

investors and the public interest. Phlx has requested that the Commission waive the 30-day operative delay. The Commission believes that waiving the 30-day operative delay is consistent with the protection of investors and the public interest because such waiver would permit the Exchange to immediately begin disseminating a modified spot rate, which would give investors another means to track the value of the currencies underlying the FCOs. For these reasons, the Commission designates the proposal to be operative upon filing with the Commission.<sup>13</sup>

At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in the furtherance of the purposes of the Act.

The U.S. Department of State's Bureau of Oceans and International Environmental and Scientific Affairs is inviting interested groups and individuals to submit comments on the 2006 Report to Congress mandated by the "Paul Simon Water for the Poor Act of 2005". (The Report can be viewed or downloaded at <http://www.state.gov/g/oes/water>.)
