

(duty rate range: free – 17.6%). The application indicates that Medline will admit all foreign-origin items classified within textile import quota categories to the proposed subzone under domestic (duty-paid) status or in privileged foreign status when used in the kitting activity.

FTZ procedures would exempt Medline from customs duty payments on foreign products that are re-exported. On domestic sales, duty payments would be deferred until the foreign merchandise is shipped from the facilities and entered for U.S. consumption. For its processing activity, Medline would be able to elect the duty rate that applies to finished surgical procedure tray kits (free) for the foreign-sourced inputs noted above. Medline would also realize significant logistical benefits through the use of weekly entry procedures. The application indicates that all of the savings from FTZ procedures would help improve the facilities' international competitiveness.

In accordance with the Board's regulations, a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is June 4, 2007. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period to June 19, 2007.
