

the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. What Should I Consider as I Prepare My Comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through regulations.gov or e-mail. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD ROM that you mail to EPA, mark the outside of the disk or CD ROM as CBI and then identify electronically within the disk or CD ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When submitting comments, remember to:

i. Identify the document by docket ID number and other identifying information (subject heading, **Federal Register** date and page number).

ii. Follow directions. The Agency may ask you to respond to specific questions or organize comments by referencing a Code of Federal Regulations (CFR) part or section number.

iii. Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.

iv. Describe any assumptions and provide any technical information and/or data that you used.

v. If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.

vi. Provide specific examples to illustrate your concerns and suggest alternatives.

vii. Explain your views as clearly as possible, avoiding the use of profanity or personal threats.

viii. Make sure to submit your comments by the comment period deadline identified.

II. Background

A. What Action is the Agency Taking?

EPA is making available the Agency's revised human health risk assessment and ecological risk assessment, initially issued for comment through a **Federal Register** notice published on July 13,

2005 (70 FR 40336)] [(FRL-7721-3)]; a response to comments; and related documents for methyl bromide. EPA also is soliciting public comment on two risk mitigation options documents and benefits assessments for methyl bromide. EPA developed the risk assessments for methyl bromide as part of its public process for making pesticide reregistration eligibility and tolerance reassessment decisions. Through these programs, EPA is ensuring that pesticides meet current standards under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Federal Food, Drug, and Cosmetic Act (FFDCA), as amended by the Food Quality Protection Act of 1996 (FQPA).

Methyl bromide is primarily used on terrestrial non-food use sites but other commonly treated sites include indoor food and non-food use sites, residential settings, and commercial/industrial facilities. Strawberries (54 percent), eggplant (43 percent), peppers (17 percent), and tomatoes (13 percent) are the crops with the highest percentage of their overall acreage treated.

EPA is providing an opportunity, through this notice, for interested parties to provide risk management proposals or otherwise comment on risk management for methyl bromide. Risks of concern associated with the use of methyl bromide include bystander risks which exceed the Agency's level of concern for several scenarios. Bystanders would include any person living, working, or located near a fumigant application that may be exposed to emissions coming off the treated area (e.g., field). Worker risks also exceed Agency's level of concern for the majority of scenarios considered, even when appropriate mitigation measures were considered (e.g., respirators and emission reduction technology such as tarps). Acute risks to birds and mammals do not exceed the Agency's level of concern. However, there is a potential for exposure over a prolonged period. For aquatic organisms, the only aquatic LOC exceeded is the acute endangered species LOC for aquatic invertebrates. In targeting these risks of concern, the Agency solicits information on effective and practical risk reduction measures.

EPA is applying the principles of public participation to all pesticides undergoing reregistration and tolerance reassessment. The Agency's Pesticide Tolerance Reassessment and Reregistration; Public Participation Process, published in the **Federal Register** on May 14, 2004, (69 FR 26819)(FRL-7357-9) explains that in conducting these programs, EPA is

tailoring its public participation process to be commensurate with the level of risk, extent of use, complexity of issues, and degree of public concern associated with each pesticide. Due to its uses, risks, and other factors, methyl bromide is being reviewed through the full 6-Phase public participation process.

All comments should be submitted using the methods in **ADDRESSES**, and must be received by EPA on or before the closing date. Comments and proposals will become part of the Agency Docket for methyl bromide. Comments received after the close of the comment period will be marked "late" EPA is not required to consider these late comments.

After considering comments received, EPA will develop and issue the methyl bromide RED for soil, greenhouses, and residential/structural uses.

B. What is the Agency's Authority for Taking this Action?

Section 4(g)(2) of FIFRA as amended directs that, after submission of all data concerning a pesticide active ingredient, "the Administrator shall determine whether pesticides containing such active ingredient are eligible for reregistration," before calling in product specific data on individual end-use products and either reregistering products or taking other "appropriate regulatory action."

Chloropicrin Revised Risk Assessments; Notice of Availability and Solicitation of Risk Reduction Options

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces the availability of EPA's revised risk assessments for the pesticide chloropicrin. In addition, this notice solicits public comment on risk reduction options paper for chloropicrin

and a preliminary benefits assessment. The public is encouraged to suggest risk management ideas or proposals to address the risks identified. EPA is developing a Reregistration Eligibility Decision (RED) for chloropicrin through the full, 6-Phase public participation process that the Agency uses to involve the public in developing pesticide reregistration and tolerance reassessment decisions. EPA is also concurrently assessing the risks of five other soil fumigant pesticides to ensure that its assessment approaches are consistent and to ensure that risk tradeoffs and economic outcomes can be adequately predicted in reaching management decisions. The Agency is seeking the same input for the other soil fumigants on a similar schedule. Through these programs, EPA is ensuring that all pesticides meet current health and safety standards.

DATES: Comments must be received on or before July 2, 2007.

ADDRESSES: Submit your comments, identified by docket identification (ID) number EPA-HQ-OPP-2007-0350, by one of the following methods:

• *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the on-line instructions for submitting comments.

• *Mail:* Office of Pesticide Programs (OPP) Regulatory Public Docket (7502P), Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001.

• *Delivery:* OPP Regulatory Public Docket (7502P), Environmental Protection Agency, Rm. S-4400, One Potomac Yard (South Bldg.), 2777 S. Crystal Dr., Arlington, VA. Deliveries are only accepted during the Docket's normal hours of operation (8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays). Special arrangements should be made for deliveries of boxed information. The Docket telephone number is (703) 305-5805.

Instructions: Direct your comments to docket ID number EPA-HQ-OPP-2007-0350. EPA's policy is that all comments received will be included in the docket without change and may be made available on-line at <http://www.regulations.gov>, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through www.regulations.gov or e-mail. The Federal www.regulations.gov website is an "anonymous access" system, which means EPA will not

know your identity or contact information unless you provide it in the body of your comment. If you send an e-mail comment directly to EPA without going through www.regulations.gov, your e-mail address will be automatically captured and included as part of the comment that is placed in the docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses.

Docket: All documents in the docket are listed in the docket index available in www.regulations.gov. To access the electronic docket, go to <http://www.regulations.gov>, select "Advanced Search," then "Docket Search." Insert the docket ID number where indicated and select the "Submit" button. Follow the instructions on the www.regulations.gov web site to view the docket index or access available documents. Although listed in the index, some information is not publicly available, e.g., CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either in the electronic docket at <http://www.regulations.gov>, or, if only available in hard copy, at the OPP Regulatory Public Docket in Rm. S-4400, One Potomac Yard (South Bldg.), 2777 S. Crystal Dr., Arlington, VA. The hours of operation of this Docket Facility are from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The Docket telephone number is (703) 305-5805.

FOR FURTHER INFORMATION CONTACT: Nathan Mottl, Special Review and Reregistration Division (7508P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001; telephone number: (703) 305-0208; fax number: (703) 308-7070; e-mail address: mottl.nathan@epa.gov

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

This action is directed to the public in general, and may be of interest to a wide range of stakeholders including

environmental, human health, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. What Should I Consider as I Prepare My Comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through www.regulations.gov or e-mail. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD ROM that you mail to EPA, mark the outside of the disk or CD ROM as CBI and then identify electronically within the disk or CD ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When submitting comments, remember to:

- i. Identify the document by docket ID number and other identifying information (subject heading, **Federal Register** date and page number).
- ii. Follow directions. The Agency may ask you to respond to specific questions or organize comments by referencing a Code of Federal Regulations (CFR) part or section number.
- iii. Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.
- iv. Describe any assumptions and provide any technical information and/or data that you used.
- v. If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.
- vi. Provide specific examples to illustrate your concerns and suggest alternatives.

vii. Explain your views as clearly as possible, avoiding the use of profanity or personal threats.

viii. Make sure to submit your comments by the comment period deadline identified.

II. Background

A. What Action is the Agency Taking?

EPA is making available the Agency's revised risk assessments, previously issued for comment through a **Federal Register** notice published on November 29, 2006 (Vol. 71 FR 69112) (FRL-8087-4); response to comments documents; and related documents for chloropicrin. EPA is also soliciting public comment on a risk reduction options paper for chloropicrin and preliminary benefits assessments. EPA developed the risk assessments for chloropicrin as part of its public process for making pesticide reregistration eligibility and tolerance reassessment decisions. Through these programs, EPA is ensuring that pesticides meet current standards under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Federal Food, Drug, and Cosmetic Act (FFDCA), as amended by the Food Quality Protection Act of 1996 (FQPA).

Chloropicrin is a non-selective pre-plant soil fumigant with fungicidal, herbicidal, insecticidal, and nematocidal properties. Chloropicrin is also used in combination with other soil fumigants and as a warning agent for other soil fumigants such as methyl bromide and telone (1,3-Dichloropropane). Chloropicrin is primarily used for pre-plant soil uses for agricultural crops and greenhouses. However, chloropicrin is also used for fumigations for empty grain and storage bins, tree replant sites, and wood telephone poles and timber. An estimated 5-9 million pounds of chloropicrin is applied annually. Crops for which over a million pounds of chloropicrin are used annually include tobacco (3.6 million pounds), tomatoes (1.7 million pounds), and strawberries (1.4 million pounds). Strawberries (20 percent), tobacco (15 percent), and tomatoes (10 percent) are the crops with the highest percentage of their overall acreage treated. Many of the pre-plant soil fumigation uses of chloropicrin are used in combination with either methyl bromide or telone.

EPA is providing an opportunity, through this notice, for interested parties to provide risk management proposals or otherwise comment on risk management for chloropicrin. Risks of concern associated with the use of chloropicrin are: bystander inhalation exposure risk, worker inhalation risk, and ecological risk. Bystanders would include any person living, working, or located near a fumigant application that may be exposed to emissions coming off the treated field. A complete list of the risks and the mitigation options can be found in the Risk Mitigation Options Document (available at ID number EPA-

HQ-OPP-2007-0350-0003). A Readers Guide has been created to provide and organizational structure to the chloropicrin docket, to allow readers to more easily access and navigate the various entries contained in the chloropicrin docket, and to facilitate public comment. You may find this guide at ID number EPA-HQ-OPP-2007-0350-0002. In targeting these risks of concern, the Agency solicits information on effective and practical risk reduction measures.

EPA is applying the principles of public participation to all pesticides undergoing reregistration and tolerance reassessment. The Agency's Pesticide Tolerance Reassessment and Reregistration; Public Participation Process, published in the **Federal Register** on May 14, 2004, (69 FR 26819) (FRL-7357-9) explains that in conducting these programs, EPA is tailoring its public participation process to be commensurate with the level of risk, extent of use, complexity of issues, and degree of public concern associated with each pesticide. Due to its uses, risks, and other factors, chloropicrin is being reviewed through the full 6-Phase public participation process.

All comments should be submitted using the methods in **ADDRESSES**, and must be received by EPA on or before the closing date. Comments and proposals will become part of the Agency Docket for chloropicrin. Comments received after the close of the comment period will be marked "late" EPA is not required to consider these late comments.

After considering comments received, EPA will develop and issue for comment the chloropicrin RED.

B. What is the Agency's Authority for Taking this Action?

Section 4(g)(2) of FIFRA as amended directs that, after submission of all data concerning a pesticide active ingredient, "the Administrator shall determine whether pesticides containing such active ingredient are eligible for reregistration," before calling in product specific data on individual end-use products and either reregistering products or taking other "appropriate regulatory action."

1,3-Dichloropropene (1,3-D) Revised Human Health Risk Assessment, Notice of Availability and Solicitation of Risk Reduction Options

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces the availability and solicitation of comments on the EPA's revised human health risk assessment for the soil fumigant 1,3-Dichloropropene (1,3-D), which is commonly referred to as telone. In addition, this notice seeks public comment on the risk reduction options paper and EPA's benefits assessments for the soil fumigant group. The Agency is also seeking comments on the 1,3-D ecological risk assessment which, based on public comments in phase 3, was not revised. Although 1,3-D has undergone reregistration and a Reregistration Eligibility Decision was published in December 1998, EPA is concurrently assessing six soil fumigants to ensure that its risk assessment approaches are consistent, and to ensure that risk tradeoffs and economic outcomes can be adequately predicted in reaching risk management decisions for the five other soil fumigants. The Agency is seeking the same input from the public on these pesticides. EPA has developed a revised human health risk assessment for 1,3-D and is seeking comment through a public participation process in order to make available current and accurate information on this pesticide.

DATES: Comments must be received on or before July 2, 2007.

ADDRESSES: Submit your comments, identified by docket identification (ID) number EPA-HQ-OPP-2005-0124, by one of the following methods:

<bullet≤ Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the on-line instructions for submitting comments.

<bullet≤ Mail: Office of Pesticide Programs (OPP) Regulatory Public Docket (7502P), Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001.
