BILLING CODE 4210-67-P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Receipt of an Application for an Incidental Take Permit for Construction of a Single-Family Home in Sarasota County, FL

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice.

SUMMARY: We, the Fish and Wildlife Service (Service), announce the availability of an incidental take permit (ITP) and Habitat Conservation Plan (HCP). Patrick McShane and Martha Dey (Applicants) request an ITP pursuant to

section 10(a)(1)(B) of the Endangered Species Act of 1973, as amended (Act). The Applicants anticipate taking about 0.31 acre of Florida scrub-jay (*Aphelocoma coerulescens*) (scrub-jay) foraging and sheltering habitat incidental to lot preparation for the construction of a single-family home and supporting infrastructure in Sarasota County, Florida (Project). The destruction of 0.31 acre of foraging and sheltering habitat is expected to result in the take of one family of scrub-jays. The Applicants' HCP describes the mitigation and minimization measures proposed to address the effects of the Project on the Florida scrub-jay.

DATES: We must receive your written comments on the ITP application and HCP on or before May 30, 2007.

ADDRESSES: See the Public Comments Solicited section below for information on how to submit your comments on the ITP application and HCP. You may obtain a copy of the ITP application and HCP by writing to: South Florida Ecological Services Field Office, Attn: Permit number TE146270-0, U.S. Fish and Wildlife Service, 1339 20th Street, Vero Beach, Florida 32960-3559. In addition, we will make the ITP application and HCP available for public inspection by appointment during normal business hours at the South Florida Ecological Services Office at the above address.

FOR FURTHER INFORMATION CONTACT: Ms. Trish Adams, Fish and Wildlife Biologist, South Florida Ecological Services Office (see **ADDRESSES**), telephone: 772/562-3909, ext. 232.

SUPPLEMENTARY INFORMATION: If you wish to comment on the ITP application and HCP, you may submit comments by any one of several methods. Please reference permit number TE146270-0 in such comments. You may mail comments to the Service's South Florida Ecological Services Office (see **ADDRESSES**). You may also e-mail your comments to trish_adams@fws.gov. If you do not receive a confirmation from us that we have received your e-mail message, contact us directly at the telephone number listed under **FOR FURTHER INFORMATION CONTACT**. Finally, you may hand deliver comments to the

South Florida Ecological Service Office (see **ADDRESSES**).

Before including your address, phone number, e-mail address, or other personal identifying information in your comments, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Residential construction for the McShane and Dey HCP will take place within Section 34, Township 39, Range 22, North Port, Sarasota County, Florida, at Pilgrim Road, Lot 9, Block 2026 of the 44th Addition to Port Charlotte Subdivision, Florida. This lot is within scrub-jay occupied habitat.

The lot encompasses about 0.31 acre, and the footprint of the home, infrastructure, and landscaping precludes retention of scrub-jay habitat on this lot. In order to minimize take onsite the Applicants propose to mitigate for the loss of 0.31 acre of scrub-jay habitat by contributing a total of \$36,106.98 to the Florida Scrub-jay Conservation Fund administered by The Nature Conservancy. Funds in this account are ear-marked for use in the conservation and recovery of scrub-jays and may include habitat acquisition, restoration, and/or management.

The Service has determined that the Applicants' proposal, including the proposed mitigation and minimization measures, will have a minor or negligible effect on the species covered in the HCP. Therefore, the ITP is a "low-effect" project and qualifies as a categorical exclusion under the National Environmental Policy Act (NEPA), as provided by the Department of the Interior Manual (516 DM 2, Appendix 1 and 516 DM 6, Appendix 1). This preliminary information may be revised based on our review of public comments that we receive in response to this notice. Low-effect HCPs are those involving (1) minor or negligible effects on federally listed or candidate species
