Departmental regulations at 20 CFR 601.3 in part implement this requirement by requiring the submission of "all relevant state materials, such as statutes, executive and administrative orders, legal opinions, rules, regulations, interpretations, court opinions, etc. * * *" Also, the regulations for the UC for Federal Civilian Employees (UCFE) program at 20 CFR 609.1(d)(1) and for the UC for ex-service members (UCX) program at 20 CFR 614.1(d)(1) require submission of certain documents to assure that states are properly administering these programs. The Trade Adjustment Assistance (which includes Trade Readjustment Allowances) program (TAA/TRA) regulations provide similar requirements at 20 CFR 617.52(c)(1).

The MA 8-7 is the mechanism for implementing these submittal requirements, the purpose of which is to provide the Secretary with sufficient information to determine if (a) employers in a state qualify for tax credits under the Federal Unemployment Tax Act; (b) the state meets the requirements for obtaining administrative grants under Title III, SSA; and (c) the state is fulfilling its obligations under Federal UC programs.

Caraustar Industries, York Carton Plant; York, PA; Amended Certification Regarding Eligibility To Apply for Worker Adjustment Assistance and Alternative Trade Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273), and Section 246 of the Trade Act of 1974 (26 U.S.C. 2813), as amended, the Department of Labor issued a Certification of Eligibility to Apply for Worker Adjustment Assistance and Alternative Trade Adjustment Assistance on February 14, 2007, applicable to workers of Caraustar Custom Packaging Group, Inc., Austell, Georgia. The notice was published in the **Federal Register** on February 27, 2007 (72 FR 8794).

At the request of the State agency, the Department reviewed the certification for workers of the subject firm. The workers are engaged in the production of folding cartons.

New information shows that the correct name and location of the subject firm should read Caraustar Industries, York Carton Plant, York, Pennsylvania.

Caraustar Custom Packaging Group, Inc., Austell, Georgia, the parent firm of Caraustar Industries, was inadvertently stated as the subject firm of this investigation in the original certification and is not the subject firm of this investigation.

The investigation that was conducted was correctly conducted on behalf of the workers of Caraustar Industries, York Carton Plant, York, Pennsylvania.

Accordingly, the Department is amending this certification to correct the subject firm name, city and State.

The intent of the Department's certification is to include all workers of Caraustar Industries, York Carton Plant who were adversely affected by customer imports.

The amended notice applicable to TA-W-60,709 is hereby issued as follows:

All workers of Caraustar Industries, York Carton Plant, York, Pennsylvania, who became totally or partially separated from employment on or after December 20, 2005 through February 14, 2009, are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974, and are also eligible to apply for alternative trade adjustment assistance under Section 246 of the Trade Act of 1974.

Signed at Washington, DC, this 6th day of April 2007.

Elliott S. Kushner,

Certifying Officer, Division of Trade Adjustment Assistance.

Modine Manufacturing, Blythwood, SC; Notice of Revised Determination on Reconsideration

On November 16, 2006, the Department issued an Affirmative Determination Regarding Application for Reconsideration for the workers and former workers of Modine Manufacturing, Blythwood, South Carolina (the subject firm). The Department's Notice of affirmative determination was published in the **Federal Register** on November 24, 2006 (71 FR 67918).

The worker-filed petition, dated September 19, 2006, stated that the subject firm produces automotive transmission oil coolers, that the subject firm will close in April 2007, and that subject firm production is shifting abroad (to Mexico).

The denial of the workers' eligibility to apply for Trade Adjustment Assistance (TAA) and Alternative Trade

Adjustment Assistance (ATAA) was based on the Department's findings that there was no decline in sales or production in January through August 2006 compared to the same period in 2005, the subject firm did not import, and the subject firm did not shift production abroad during the relevant period. The determination was issued on October 12, 2006 and the Notice of determination was published in the **Federal Register** on October 25, 2006 (71 FR 62490).

Based on the July 20, 2006 WARN notice provided during the reconsideration ("It is anticipated that the plant closing will commence on September 15, 2006 and will continue into 2007"), the Department determines that, during the relevant period, there were significant sales, production, and employment declines at the subject firm.

On reconsideration, the Department received information that revealed no increased import purchases of automotive transmission oil coolers or articles like or directly competitive with automotive transmission oil coolers by either the subject firm or the subject firm's major declining customers. As such, the Department determines that increased imports did not contribute importantly to the subject workers' separations.

During the reconsideration investigation, the Department also confirmed with company officials that production shifted from the subject firm to an affiliated facility in Illinois.

When it became apparent during the reconsideration investigation that the subject workers are not eligible to apply for TAA as primary workers, the Department conducted an investigation to determine whether the workers are eligible as secondary workers (workers of a company that supplied component parts to a customer that employed a group of workers certified for TAA).

As the reconsideration investigation progressed, the Department was able to identify a subject firm customer that employed a group of workers who received a TAA certification and determined that the component parts supplied by the subject firm are related to the article that was the basis for the certification. Further, the new information revealed that the TAA-certified customer constituted over 20% of subject firm sales prior to the plant closure in September 2006.

In accordance with Section 246 of the Trade Act of 1974 (26 U.S.C. 2813), as amended, the Department herein presents the results of its investigation regarding certification of eligibility to apply for ATAA. The Department has

determined in this case that the group eligibility requirements of Section 246 have been met.

A significant number of workers at the firm are age 50 or over and possess skills that are not easily transferable. Competitive conditions within the industry are adverse.

Conclusion

After careful review of the information obtained in the reconsideration investigation, I determine that workers of Modine Manufacturing, Blythwood, South Carolina qualify as adversely affected secondary workers under Section 222 of the Trade Act of 1974, as amended. In accordance with the provisions of the Act, I make the following certification:

"All workers of Modine Manufacturing, Blythwood, South Carolina, who became totally or partially separated from employment on or after September 19, 2005 through two years from the date of this certification, are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974, and are eligible to apply for alternative trade adjustment assistance under Section 246 of the Trade Act of 1974."

Signed at Washington, DC, this 6th day of April 2007.

Elliott S. Kushner,

Certifying Officer, Division of Trade Adjustment Assistance.
