Comment Procedure

Instructions for submitting written comments are included in the draft EIS and the Notice of Availability that were issued on March 30, 2007. These documents can be found on the FERC Internet website as discussed below. Oral comments presented at the public comment meetings will be given the same consideration as written comments received by mail before the

close of the public comment period on May 21, 2007.

As with previous public meetings on the Elba III Project, attendees will be asked to provide their name and address so that any project-related environmental information issued by the Commission may be mailed to all attendees. Additionally, those wishing to provide oral comments will be asked to put their name on a Speakers List. Depending on the number of individuals wishing to provide oral comments, speakers may be asked to limit their presentations to 5 minutes in order that all speakers may be accommodated. Transcripts of the public comment meetings will be prepared and placed into the FERC's public record.

Additional information about the project is available from the Commission's Office of External Affairs, at 1-866-208-FERC or on the FERC Internet Web site (<http://www.ferc.gov>) using the eLibrary link. Click on the eLibrary link, click on "General Search" and enter the docket number excluding the last three digits in the Docket Number field. Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll free at 1-866-208-3676, or for TTY, contact (202) 502-8659. The eLibrary link on the FERC Internet Web site also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rulemakings.

[Docket No. CP07-128-000]

Cheyenne Plains Gas Pipeline Company; Notice of Intent To Prepare an Environmental Assessment for the Proposed Kirk Compressor Station Project and Request for Comments on Environmental Issues

April 25, 2007.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of the Kirk Compressor Station Project (Project), involving construction and

operation of a compressor station and appurtenances by Cheyenne Plains Gas Pipeline Company (CPG).

This notice announces the opening of the scoping process we will use to gather input from the public and interested agencies on the project. Your input will help the Commission staff determine which issues need to be evaluated in the EA. Please note that the scoping period will close on May 25, 2007.

This notice is being sent to affected landowners within half mile of the proposed compressor station; Federal, State, and local government representatives and agencies; environmental and public interest groups; Native American tribes; other interested parties in this proceeding; and local libraries and newspapers. We encourage government representatives to notify their constituents of this planned project and encourage them to comment on their areas of concern.

Project Description

CPG proposes to construct a new natural gas-fired compressor station referred to as the Kirk Compressor Station which would consist of a single 10,310 horsepower gas fired compressor unit and appurtenances near Kirk in Yuma County, Colorado. The proposed Project would permit the firm transportation of an additional 70,000 dekatherms per day of natural gas to a delivery point near Greensburg, Kansas. The general location of the project is shown on the map attached as Appendix 1.¹

The Kirk Compressor Station would be constructed on a 40 acre tract of land which is owned by CPG. Approximately 3.69 acres would be permanently disturbed for placement of the compressor station and access road. The current land use is fallow agricultural land. The closest residence is located more than one mile away from the proposed compressor station site (approximately 5,500 feet north northwest of the site).

The EA Process

The National Environmental Policy Act (NEPA) requires the Commission to take into account the environmental impacts that could result from an action whenever it considers the issuance of a Certificate of Public Convenience and Necessity. NEPA also requires us to
