**DEPARTMENT OF THE INTERIOR**

**Minerals Management Service**

**Agency Information Collection Activities: Submitted for Office of Management and Budget (OMB) Review; Comment Request**

**AGENCY:** Minerals Management Service (MMS), Interior.

**ACTION:** Notice of extension of an information collection (1010-0051).

**SUMMARY:** To comply with the Paperwork Reduction Act of 1995 (PRA), we are notifying the public that we have submitted to OMB an information collection request (ICR) to renew approval of the paperwork requirements in the regulations under 30 CFR 250, Subpart L, "Oil and Gas Production Measurement, Surface Commingling, and Security," and related documents. This notice also provides the public a second opportunity to comment on the paperwork burden of these regulatory requirements.

**DATES:** Submit written comments by June 8, 2007.

**ADDRESSES:** You may submit comments either by fax (202) 395-6566 or e-mail (*OIRA\_DOCKET@omb.eop.gov*) directly to the Office of Information and Regulatory Affairs, OMB, Attention: Desk Officer for the Department of the Interior (1010-0051). Mail or hand carry a copy of your comments to the Department of the Interior; Minerals Management Service; Attention: Cheryl Blundon; Mail Stop 4024; 381 Elden Street; Herndon, Virginia 20170-4817. If you wish to e-mail your comments to MMS, the address is: *rules.comments@mms.gov*. Reference Information Collection 1010-0051 in your subject line and mark your message for return receipt. Include your

name and return address in your message text.

**FOR FURTHER INFORMATION CONTACT:** Cheryl Blundon, Regulations and Standards Branch, (703) 787-1607. You may also contact Cheryl Blundon to obtain a copy, at no cost, of the regulations that require the subject collection of information.

**SUPPLEMENTARY INFORMATION:**

*Title:* 30 CFR 250, Subpart L, Oil and Gas Production Measurement, Surface Commingling, and Security.

*OMB Control Number:* 1010-0051.

*Abstract:* The Outer Continental Shelf (OCS) Lands Act, as amended (43 U.S.C. 1331 *et seq.* and 43 U.S.C. 1801 *et seq.*), authorizes the Secretary of the Interior (Secretary) to prescribe rules and regulations to administer leasing of the OCS. Such rules and regulations will apply to all operations conducted under a lease. Operations on the OCS must preserve, protect, and develop oil and natural gas resources in a manner that is consistent with the need to make such resources available to meet the Nation's energy needs as rapidly as possible; to balance orderly energy resource development with protection of human, marine, and coastal environments; to ensure the public a fair and equitable return on the resources of the OCS; and to preserve and maintain free enterprise competition. The Federal Oil and Gas Royalty Management Act of 1982 (30 U.S.C. 1701, *et seq.*) at section 1712(b)(2) prescribes that an operator will "develop and comply with such minimum site security measures as the Secretary deems appropriate, to protect oil or gas produced or stored on a lease site or on the Outer Continental Shelf from theft."

These authorities and responsibilities are among those delegated to the Minerals Management Service (MMS). This information collection request addresses the regulations at 30 CFR part 250, subpart L, Oil and Gas Production Measurement, Surface Commingling, and Security, and the associated supplementary notices to lessees and operators (NTLs) intended to provide clarification, description, or explanation of these regulations.

Regulations implementing these responsibilities are under 30 CFR part 250. Responses are mandatory. No

questions of a "sensitive" nature are asked. MMS will protect proprietary information according to 30 CFR 250.197, "Data and information to be made available to the public," and 30 CFR Part 252, "OCS Oil and Gas Information Program."

MMS uses the information collected under subpart L to ensure that the volumes of hydrocarbons produced are measured accurately, and royalties are paid on the proper volumes. Specifically, MMS needs the information to:

- Determine if measurement equipment is properly installed, provides accurate measurement of production on which royalty is due, and is operating properly;
- Obtain rates of production data in allocating the volumes of production measured at royalty sales meters, which can be examined during field inspections;
- Ascertain if all removals of oil and condensate from the lease are reported;
- Determine the amount of oil that was shipped when measurements are taken by gauging the tanks rather than being measured by a meter;
- Ensure that the sales location is secure and production cannot be removed without the volumes being recorded; and
- Review proving reports to verify that data on run tickets are calculated and reported accurately.

*Frequency:* The frequency varies by section, but is primarily monthly or on occasion.

*Estimated Number and Description of Respondents:* Approximately 130 Federal OCS oil and gas or sulphur lessees.

*Estimated Reporting and Recordkeeping "Hour" Burden:* The estimated annual "hour" burden for this information collection is a total of 8,533 hours. The following chart details the individual components and estimated hour burdens. In calculating the burdens, we assumed that respondents perform certain requirements in the normal course of their activities. We consider these to be usual and customary and took that into account in estimating the burden.

Total Hour and Fee Burden			158,932	8,533 \$1,154,700

\*Respondents gather this information as part of their normal business practices. MMS only requires copies of readily available documents. There is no burden for testing, meter reading, etc.

*Estimated Reporting and Recordkeeping "Non-Hour Cost" Burden:* We have identified two paperwork "non-hour cost" burdens associated with this collection of information (see Hour and Fee Burden table). One is a \$1,200 simple fee and the other is a \$3,550 complex fee for a total of \$1,154,700.

Simple fee applications are to temporarily reroute production (for a duration not to exceed six months); production tests prior to pipeline construction; departures related to meter proving, well testing, or sampling frequency.

Complex fee applications are for creations of new facility measurement points (FMPs); association of leases or units with existing FMPs; inclusion of production from additional structures; meter updates which add buy-back gas meters or pigging meters; other applications which request deviations from the approved allocation procedures.

The application filing fees are required to recover the Federal Government's processing costs. We have not identified any other "non-hour cost" burdens associated with this collection of information.

*Public Disclosure Statement:* The PRA (44 U.S.C. 3501, *et seq.*) provides that an agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. Until OMB approves a collection of information, you are not obligated to respond.

*Comments:* Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3501, *et seq.*) requires each agency " \* \* \* to provide notice \* \* \* and otherwise consult with members of the public and affected agencies concerning each proposed collection of information \* \* \*." Agencies must specifically solicit comments to: (a) Evaluate whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

To comply with the public consultation process, on October 3, 2006, we published a **Federal Register** notice (71 FR 58429) announcing that we would submit this ICR to OMB for approval. The notice provided the required 60-day comment period. In

addition, § 250.199 provides the OMB control number for the information collection requirements imposed by the 30 CFR 250 regulations. The regulation also informs the public that they may comment at any time on the collections of information and provides the address to which they should send comments. We received one comment in response to these efforts, but it was not germane to the paperwork requirements.

If you wish to comment in response to this notice, you may send your comments to the offices listed under the **ADDRESSES** section of this notice. OMB has up to 60 days to approve or disapprove the information collection but may respond after 30 days. Therefore, to ensure maximum consideration, OMB should receive public comments by June 8, 2007.

*Public Comment Procedures:* The MMS's practice is to make comments, including names and addresses of respondents, available for public review. If you wish your name and/or address to be withheld, you must state this prominently at the beginning of your comment. The MMS will honor the request to the extent allowable by the law; however, anonymous comments will not be considered. There may be circumstances in which we would withhold from the record a respondent's identity, as allowable by the law. If you wish us to withhold your name and/or address, you must state this prominently at the beginning of your comment. In addition, you must present a rationale for withholding this information. This rationale must demonstrate that disclosure "would constitute an unwarranted invasion of privacy." Unsupported assertions will not meet this burden. In the absence of exceptional, documentable circumstances, this information will be released. All submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be made available for public inspection in their entirety.

*MMS Information Collection Clearance Officer:* Arlene Bajusz (202) 208-7744.

## DEPARTMENT OF THE INTERIOR

### Bureau of Reclamation

#### Fifth Public Meeting for Reclamation's Managing for Excellence Project

**AGENCY:** Bureau of Reclamation, Interior.

**ACTION:** Notice of a public meeting and announcement of subsequent meetings to be held.

**SUMMARY:** The Bureau of Reclamation is holding a meeting to inform the public about the *Managing for Excellence* project. This meeting is the second to be held in 2007 to inform the public about the action items, progress, and results of the *Managing for Excellence* project and to seek broad public input and feedback. Subsequent meetings in 2007 are anticipated but not yet scheduled.

**DATES:** May 30, 2007, 8 a.m. to 5 p.m., and May 31, 2007, 8 a.m. to 3 p.m.

**ADDRESSES:** Marriott Hotel, 16455 East 40th Circle, Aurora, Colorado.

**FOR FURTHER INFORMATION CONTACT:** Debbie Byers at (303) 445-2790.

**SUPPLEMENTARY INFORMATION:** The *Managing for Excellence* project will identify and address the specific 21st Century challenges Reclamation must meet to fulfill its mission to manage, develop, and protect water and related resources in an environmentally and economically sound manner in the interest of the American public. This project will examine Reclamation's core capabilities and the agency's ability to respond to both expected and unforeseeable future needs in an innovative and timely manner. This project will result in essential changes in a number of key areas, which are outlined in, *Managing for Excellence—An Action Plan for the 21st Century Bureau of Reclamation*. For more information regarding the project, Action Plan, and specific actions being taken, please visit the *Managing for Excellence* Web site at <http://www.usbr.gov/excellence>.

#### Registration

Although you may register the first day of the conference beginning at 7 a.m., we highly encourage you to register prior to the date of the meeting online at <http://www.usbr.gov/excellence>, or by phone at 303-445-2935.

Dated: May 2, 2007.
