

Commission, 888 First St., NE., Room 1A, Washington, DC 20426.

- Label one copy of your comments to the attention of Gas Branch 2, DG2E; and Reference Docket No. CP07-44-000 on the original and both copies.
- Mail your comments so that they will be received in Washington, DC on or before June 18, 2007.

Please note that the Commission strongly encourages the electronic filing (“eFiling”) of comments. Instructions on how to “eFile” comments can be found on the Commission’s Web site at www.ferc.gov under the “Documents and Filings” link. In lieu of or in addition to sending written comments,

we invite you to attend the public comment meetings the FERC will conduct in the project area to receive comments on the Draft EIS. All meetings will begin at 6 p.m. (CDT), and are scheduled as follows:

Date and time	Location
Monday, May 21, 6:00 p.m	Lucedale Rocky Creek Inn, 120 Woods Ridge Road, Lucedale, MS 39452, (601) 947-6900.
Tuesday, May 22, 6:00 p.m	La Quinta Inn—Mississippi Ballroom, 6563 U.S. Highway 49 North, Hattiesburg, MS 39401, (601) 268-2850.
Thursday, May 24, 6:00 p.m	Multipurpose Building, West Gallman Road, Gallman, MS 39077, (601) 953-9907.

The public comment meetings will be posted on the FERC’s calendar located at www.ferc.gov/EventCalendar/EventsList.aspx. Interested groups and individuals are encouraged to attend and present oral comments on the Draft EIS. Transcripts of the meetings will be prepared.

After the comments received are reviewed, any significant new issues are investigated, and modifications are made to the Draft EIS, a Final EIS will be published and distributed by the FERC staff. The Final EIS will contain the staff’s responses to timely comments received on the Draft EIS.

Comments will be considered by the Commission but will not serve to make the commentor a party to the proceeding. Any person seeking to become a party to the proceeding must file a motion to intervene pursuant to Rule 214 of the Commission’s Rules of Practice and Procedures (18 CFR 385.214). Anyone may intervene in this proceeding based on this Draft EIS. You must file your request to intervene as specified above.¹ You do not need intervenor status to have your comments considered.

The Draft EIS has been placed in the public files of the FERC and is available for public inspection at: Federal Energy Regulatory Commission, Public Reference Room, 888 First Street, NE., Room 2A, Washington, DC 20426, (202) 502-8371.

A limited number of copies of the Draft EIS are available from the Public Reference Room identified above. In addition, CD copies of the Draft EIS have been mailed to affected landowners; various federal, state, and local government agencies; elected officials; environmental and public interest groups; Native American tribes;

local libraries and newspapers; intervenors; and other individuals that expressed an interest in the proposed Project. Hard-copies of the Draft EIS have also been mailed to those who requested that format during the scoping and comment periods for the proposed Project.

Additional information about the proposed Project is available from the Commission’s Office of External Affairs, at 1-866-208-FERC or on the FERC Internet Web site (www.ferc.gov).

To access information via the FERC website click on the “eLibrary” link then click on “General Search” and enter the docket number excluding the last three digits in the Docket Number field. Be sure you have selected an appropriate date range. The “eLibrary” link provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rulemakings. For assistance with “eLibrary”, please contact FERC Online Support at FercOnlineSupport@ferc.gov or toll free at 1-866-208-3676, or for TTY, contact (202) 502-8659.

In addition, the Commission now offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries and direct links to these documents. To learn more about eSubscription and to sign up for this service please go to www.ferc.gov/esubscribenow.htm.

Kimberly D. Bose,
Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[FERC Docket No. CP06-459-000]

Transwestern Pipeline Company, LLC; Notice of Availability of the Draft Environmental Impact Statement and Draft General Conformity Determination for the Proposed Phoenix Expansion Project

April 27, 2007.

The environmental staffs of the Federal Energy Regulatory Commission (Commission or FERC); the U.S. Department of the Interior, Bureau of Land Management (BLM); the U.S. Department of Agriculture, Forest Service (FS); the U.S. Department of Transportation, Office of Pipeline Safety (OPS); the U.S. Department of the Interior, Bureau of Indian Affairs (BIA); and the Navajo Nation, collectively referred to as the Agency Staffs, have prepared the draft environmental impact statement (draft EIS) to address Transwestern Pipeline Company, LLC’s (Transwestern) proposed expansion of its natural gas pipeline system. A draft General Conformity Determination was also prepared by the FERC to assess the potential air quality impacts associated with construction and operation of the proposed project and is included as Appendix Q of the draft EIS.

The draft EIS was prepared to satisfy the requirements of the National Environmental Policy Act (NEPA). The Agency Staffs have concluded that if the project is constructed and operated in accordance with applicable laws and regulations, Transwestern’s proposed mitigation, and the Agency Staffs’ additional mitigation measures, it would have limited adverse environmental impact.

¹ Interventions may also be filed electronically via the Internet in lieu of paper. See the previous discussion on filing comments electronically.

The FERC is the lead federal agency and will use the EIS to consider the environmental impacts that could result if it issues Transwestern a Certificate of Public Convenience and Necessity under section 7 of the Natural Gas Act.

The BLM and the FS are federal land management agencies affected by Transwestern's proposal and have elected to act as cooperating agencies in preparing the draft EIS. The BLM will use the document to meet its NEPA responsibilities in considering Transwestern's application for a Right-of-Way Grant and obtain Temporary Use Permits for the portion of the project on federal lands under section 185(f) of the Mineral Leasing Act of 1920. The BLM would issue the Right-of-Way Grant and Temporary Use Permits for the crossing of BLM-managed lands and the Kaibab and Prescott National Forests, which are managed by the FS, and for crossing lands managed by the U.S. Department of the Interior, Bureau of Reclamation (BOR). The BLM would consider the concurrence or non-concurrence of the FS and BOR, as well as FERC approval or denial, in making its decision whether to issue the Right-of-Way Grant and Temporary Use Permits. The BLM's decision would be documented in a Record of Decision.

The OPS is participating as a cooperating agency in preparing the draft EIS because it is responsible for ensuring the safe, reliable, and environmentally sound operation of the nation's transportation system and for providing oversight for oil and natural gas pipelines. The OPS' authority is found under the Natural Gas Pipeline Safety Act of 1968 (49 U.S.C. 1671 *et seq.*) and the Hazardous Liquids Pipeline Safety Act of 1979 (49 U.S.C. 2001 *et seq.*).

The BIA and the Navajo Nation have also elected to act as cooperating agencies in preparing the draft EIS because the proposed project would be near tribal lands in Arizona and would cross two classes of Navajo Nation lands in New Mexico: Tribal lands and allotted lands. Tribal lands are owned in fee by the Navajo Nation, and access to these lands would be acquired through direct negotiation between Transwestern and officials of the Navajo Nation Tribal Headquarters in Window Rock, Arizona. Allotted lands are held in trust by the United States government

and managed by the BIA for the benefit of individual allottees.

The Phoenix Expansion Project is designed to transport up to 500 million cubic feet per day of natural gas to the Phoenix area, which is one of the fastest-growing regions in the United States. The project would not only help to satisfy the increasing demand for electricity and natural gas, but would also increase competition in the regional energy market, thereby working to stabilize costs to the consumer.

The draft EIS addresses the potential environmental effects of the construction and operation of the following facilities proposed by Transwestern:

- 24.6 miles of new 36-inch-diameter pipeline loop¹ (the San Juan Lateral Loops A and B) extending along the existing San Juan Lateral in San Juan and McKinley Counties, New Mexico;
- 259.3 miles of new 42- and 36-inch-diameter lateral² pipeline (the Phoenix Lateral), consisting of 95.7 miles of 42-inch-diameter pipeline extending from milepost (MP) 0.0 in Yavapai County, Arizona to MP 95.2 in Maricopa County, Arizona, and 163.6 miles of 36-inch-diameter pipeline extending from MP 95.2 in Maricopa County, Arizona to MP 255.1 in Pinal County, Arizona;
- 1.4 miles of new 24-, 20-, 16-, and 6-inch-diameter lateral pipeline (the customer laterals) connecting the Phoenix Lateral to meter stations that are not located immediately adjacent to the Phoenix Lateral right-of-way;
- Minor piping and pressure control modifications at the existing Bloomfield Compressor Station in San Juan County, New Mexico and at the existing Seligman Compressor Station No. 1 in Mohave County, Arizona;
- Installation of the Ash Fork Facility at MP 0.0 of the Phoenix Lateral in Yavapai County, Arizona including 2 filter separators, odorant injection facilities, and telecommunications equipment; and
- Installation of 4 taps, 31 valves, 11 meter stations, 6 pig launchers, and 3 pig receivers.

¹ A loop is a segment of pipeline that is usually installed adjacent to an existing pipeline and connected to it at both ends. The loop allows more gas to be moved through the system.

² A lateral pipeline typically takes gas from the main system to deliver it to a customer, local distribution system, or another interstate transmission system.

Transwestern would also acquire an undivided interest in the existing East Valley Lateral consisting of 36.7 miles of 24-inch-diameter lateral pipeline in Pinal and Maricopa Counties, Arizona.

Comment Procedures and Public Meetings

Any person wishing to comment on the draft EIS and/or draft General Conformity Determination is encouraged to do so. To ensure consideration prior to a Commission decision on the proposal, it is important that your comments be received before the date specified below.

Please note that the Commission strongly encourages electronic filing of any comments, interventions, or protests to this proceeding. See Title 18 CFR 385.2001(a)(1)(iii) and the instructions on the FERC Internet Web site (www.ferc.gov) under the eFiling link and the link to the User's Guide. Before you can submit comments, you will need to create a free account by clicking on "Sign-up" under "New User." You will be asked to select the type of submission you are making. This type of submission is considered a "Comment on Filing." Comments submitted electronically must be submitted by June 18, 2007.

If you wish to mail comments, please mail your comments so that they will be received in Washington, DC on or before June 18, 2007. Please carefully follow these instructions to ensure that your comments are received in time and properly recorded:

- Send an original and two copies of your comments to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First St. NE; Room 1A, Washington, DC 20426;
- Reference Docket No. CP06-459-000; and
- Label one copy of your comments for the attention of Gas 2, DG2E.

In addition to or in lieu of sending written comments, the FERC and the cooperating agencies invite you to attend public meetings the Agency Staffs will conduct in the project area to receive comments on the draft EIS and draft General Conformity Determination. The dates, times, and locations of these meetings are as follows:

Date	Location
Monday, June 4, 2007; 7 p.m. (MST)	Central Arizona Seniors Association, 9360 East Manzanita Circle, Prescott Valley, AZ 86314, (928) 772-3337.
Tuesday, June 5, 2007; 7 p.m. (MST)	Albins Civic Center, Black Canyon Community Association, 19055 East K-Mine Road, Black Canyon City, AZ 85375, (623) 374-5553.
Wednesday, June 6, 2007; 7 p.m. (MST)	Buckeye Community Center, 201 East Centre Avenue, Buckeye, AZ 85326, (623) 349-6600.
Thursday, June 7, 2007; 7 p.m. (MST)	Hotel Casa Grande, Cotton/Copper Room, 777 North Pinal Avenue, Casa Grande, AZ 85222, (520) 426-3500.
Tuesday, June 12, 2007; 1 p.m. (MST)	Navajo Technical College, (former Crownpoint Institute of Technology), Lower Point Road and State Highway 371, Crownpoint, NM 87313, (505) 786-4100.

These public meetings will be posted on the FERC's calendar located at <http://www.ferc.gov/EventCalendar/EventsList.aspx>. Interested groups and individuals are encouraged to attend and present written or oral comments on the draft EIS and/or draft General Conformity Determination. Transcripts of the meetings will be prepared.

After the comments are reviewed, any significant new issues are investigated, and necessary modifications are made to the draft EIS and draft General Conformity Determination, a final EIS, including a final General Conformity Determination, will be published and distributed. The final EIS will contain the Agency Staffs' responses to timely comments filed on the draft EIS and draft General Conformity Determination that are related to environmental issues.

Comments will be considered by the Commission and the cooperating agencies but will not serve to make the commentator a party to the proceeding. Any person seeking to become a party to the proceeding must file a motion to intervene pursuant to Rule 214 of the Commission's Rules of Practice and Procedure (Title 18 CFR Part 385.214).

Anyone may intervene in this proceeding based on the draft EIS and draft General Conformity Determination. You must file your request to intervene as specified above.³ You do not need intervenor status to have your comments considered.

The draft EIS, including the draft General Conformity Determination, has been placed in the public files of the FERC and is available for distribution and public inspection at:

Federal Regulatory Energy Commission, Public Reference Room, 888 First St. NE; Room 2A, Washington, DC 20426, (202) 208-1371.

A limited number of copies are available from the FERC's Public Reference Room identified above. These copies may be requested in hard copy or as .pdf files on a CD that can be read by

³Interventions may also be filed electronically via the Internet in lieu of paper. See the previous discussion on filing comments electronically.

a computer with a CD-ROM drive. The draft EIS, including the draft General Conformity Determination, is also available for viewing on the FERC Internet Web site at www.ferc.gov. In addition, copies of the document have been mailed to federal, state, and local government agencies; elected officials; Native American tribes; affected landowners; local libraries and newspapers; intervenors to the FERC's proceeding; and other interested parties. Hard copies of the draft EIS, including the draft General Conformity Determination, can be viewed at the following libraries in the project area:

Ash Fork Public Library, 518 Lewis Avenue, Ash Fork, AZ 86320.
Avondale-Goodyear Public Library, 328 West Western Avenue, Avondale, AZ 85323.

Black Canyon City Community Library, 34701 South Old Black Canyon Hwy, Black Canyon, AZ 85324.

Buckeye Public Library, 310 North 6th Street, Buckeye, AZ 85032.

Casa Grande Public Library, 449 North Dry Lake, Casa Grande, AZ 85222.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. PF07-6-000]

Colorado Interstate Gas Company; Notice of Intent To Prepare an Environmental Assessment for the Proposed Totem Storage Field Project and Request for Comments on Environmental Issues

April 30, 2007.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of the Totem Storage Field Project involving construction and operation of facilities by Colorado Interstate Gas Company (CIG) in Adams County, Colorado.

This notice announces the opening of the scoping process we will use to gather input from the public and interested agencies on the project. Your input will help the Commission staff determine which issues need to be evaluated in the EA. Please note that the scoping period will close on May 30, 2007.

This notice is being sent to affected landowners; Federal, State, and local government representatives and agencies; environmental and public interest groups; Native American tribes; other interested parties in this proceeding; and local libraries and newspapers. We encourage government representatives to notify their constituents of this planned project and encourage them to comment on their areas of concern.

If you are a landowner receiving this notice, you may be contacted by a pipeline company representative about the acquisition of an easement to construct, operate, and maintain the proposed facilities. The pipeline company would seek to negotiate a mutually acceptable agreement. However, if the project is approved by the Commission, that approval conveys

with it the right of eminent domain. Therefore, if easement negotiations fail to produce an agreement, the pipeline company could initiate condemnation proceedings in accordance with state law.

A fact sheet prepared by the FERC entitled "An Interstate Natural Gas Facility On My Land? What Do I Need To Know?" was attached to the project notice CIG provided to landowners. This fact sheet addresses a number of typically asked questions, including the use of eminent domain and how to participate in the Commission's proceedings. It is available for viewing on the FERC Internet Web site (<http://www.ferc.gov>).

Summary of the Proposed Project

CIG proposes to convert a depleted natural gas production field in eastern Adams County, Colorado located 34 miles northeast of the City of Denver into the proposed Totem Storage Field Project. The storage field design would have a total gas inventory of approximately 10.7 Bcf, comprised of 7.0 Bcf of working gas and 3.7 Bcf of base gas. CIG seeks authority to:

- Construct and operate a 9,400 horsepower compressor station in Adams County, Colorado;
- Reenter 16 abandoned wells and replug 10 of the 16 wells and convert the remaining six wells to observation wells;
- Plug and abandon three of seven currently operational oil and gas wells and convert the remaining four operational oil and gas wells to observation wells;
- Drill eight horizontal injection withdrawal wells from three separate well pad locations. Horizontal wells (Nos. 1, 2, and 3) would be drilled at Site Pad No. 1 near the north end of the field in the vicinity of an existing well pad (Well No. 8-10); horizontal well (Nos. 4, 7, and 8) would be grouped at Site Pad No. 2 located in the center of the field; and horizontal wells (Nos. 5 and 6) would be drilled at Site Pad No. 3 in the south central portion of the field in the vicinity of an existing well pad location (Well No. 48-2);
- Drill one salt water disposal well; and
- Construct about 3 miles of 6-inch-diameter gathering pipeline and 1.5 miles of 4-inch-diameter saltwater pipeline.

The gathering lines would be high-pressure, steel line. The brine disposal line would be high-pressure, fiberglass line. Fiberglass pipe will also be used to collect brine and other fluids from the individual well head separators and dehydrators and will conduct these

fluids to the dew point control plant located at the compressor station site. These pipes will occupy the same trench as the main gathering lines, fuel gas lines, electrical and communication lines.

The location of the project facilities is shown in Appendix 1.¹

Land Requirements for Construction

Construction of the proposed facilities would require about 442.5 acres of land. Following construction, about 29.9 acres would be maintained as permanent pipeline right-of-way, well sites, or new aboveground facility sites. The remaining 412.6 acres of land would be restored and allowed to revert to its former use.

The EA Process

The National Environmental Policy Act (NEPA) requires the Commission to take into account the environmental impacts that could result from an action whenever it considers the issuance of a Certificate of Public Convenience and Necessity. NEPA also requires us to discover and address concerns the public may have about proposals. This process is referred to as "scoping." The main goal of the scoping process is to focus the analysis in the EA on the important environmental issues. By this Notice of Intent, the Commission staff requests public comments on the scope of the issues to address in the EA. All comments received are considered during the preparation of the EA. State and local government representatives are encouraged to notify their constituents of this proposed action and encourage them to comment on their areas of concern.

In the EA we² will discuss impacts that could occur as a result of the construction and operation of the proposed project under these general headings:

- Geology and soils.
- Land use.
- Water resources, fisheries, and wetlands.
- Cultural resources.
- Vegetation and wildlife.
- Air quality and noise.
- Endangered and threatened species.
- Hazardous waste.

¹ The appendices referenced in this notice are not being printed in the **Federal Register**. Copies of all appendices, other than Appendix 1 (maps), are available on the Commission's Web site at the "eLibrary" link or from the Commission's Public Reference Room, 888 First Street, NE., Washington, DC 20426, or call (202) 502-8371. For instructions on connecting to eLibrary refer to the last page of this notice. Copies of the appendices were sent to all those receiving this notice in the mail.

² "We", "us" "our" refer to the environmental staff of the Office of Energy Projects (OEP).
