Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call 404-639-5960 and

send comments to Joan Karr, CDC Acting Reports Clearance Officer, 1600 Clifton Road, MS-D74, Atlanta, GA 30333 or send an e-mail to omb@cdc.gov.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Written comments should be received within 60 days of this notice.

Proposed Project

List of Ingredients Added to Tobacco in the Manufacture of Smokeless Tobacco Products (OMB No. 0920-0338)—Extension—National Center for Chronic Disease Prevention and Health

Promotion (NCCDPPH), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

The Comprehensive Smokeless Tobacco Health Education Act of 1986 (15 U.S.C. 4401 *et seq.*, Pub. L. 99-252) requires each person who manufactures, packages, or imports smokeless tobacco (SLT) to provide the Secretary of Health and Human Services (HHS) with a list of ingredients added to tobacco in the manufacture of smokeless tobacco products. This legislation also authorizes HHS to undertake research, and submit an annual report to Congress (as deemed appropriate) discussing the health effects of the ingredients in smokeless tobacco products. HHS has delegated responsibility for the implementation of this Act to CDC's Office on Smoking and Health (OSH). The oral use of SLT represents a significant health risk which can cause cancer and a number of non-cancerous oral conditions, and can lead to nicotine addiction and dependence. Furthermore, SLT use is not a safe substitute for cigarette smoking. The total cost to respondents is their time to complete survey.

ESTIMATED ANNUALIZED BURDEN HOURS

Respondents	No. of respondents	No. of responses per respondent	Average burden per response (in hrs.)	Total burden (in hours)
Tobacco Manufacturers	11	1	42	462

Dated: April 11, 2007.
Joan F. Karr,
Acting Reports Clearance Officer, Centers for Disease Control and Prevention.

Proposed Project

List of Ingredients Added to Tobacco in the Manufacture of Cigarette Products

(OMB No. 0920-0210)—Extension—National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

The Comprehensive Smoking Education Act of 1984 (15 U.S.C. 1336 or Pub. L. 98-474) requires each person who manufactures, packages, or imports cigarettes to provide the Secretary of Health and Human Services (HHS) with a list of ingredients added to tobacco in the manufacture of cigarettes. This legislation also authorizes HHS to undertake research, and to report to the Congress (as deemed appropriate) discussing the health effects of these ingredients.

HHS has delegated responsibility for the implementation of this Act to CDC's Office on Smoking and Health (OSH). OSH has collected ingredient reports on

cigarette products since 1986. Cigarette smoking is the leading preventable cause of premature death and disability in our Nation. Each year more than 400,000 premature deaths occur as the result of cigarette smoking related diseases.

The Centers for Disease Control and Prevention (CDC), Office on Smoking and Health (OSH) has been delegated the authority for implementing major components of the Department of Health and Human Services (HHS) tobacco and health program, including collection of tobacco ingredients information. HHS's overall goal is to reduce death and disability resulting from cigarette smoking and other forms of tobacco use through programs of information, education and research. There is no cost to the respondents other than their time to complete the survey.

ESTIMATED ANNUALIZED BURDEN HOURS

Respondents	No. of respondents	No. of responses per respondent	Average burden per response (in hours)	Total burden (in hours)
Cigarettes Manufacturers	38	1	37	1406

Dated: April 11, 2007.

Joan F. Karr,

Acting Reports Clearance Officer, Centers for Disease Control and Prevention.
