

(56,898 hours for recordkeeping on an average of 0.33 hours per record and 8,720 hours for reporting on an average of 40 hours per licensee).

7. *Abstract:* NRC Form 4 is used to record the summary of an individual's cumulative occupational radiation dose up to and including the current year to ensure that the dose does not exceed regulatory limits.

NRC Form 5 is used to record and report the results of individual monitoring for occupational radiation exposure during a one-year (calendar year) period to ensure regulatory compliance with annual radiation dose limits.

Submit, by July 6, 2007, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?
2. Is the burden estimate accurate?
3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?
4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

A copy of the draft supporting statement may be viewed free of charge at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Room O-1 F21, Rockville, MD 20852. OMB clearance requests are available at the NRC worldwide Web site: <http://www.nrc.gov/public-involve/doc-comment/omb/index.html>. The document will be available on the NRC home page site for 60 days after the signature date of this notice.

Comments and questions about the information collection requirements may be directed to the NRC Clearance Officer, Margaret A. Janney (T-5 F52), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, by telephone at 301-415-7245, or by Internet electronic mail to INFOCOLLECTS@NRC.GOV.

Dated at Rockville, Maryland, this 30th day of April, 2007.

For the Nuclear Regulatory Commission,
Margaret A. Janney,
NRC Clearance Officer, Office of Information Services.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-247]

Entergy Nuclear Operations, Inc.; Notice of Withdrawal of Application for Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of Entergy Nuclear Operations, Inc. (the licensee) to withdraw its July 10, 2006, application for proposed amendment to Facility Operating License No. DPR-26 for Indian Point Nuclear Generating Unit No. 2, located in Westchester County, New York.

The proposed amendment would have revised the Technical Specifications pertaining to spent fuel cask loading operations.

The Commission had previously issued a Notice of Consideration of Issuance of Amendment published in the **Federal Register** on August 29, 2006 (71 FR 51227). However, by letter dated April 11, 2007, the licensee withdrew the proposed change.

For further details with respect to this action, see the application for amendment dated July 10, 2006, and the licensee's letter dated April 11, 2007, which withdrew the application for license amendment. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located at One White Flint North, Public File Area O1 F21, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the Agencywide Documents Access and Management System (ADAMS) Public Electronic Reading Room on the internet at the NRC Web site, <http://www.nrc.gov/reading-rm.html>. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS should contact the NRC PDR Reference staff by telephone at 1-800-397-4209, or 301-415-4737 or by e-mail to pdr@nrc.gov.

Dated at Rockville, Maryland, this 1st day of May 2007.

For the Nuclear Regulatory Commission,
John P. Boska,
Senior Project Manager, Plant Licensing Branch I-1, Division of Operating Reactor Licensing, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 030-29302; License No. 29-27857-01; EA-06-286]

In the Matter of TRC Engineers, Inc., Mount Laurel, NJ; Order Imposing Civil Monetary Penalty

I

TRC Engineers, Inc., formerly SITE-Blauvelt Engineering, Inc., formerly Site Engineers, Inc., is the holder of a byproduct materials License No. 29-27857-01 issued by the Nuclear Regulatory Commission (NRC or Commission) on July 11, 1986. The license was renewed on December 26, 2001 (Amendment 7) and expires on December 31, 2011. The license authorizes the Licensee to possess and use certain byproduct materials in accordance with the conditions specified therein.

II

An inspection of the Licensee's activities was completed on December 5, 2006 at the licensee's facility, as well as at a temporary job site in Monroe, Pennsylvania. The results of this inspection indicated that the Licensee had not conducted its activities in full compliance with NRC requirements. A written Notice of Violation and Proposed Imposition of Civil Penalty (Notice) was served upon the Licensee by letter dated January 30, 2007. The Notice states the nature of the violation, the provision of the NRC's requirements that the Licensee violated, and the amount of the civil penalty proposed for the violation. The Licensee responded to the Notice in a letter dated February 28, 2007. In its response, the Licensee disputed the violation and requested rescission of the civil penalty.

III

After consideration of the Licensee's response and the statements of fact, explanation, and argument for mitigation contained therein, the NRC staff has determined, the violation occurred as stated in the Notice and that the penalty proposed for the violation designated in the Notice should be imposed.

IV

In view of the foregoing and pursuant to Section 234 of the Atomic Energy Act of 1954, as amended (Act), 42 U.S.C. 2282, and 10 CFR 2.205, it is hereby ordered that:

The Licensee pay a civil penalty in the amount of \$ 3,250 within 30 days of the date of this Order, in accordance with NUREG/

BR-0254. In addition, at the time payment is made, the licensee shall submit a statement indicating when and by what method payment was made, to the Director, Office of Enforcement, U.S. Nuclear Regulatory Commission, One White Flint North, 11555 Rockville Pike, Rockville, MD 20852-2738.

V

The Licensee may request a hearing within 30 days of the date of this Order. Where good cause is shown, consideration will be given to extending the time to request a hearing. A request for extension of time must be made in writing to the Director, Office of Enforcement, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, and include a statement of good cause for the extension. A request for a hearing should be clearly marked as a "Request for an Enforcement Hearing" and shall be submitted to the Secretary, U.S. Nuclear Regulatory Commission, ATTN: Rulemakings and Adjudications Staff, Washington, DC 20555-0001. Copies also shall be sent to the Director, Office of Enforcement, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, to the Assistant General Counsel for Materials Litigation and Enforcement at the same address, and to the Regional Administrator, NRC Region I, 475 Allendale Rd., King of Prussia, PA 19406. If a hearing is requested, the Commission will issue an Order designating the time and place of the hearing. If the Licensee fails to request a hearing within 30 days of the date of this Order, or if written approval of an extension of time in which to request a hearing has not been granted, the provisions of this Order shall be effective without further proceedings. If payment has not been made by that time, the matter may be referred to the Attorney General, for collection.

In the event the Licensee requests a hearing as provided above, the issues to be considered at such hearing shall be:

- (a) Whether the Licensee was in violation of the Commission's requirements as set forth in the Notice referenced in Section II above, and
- (b) Whether, on the basis of such violation, this Order should be sustained.

For the Nuclear Regulatory Commission.
Dated this 30th day of April 2007.

Cynthia A. Carpenter,

Director, Office of Enforcement.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

Advisory Committee on Nuclear Waste; Revised

The 179th Advisory Committee on Nuclear Waste (ACNW) meeting scheduled to be held on May 16-17, 2007, Room T-2B3, Two White Flint North, 11545 Rockville Pike, Rockville, Maryland has been revised as noted below. Notice of this meeting was previously published in the **Federal Register** on Thursday, April 26, 2007 (72 FR 20889).

The discussion of the item on *Yucca Mountain Preclosure Repository Design: NRC Staff Review Readiness and Views on the Issues*, scheduled between 1 p.m. and 4 p.m. on Wednesday, May 16, 2007, is now scheduled between 1 p.m. and 3:30 p.m.

The discussion of the topic on *NCRP Study on Radiation Exposure of U.S. Population*, scheduled between 4 p.m.—6 p.m. on Wednesday, May 16, 2007 has been canceled. A discussion of *ACNW Letter Reports* will now take place between 3:45 p.m. and 5:30 p.m. on Wednesday, May 16, 2007. All the other items remain the same as previously published in the **Federal Register** on Thursday, April 26, 2007 (72 FR 20889).

For further information, contact Mr. Antonio L. Dias, (Telephone 301-415-6805), between 6:45 a.m. and 4:30 p.m., ET.

Dated: May 1, 2007.

Andrew L. Bates,

Advisory Committee Management Officer.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[EA-07-086]

In the Matter of Certain Fuel Cycle Licensees and All Other Persons Who Seek or Obtain Authorized Unescorted Access to Radioactive Material or Other Property Described Herein; Order Imposing Fingerprinting and Criminal History Records Check Requirements for Unescorted Access to Certain Radioactive Material or Other Property (Effective Immediately)

I

The Licensees identified in Attachment 1 to this Order hold licenses issued in accordance with the Atomic Energy Act (AEA) of 1954, as amended, by the U.S. Nuclear Regulatory Commission (NRC), authorizing them to possess radioactive materials. On

August 8, 2005, the Energy Policy Act of 2005 (EPAAct) was enacted. Section 652 of the EPAAct, amended Section 149 of the AEA to require fingerprinting and a Federal Bureau of Investigation (FBI) identification and criminal history records check of any individual who is permitted unescorted access to radioactive material or other property subject to regulation by the Commission, and which the Commission determines to be of such significance to the public health and safety or the common defense and security as to warrant fingerprinting and background checks. Though a rulemaking to implement the fingerprinting provisions of the EPAAct is currently underway, the NRC has decided to implement this particular requirement by Order, in part, prior to the completion of the rulemaking because a deliberate malevolent act by an individual with unescorted access to radioactive material or other property has a potential to result in significant adverse impacts to the public health and safety or the common defense and security.

Those exempted from fingerprinting requirements under 10 CFR 73.61 [72 FR 4945 (February 2, 2007)] are also exempt from the fingerprinting requirements under this Order. In addition, individuals who have had a favorably-decided U.S. Government criminal history records check within the last five (5) years, or individuals who have an active federal security clearance (provided in either case that they make available the appropriate documentation), have satisfied the EPAAct fingerprinting requirement and need not be fingerprinted again. Also, individuals who have been fingerprinted and granted access to SGI by the reviewing official under the previous fingerprinting order, "Order Imposing Fingerprinting and Criminal History Check Requirements for Access to Safeguards Information," do not need to be fingerprinted again.

Subsequent to the terrorist events of September 11, 2001, the NRC issued security Orders requiring certain entities to implement Additional Security Measures (ASMs) or Interim Compensatory Measures (ICMs) for certain radioactive material. The requirements imposed by these Orders and the measures licensees have developed to comply with that Order, were designated by the NRC as Safeguards Information (SGI) and were not released to the public. These Orders included a local criminal history records check to determine trustworthiness and reliability of individuals seeking unescorted access to
