SUPPLEMENTARY INFORMATION:

I. Background

The Job Corps program, as authorized by the Workforce Investment Act (WIA) of 1998, is designed to serve low-income young women and men, 16 through 24, who are in need of additional career technical, educational and social skills training, and other support services in order to gain meaningful employment, return to school or enter the Armed Forces. Job Corps is operated by the Department of Labor through a nationwide network of 122 Job Corps centers. The program is primarily a residential program operating 24 hours per day, 7 days per week, with non-resident enrollees limited by legislation to 20 percent of national enrollment. These centers presently accommodate more than 60,000 students. To ensure that the centers are filled with youth who are low-income as well as capable of and committed to doing the work necessary to achieve the benefits of Job Corps, certain eligibility requirements have been established by the legislation.

The purpose of this collection is to gather information about a student's

training and subsequent placement in a job, higher education or the military. It is used to evaluate overall program effectiveness. This form is critical to the program's effectiveness evaluation process. It is the only form which documents a student's post-center status. This form is completed by either the Job Corps center records staff or a career transition specialist for each student.

II. Review Focus
