

deposit rate for all other manufacturers or exporters will continue to be 22.89 percent. This rate is the "All Others" rate from the LTFV investigation. These deposit requirements shall remain in effect until further notice.

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

This notice serves as the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

We are issuing and publishing this determination and notice in accordance with sections 751(a)(1) and 777(i) of the Act and 19 CFR 351.221.

Dated: April 9, 2007.

David M. Spooner,
Assistant Secretary for Import
Administration.

BILLING CODE 3510-DS-S

DEPARTMENT OF COMMERCE

National Institute of Standards and Technology

Advanced Technology Program Advisory Committee

AGENCY: National Institute of Standards and Technology; Department of Commerce.

ACTION: Notice of partially closed meeting.

SUMMARY: Pursuant to the Federal Advisory Committee Act, 5 U.S.C. app. 2, notice is hereby given that the Advanced Technology Program Advisory Committee, National Institute of Standards and Technology (NIST) will meet Tuesday, May 15, 2007 from 8:30 a.m. to 3 p.m. The Advanced Technology Program Advisory Committee is composed of ten members appointed by the Director of NIST who

are eminent in such fields as business, research, new product development, engineering, education, and management consulting. The purpose of this meeting is to review and make recommendations regarding general policy for the Advanced Technology Program (ATP), its organization, its budget, and its programs within the framework of applicable national policies as set forth by the President and the Congress. The agenda will include an ATP Update and a presentation on "The Data Enclave." A discussion scheduled to begin at 11 a.m. and to end at 3 p.m. on May 15, 2007, on ATP budget issues will be closed. Agenda may change to accommodate Committee business.

DATES: The meeting will convene Tuesday, May 15, at 8:30 a.m. and will adjourn at 3 p.m. on Tuesday, May 15, 2007.

ADDRESSES: The meeting will be held at the National Institute of Standards and Technology, Administration Building, Employees' Lounge, Gaithersburg, Maryland 20899. All visitors to the National Institute of Standards and Technology site will have to pre-register to be admitted. Please submit your name, time of arrival, e-mail address and phone number to Donna Paul no later than Friday, May 11, and she will provide you with instructions for admittance. Ms. Paul's e-mail address is donna.paul@nist.gov and her phone number is 301/975-2162.

FOR FURTHER INFORMATION CONTACT: Donna Paul, National Institute of Standards and Technology, Gaithersburg, Maryland 20899-4700, telephone number (301) 975-2162.

SUPPLEMENTARY INFORMATION: The agenda will include an ATP Update and a presentation on The Data Enclave. A discussion scheduled to begin at 11 a.m. and to end at 3 p.m. on May 15, 2007, on ATP budget issues will be closed. Agenda may change to accommodate Committee business. The Assistant Secretary for Administration, with the concurrence of the General Counsel, formally determined on January 9, 2007, that portions of the meeting of the Advanced Technology Program Advisory Committee which involve discussion of proposed funding of the Advanced Technology Program may be closed in accordance with 5 U.S.C. 552b(c)(9)(B), because that portion will divulge matters the premature disclosure of which would be likely to significantly frustrate implementation of proposed agency actions.

Dated: April 5, 2007.

William Jeffrey,
Director.

BILLING CODE 3510-13-P

DEPARTMENT OF COMMERCE

National Institute of Standards and Technology

National Fire Codes: Request for Proposals for Revision of Codes and Standards

AGENCY: National Institute of Standards and Technology, Commerce.

ACTION: Notice.

SUMMARY: The National Fire Protection Association (NFPA) proposes to revise some of its fire safety codes and standards and requests proposals from the public to amend existing or begin the process of developing new NFPA fire safety codes and standards. The purpose of this request is to increase public participation in the system used by NFPA to develop its codes and standards. The publication of this notice of request for proposals by the National Institute of Standards and Technology (NIST) on behalf of NFPA is being undertaken as a public service; NIST does not necessarily endorse, approve, or recommend any of the standards referenced in the notice.

The NFPA process provides ample opportunity for public participation in the development of its codes and standards. All NFPA codes and standards are revised and updated every three to five years in Revision Cycles that begin twice each year and that takes approximately two years to complete. Each Revision Cycle proceeds according to a published schedule that includes final dates for all major events in the process. The process contains five basic steps that are followed both for developing new documents as well as revising existing documents. These steps are: Calling for Proposals; Publishing the Proposals in the Report on Proposals (ROP); Calling for Comments on the Committee's disposition of the proposals and these Comments are published in the Report on Comments (ROC); having a Technical Report Session at the NFPA Annual Meeting; and finally, the Standards Council Consideration and Issuance of documents.

Note: Under new rules effective Fall 2005, anyone wishing to make Amending Motions on the Technical Committee Reports (ROP and ROC) must signal their intention by submitting a Notice of Intent to Make a Motion by the Deadline stated in the ROC.

Certified motions will then be posted on the NFPA website. Documents that receive notice of proper Amending Motions (Certified Amending Motions) will be presented for action at the Annual Association Technical Meeting. Documents that receive no motions will be forwarded directly to the Standards Council for action on issuance.

For more information on these new rules and for up-to-date information on schedules and deadlines for processing NFPA Documents, check the NFPA Web site at <http://www.nfpa.org> or contact NFPA Codes and Standards Administration.

DATES: Interested persons may submit proposals on or before the dates listed with the standards.

ADDRESSES: Casey C. Grant, Secretary, Standards Council, NFPA, 1 Batterymarch Park, Quincy, Massachusetts 02269-9101.

FOR FURTHER INFORMATION CONTACT: Casey C. Grant, Secretary, Standards Council, at above address, (617) 770-3000.

SUPPLEMENTARY INFORMATION:

Background

The National Fire Protection Association (NFPA) develops building, fire, and electrical safety codes and standards. Federal agencies frequently use these codes and standards as the basis for developing Federal regulations concerning fire safety. Often, the Office of the Federal Register approves the incorporation by reference of these standards under 5 U.S.C. 552(a) and 1 CFR Part 51.

When a Technical Committee begins the development of a new or revised NFPA code or standard, it enters one of two Revision Cycles available each year. The Revision Cycle begins with the Call for Proposals, that is, a public notice asking for any interested persons to submit specific written proposals for developing or revising the Document. The Call for Proposals is published in a variety of publications. Interested parties have approximately twenty weeks to respond to the Call for Proposals.

Following the Call for Proposals period, the Technical Committee holds a meeting to consider and accept, reject or revise, in whole or in part, all the

submitted Proposals. The committee may also develop its own Proposals. A document known as the Report on Proposals, or ROP, is prepared containing all the Public Proposals, the Technical Committees' action and each Proposal, as well as all Committee-generated Proposals. The ROP is then submitted for the approval of the Technical Committee by a formal written ballot. If the ROP does not receive approval by a two-thirds vote calculated in accordance with NFPA rules, the Report is returned to the committee for further consideration and is not published. If the necessary approval is received, the ROP is published in a compilation of Reports on Proposals issued by NFPA twice yearly for public review and comment, and the process continues to the next step.

The Reports on Proposals are sent automatically free of charge to all who submitted proposals and each respective committee member, as well as anyone else who requests a copy. All ROP's are also available for free downloading at <http://www.nfpa.org>.

Once the ROP becomes available, there is a 60-day comment period during which anyone may submit a Public Comment on the proposed changes in the ROP. The committee then reconvenes at the end of the comment period and acts on all Comments.

As before, a two-thirds approval vote by written ballot of the eligible members of the committee is required for approval of actions on the Comments. All of this information is compiled into a second Report, called the Report on Comments (ROC), which, like the ROP, is published and made available for public review for a seven-week period.

The process of public input and review does not end with the publication of the ROP and ROC. Following the completion of the Proposal and Comment periods, there is yet a further opportunity for debate and discussion through the Technical Report Sessions that take place at the NFPA Annual Meeting.

The Technical Report Session provides an opportunity for the final Technical Committee Report (*i.e.*, the

ROP and ROC) on each proposed new or revised code or standard to be presented to the NFPA membership for the debate and consideration of motions to amend the Report. Before making an allowable motion at a Technical Report Session, the intended maker of the motion must file, in advance of the session, and within the published deadline, a Notice of Intent to Make a Motion. A Motions Committee appointed by the Standards Council then reviews all notices and certifies all amending motions that are proper. Only these Certified Amending Motions, together with certain allowable Follow-Up Motions (that is, motions that have become necessary as a result of previous successful amending motions) will be allowed at the Technical Report Session.

For more information on dates/locations of NFPA Technical Committee meetings and NFPA Annual Technical Report Sessions, check the NFPA Web site at: <http://www.nfpa.org/itemDetail.asp?categoryID=822&itemID=22818>.

The specific rules for the types of motions that can be made and who can make them are set forth in NFPA's Regulation Governing Committee Projects which should always be consulted by those wishing to bring an issue before the membership at a Technical Report Session.

Request for Proposals

Interested persons may submit proposals, supported by written data, views, or arguments to Casey C. Grant, Secretary, Standards Council, NFPA, 1 Batterymarch Park, Quincy, Massachusetts 02269-9101. Proposals should be submitted on forms available from the NFPA Codes and Standards Administration Office or on NFPA's Web site at <http://www.nfpa.org>.

Each person must include his or her name and address, identify the document and give reasons for the proposal. Proposals received before or by 5 p.m. local time on the closing date indicated would be acted on by the Committee. The NFPA will consider any proposal that it receives on or before the date listed with the code or standard.

Document—edition	Document name	Proposal closing date
NFPA 13—2007	Standard for the Installation of Sprinkler Systems	10/5/2007
NFPA 13D—2007	Standard for the Installation of Sprinkler Systems in One- and Two-Family Dwellings and Manufactured Homes.	10/5/2007
NFPA 13R—2007	Standard for the Installation of Sprinkler Systems in Residential Occupancies up to and Including Four Stories in Height.	10/5/2007
NFPA 14—2007	Standard for the Installation of Standpipes and Hose Systems	5/25/2007
NFPA 24—2007	Standard for the Installation of Private Fire Service Mains and Their Appurtenances	10/5/2007

Document—edition	Document name	Proposal closing date
NFPA 52—2006	Vehicular Fuel Systems Code	5/25/2007
NFPA 53—2004	Recommended Practice on Materials, Equipment and Systems Used in Oxygen-Enriched Atmospheres	5/25/2007
NFPA 55—2005	Standard for the Storage, Use, and Handling of Compressed Gases and Cryogenic Fluids in Portable and Stationary Containers, Cylinders, and Tanks.	5/25/2007
NFPA 72—2007	National Fire Alarm Code®	11/2/2007
NFPA 82—2004	Standard on Incinerators and Waste and Linen Handling Systems and Equipment	5/25/2007
NFPA 99—2005	Standard for Health Care Facilities	11/26/2007
NFPA 99B—2005	Standard for Hypobaric Facilities	11/26/2007
NFPA 99C—2005	Standard on Gas and Vacuum Systems	11/26/2007
NFPA 101A—2007	Guide on Alternative Approaches to Life Safety	11/26/2007
NFPA 150—2007	Standard on Fire and Life Safety in Animal Housing Facilities	5/25/2007
NFPA 211—2006	Standard for Chimneys, Fireplaces, Vents, and Solid Fuel-Burning Appliances	5/25/2007
NFPA 225—2005	Model Manufactured Home Installation Standard	5/25/2007
NFPA 255—2006	Standard Method of Test of Surface Burning Characteristics of Building Materials	11/26/2007
NFPA 291—2007	Recommended Practice for Fire Flow Testing and Marking of Hydrants	10/5/2007
NFPA 501—2005	Standard on Manufactured Housing	5/25/2007
NFPA 501A—2005	Standard for Fire Safety Criteria for Manufactured Home Installations, Sites, and Communities	5/25/2007
NFPA 750—2006	Standard on Water Mist Fire Protection Systems	5/30/2008
NFPA 850—2005	Recommended Practice for Fire Protection for Electric Generating Plants and High Voltage Direct Current Converter Stations.	5/25/2007
NFPA 851—2005	Recommended Practice for Fire Protection for Hydroelectric Generating Plants	5/25/2007
NFPA 914—2007	Code for Fire Protection of Historic Structures	5/25/2007
NFPA 1201—2004	Standard for Providing Emergency Services to the Public	11/26/2007
NFPA 1250—2004	Recommended Practice in Emergency Service Organization Risk Management	11/26/2007
NFPA 1670—2004	Standard on Operations and Training for Technical Search and Rescue Incidents	5/25/2007
NFPA 1710—2004	Standard for the Organization and Deployment of Fire Suppression Operations, Emergency Medical Operations, and Special Operations to the Public by Career Fire Departments.	11/26/2007
NFPA 1720—2004	Standard for the Organization and Deployment of Fire Suppression Operations, Emergency Medical Operations and Special Operations to the Public by Volunteer Fire Departments.	11/26/2007

* P = Proposed NEW drafts are available from NFPA's Web site—<http://www.nfpa.org> or may be obtained from NFPA's Codes and Standards Administration, 1 Batterymarch Park, Quincy, MA 02269.

Dated: April 5, 2007.

BILLING CODE 3510-13-P

DEPARTMENT OF COMMERCE

National Institute of Standards and Technology

National Fire Codes: Request for Comments on NFPA Technical Committee Reports

AGENCY: National Institute of Standards and Technology, Commerce.

ACTION: Notice.

SUMMARY: Since 1896, the National Fire Protection Association (NFPA) has accomplished its mission by advocating scientifically based consensus codes and standards, research, and education for safety related issues. NFPA's *National Fire Codes®*, which holds over 270 documents, are administered by more than 225 Technical Committees comprised of approximately 7,000 volunteers and are adopted and used throughout the world. NFPA is a nonprofit membership organization with approximately 80,000 members from over 70 nations, all working

together to fulfill the Association's mission.

The NFPA process provides ample opportunity for public participation in the development of its codes and standards. All NFPA codes and standards are revised and updated every three to five years in Revision Cycles that begin twice each year and that take approximately two years to complete. Each Revision Cycle proceeds according to a published schedule that includes final dates for all major events in the process. The process contains five basic steps that are followed both for developing new documents as well as revising existing documents. These steps are: Calling for Proposals; Publishing the Proposals in the Report on Proposals (ROP); Calling for Comments on the Committee's disposition of the Proposals and these Comments are published in the Report on Comments (ROC); having a Technical Report Session at the NFPA Annual Meeting; and finally, the Standards Council Consideration and Issuance of documents.

Note: Under new rules effective Fall 2005, anyone wishing to make Amending Motions on the Technical Committee Reports (ROP and ROC) must signal their intention by submitting a Notice of Intent to Make a Motion by the Deadline of April 4, 2008. Certified motions will be posted by May 4, 2008. Documents that receive notice of

proper Amending Motions (Certified Amending Motions) will be presented for action at the Annual 2008 Association Technical Meeting. Documents that receive no motions will be forwarded directly to the Standards Council for action on issuance at its July 24, 2008 meeting.

For more information on these new rules and for up-to-date information on schedules and deadlines for processing NFPA Documents, check the NFPA Web site at <http://www.nfpa.org> or contact NFPA Codes and Standards Administration.

The purpose of this notice is to request comments on the technical reports that will be presented at NFPA's 2008 Annual Revision Cycle. The publication of this notice by the National Institute of Standards and Technology (NIST) on behalf of NFPA is being undertaken as a public service; NIST does not necessarily endorse, approve, or recommend any of the standards referenced in the notice.

DATES: Forty-seven reports are published in the 2008 Annual Cycle Report on Proposals and will be available on June 22, 2007. Comments received on or before August 31, 2007, will be considered by the respective NFPA Committees before final action is taken on the proposals.

ADDRESSES: The 2008 Annual Revision Cycle Report on Proposals is available
