

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

April 25, 2007.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments regarding (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), OIRA_Submission@OMB.EOP.GOV or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling (202) 720-8958.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to

the collection of information unless it displays a currently valid OMB control number.

Animal and Plant Health Inspection Service

Title: Importation of Mangoes from the Philippines.

OMB Control Number: 0579-0172.

Summary of Collection: The United States Department of Agriculture is responsible for preventing plant pests and noxious weeds from entering the United States. Under the Plant Protection Act (7 U.S.C. 7711-7714), the Secretary of Agriculture, either independently or in cooperation with the States, is authorized to carry out operations or measures to detect, eradicate, suppress, control, prevent, or retard the spread of plant pests new to the United States or not known to be widely distributed throughout the United States. The regulations in "Subpart—Fruits and Vegetables" (7 CFR 319.56 through 319.56-8) allow the importation of mangoes from Guimaras Island in the Republic of the Philippines into the United States under certain conditions. The regulations require the use of box marking to indicate the origin of the fruit, phytosanitary certificate to confirmed that the fruit has been grown and treated in accordance with the regulations and a trust fund agreement between the Republic of the Philippines Department of Agriculture and the U.S. Department of Agriculture's Animal and Plant Health Inspection Service (APHIS) to cover the Agency's participation in the treatment and inspection activities in the Philippines that are required for the importation of mangoes.

Need and Use of the Information: APHIS will collect information to verify that the commodity was treated adequately with heat to eliminate the pest risk and to verify that the temperature remained at the appropriate level for the entire treatment period, thereby destroying any fruit flies present in the commodity.

Description of Respondents: Business or other for-profit; Farms; Federal Government.

Number of Respondents: 1,827.

Frequency of Responses: Reporting; On occasion.

Total Burden Hours: 121.

Animal and Plant Health Inspection Service

Title: Importation of Unshu Oranges.

OMB Control Number: 0579-0173.

Summary of Collection: The Plant Protection Act (7 U.S.C. 7701-7772) authorizes the Secretary of Agriculture to regulate the importation of plants, plant products, and other articles into the United States to prevent the introduction of plant pest and noxious weeds. The regulations in "Subpart-Citrus Fruit" (7 CFR 319.28) allow the importation of unshu oranges from Kyushu Island and Honshu Island, Japan, into the United States under certain conditions. A certificate must accompany the unshu oranges from the Japanese plant protection service certifying that the fruit is apparently free of citrus canker.

Need and Use of the Information: The Animal and Plant Health Inspection (APHIS) will collect information using form PPQ 203, Foreign Site Certificate of Inspection and/or Treatment. The information from the form will be used to certify that unshu oranges from Japan are free of citrus canker and to also ensure that the oranges are not imported into citrus-producing areas of the United States such as Florida and California.

Description of Respondents: State, Local or Tribal Government.

Number of Respondents: 23.

Frequency of Responses: Reporting; On occasion.

Total Burden Hours: 5,535.

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

April 25, 2007.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments regarding (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the

methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB),

OIRA_Submission@OMB.EOP.GOV or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling (202) 720-8681.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Agricultural Marketing Service

Title: Federal Seed Act Program.

OMB Control Number: 0581-0026.

Summary of Collection: The Federal Seed Act (FSA) (7 U.S.C. 1551-1611) regulates agricultural and vegetable seeds in interstate commerce.

Agricultural and vegetable seeds shipped in interstate commerce are required to be labeled with certain quality information such as the name of the seed, the purity, the germination, and the noxious-weed seeds of the state into which the seed is being shipped. State seed regulatory agencies refer to the Agricultural Marketing Service (AMS) complaints involving seed found to be mislabeled and to have moved in interstate commerce. AMS investigates the alleged violations and if the violation is substantiated, takes regulatory action ranging from letters of warning to monetary penalties. AMS will collect information from records of each lot of seed and make them available for inspection by agents of the Secretary.

Need and Use of the Information: The information collected consists of records pertaining to interstate shipments of seed which have been alleged to be in violation of the FSA. The shipper's

records pertaining to a complaint are examined by FSA program specialists and are used to determine if a violation of the FSA occurred. The records are also used to determine the precautions taken by the shipper to assure that the seed was accurately labeled. The FSA program would be ineffective without the ability to examine pertinent records as necessary to resolve complaints of violations.

Description of Respondents: Business or other for-profit; Farm.

Number of Respondents: 2,880.

Frequency of Responses:

Recordkeeping; Reporting: On occasion.

Total Burden Hours: 40,263.

Charlene Parker,

Departmental Information Collection Clearance Officer.

Forest Service

Wild and Scenic River Suitability Study for National Forest System Lands in Utah; Ashley, Dixie, Fishlake, Manti-La Sal, Uinta, and Wasatch-Cache National Forests; Utah

AGENCY: Forest Service, USDA.

ACTION: Notice of intent to prepare a legislative environmental impact statement.

SUMMARY: The Forest Service, in cooperation with the State of Utah, will prepare a draft and final legislative environmental impact statement (LEIS) to complete the process for giving consideration to potential national wild, scenic, and recreational river areas on the National Forests in Utah under the Wild and Scenic Rivers Act. Portions of those National Forests extend into Colorado and Wyoming, and those areas will be included in the study. The Forest Service has evaluated river segments on these National Forests to determine which ones meet criteria for eligibility for inclusion in the National Wild and Scenic Rivers System. The purpose of the LEIS is to determine which eligible river segments are suitable for inclusion in the National Wild and Scenic Rivers System. More information including: the full text of the proposal, a list of eligible river segments by county and forest, and a map showing eligible river segments is posted on the web at: <http://www.fs.fed.us/r4/rivers/>.

The Forest Service invites written comments and suggestions on the suitability of eligible river segments for

designation as wild, scenic, or recreational rivers. The Forest Service gives notice of the environmental analysis and determinations that will occur as a result of this study so that interested and affected people are aware of how they may participate and contribute to the final determination of suitability for inclusion in the National Wild and Scenic Rivers System.

DATES: Comments concerning the scope of the analysis will be most useful if submitted on or before June 30, 2007. The draft legislative environmental impact statement is expected in November 2007 and the final legislative environmental impact statement is expected to be completed by the summer of 2008.

ADDRESSES: Send written comments concerning the suitability of the river segments to: Catherine Kahlow, USFS WSR Team Leader, Attention: WSR, P.O. Box 68, Kamas, UT 84036. Comments can also be hand delivered Monday through Friday 8:00 am to 4:30 pm at: 50 East Center Street in Kamas, Utah. In addition, comments can be submitted electronically to: r4_utah_rivers@fs.fed.us on or before June 30, 2007.

FOR FURTHER INFORMATION CONTACT: Visit the website for up-to-date information at: <http://www.fs.fed.us/r4/rivers/> or contact Catherine Kahlow, USFS WSR Team Leader (see previous address information). For information regarding meetings or media inquiries contact: Loyal Clark, USFS Public Affairs Officer (Northern Utah) at (801) 342-5117 or Kenton Call, USFS Public Affairs Officer (Southern Utah) at (435) 865-3730.

SUPPLEMENTARY INFORMATION:

Purpose and Need for Action

This Forest Service proposes to complete the process for considering potential national wild, scenic, and recreational river areas on the National Forest System lands in Utah under the Wild and Scenic Rivers Act. The purpose of and need for this study is to assess whether or not eligible river segments should be recommended to Congress for inclusion in the National Wild and Scenic Rivers System.

Proposed Action

The Forest Service is proposing to conduct an environmental analysis to complete the process for considering potential national wild, scenic, and recreational river areas on the National Forests in Utah under the Wild and Scenic Rivers Act. This action is conducted pursuant to the Wild and Scenic Rivers Act of 1968 (Public Law 90-542) and complies with the National
