The Advisory Committee serves as an independent source of advice and counsel to the Congress and the Secretary of Education on student financial aid policy. Since its inception, the congressional mandate requires the Advisory Committee to conduct objective, nonpartisan, and independent analyses on important aspects of the student assistance programs under Title IV of the Higher Education Act, and to make recommendations that will result in the maintenance of access to postsecondary education for low- and middle-income students. In addition, Congress expanded the Advisory Committee's mission in the Higher Education Amendments of 1998 to include several important areas: access, Title IV modernization, distance education, and early information and needs assessment. Specifically, the Advisory Committee is to review, monitor and evaluate the Department of Education's progress in these areas and

This one-year study, was requested by the U.S. House of Representatives Committee on Education and Labor (formerly Education and the Workforce) to investigate further the problem of rising textbook prices and determine the impact of rising textbook prices on students' ability to afford a postsecondary education. In addition, other discussions will focus on two components of the Advisory Committee's three-year Innovative Pathways Study: Expected Family Contribution and early financial aid information.

The proposed agenda includes expert testimony and discussions by prominent higher education community leaders, Congressional staff, state representatives, and institutions on (a) the Advisory Committee's Textbook Study recommendations; (b) legislative efforts to simplify the student aid application and delivery process; and (c) the National Advising Corps. necessity authorizing its High Plains Expansion Project which consists of approximately 164 miles of 24- and 30-inch diameter pipeline, in four related pipeline segments, and metering facilities, with appurtenances, to be located in Adams, Morgan, and Weld Counties, Colorado. As part of the project, CIG is seeking authorization to implement new services and rates, and gas quality control rates and fuel charges. When completed, the pipeline facilities will transport and deliver up to 899,000 Dth per day of natural gas, all as more fully set forth in the application which is on file with the Commission and open for public inspection. This filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. Box 1087, Colorado Springs, Colorado, 80944 at (719)520-4829 or by fax at (719)520-4898.

On October 6, 2006, the Commission staff granted CIG's request to utilize the National Environmental Policy Act (NEPA) Pre-Filing Process and assigned Docket No. PF06-36-000 to staff activities involving the CIG's expansion project. Now, as of the filing of CIG's application on April 27, 2007, the NEPA Pre-Filing Process for this project has ended. From this time forward, CIG's proceeding will be conducted in Docket No. CP07-207-000, as noted in the caption of this Notice.

Pursuant to section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: Complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding, or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS)

or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the below listed comment date, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC, 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed
