

South Louisiana AMS Committee Membership

Applicants should have at least five years of experience related to maritime or port security operations. The South Louisiana AMS Committee currently has twenty-four members, which includes maritime industry members in addition to government agency members. We are seeking new members interested in improving maritime security along the Louisiana coast, west of the Mississippi River. Applicants may be required to pass an appropriate security background check prior to appointment to the committee.

Members' term of office will be for five years; however, a member is eligible to serve an additional term of office. Members will not receive any salary or other compensation for their service on the South Louisiana AMS Committee. In support of the policy of the Coast Guard on gender and ethnic diversity, we encourage qualified women and members of minority groups to apply.

Request for Applications

Applicants seeking AMS Committee membership are not required to submit formal applications to the local COTP/FMSC. However, because we have an obligation to ensure that a specific number of members have the prerequisite maritime security experience, we encourage the submission of resumes highlighting experience in the maritime and security industries. Applications should include the applicant's name, employer, relationship to maritime industry and port interests, and general maritime security-related experience.

Use of Reports of Marine Casualty in Claims Process by National Pollution Funds Center

AGENCY: Coast Guard, DHS.

ACTION: Notice of interpretation; response to comments received.

SUMMARY: On October 13, 2006, the Coast Guard published a notice of interpretation that the prohibition in 46 U.S.C. 6308 on the use of any part of a report of a Coast Guard marine casualty investigation report (MCIR) in certain administrative proceedings does not prohibit use of such reports in the process used by the Coast Guard's National Pollution Funds Center (NPFC) for determining to pay or deny claims under the Oil Pollution Act of 1990. We received two comments in response to the notice, neither of which effects the interpretation.

FOR FURTHER INFORMATION CONTACT: For questions on this notice, please contact Benjamin White, U.S. Coast Guard's National Pollution Funds Center (NPFC), telephone 202-493-6863.

SUPPLEMENTARY INFORMATION: On October 13, 2006, we published a notice of interpretation entitled "Use of Reports of Marine Casualty in Claims Process by National Pollution Funds Center" (71 FR 60553). The notice provided for a comment period ending November 13, 2006.

Background and Purpose

The Coast Guard investigates and reports on marine casualties pursuant to 46 U.S.C. Chapter 63. Under 46 U.S.C. 6308 no part of a report of a marine casualty investigation "shall be admissible as evidence or subject to discovery in any civil or administrative proceedings, other than an administrative proceeding initiated by the United States." Marine casualties may result in the discharge or substantial threat of discharge of oil to the navigable waters, adjoining shorelines or the exclusive economic
