Management and Budget, *Attn:* Desk Officer for SSA, *Fax Number:* 202–395–6974, *Email address:*

OIRA_Submission@omb.eop.gov.

Comments can be received for up to 60 days after publication of this notice and will be most useful if received within 30 days of publication. This does not affect the deadline for the public to comment to SSA on the proposed

regulations. These information collection requirements will not become effective until approved by OMB. When OMB has approved these information collection requirements, SSA will publish a notice in the **Federal Register**.

To receive a copy of the OMB clearance package, your staff may call the SSA Reports Clearance Officer on 410–965–0454.
