### SUPPLEMENTARY INFORMATION:

## I. Background

The Division of Coal Mine Workers' Compensation administers the Black Lung Benefits Act (30 U.S.C. 901 et seq.) which provides benefits to coal miners totally disabled due to pneumoniosis,

and their surviving dependents. When the Division of Coal Mine Workers' Compensation (DCMWC) makes a preliminary analysis of a claimant's eligibility for benefits, and if a coal mine operator has been identified as potentially liable for payment of those benefits, the responsible operator is notified of the preliminary analysis. Regulations require that a coal mine operator be identified and notified of potential liability as early in the adjudication process as possible. Forms CM-970 and CM-970a are now obsolete and renewal will not be requested in the extension request for information collection 1215-0058. The CM-970 and CM-970a will be replaced by CM-2970 and CM-2970a. Regulatory authority is found in 20 CFR 725.410 for the CM-2970 and 20 CFR 725.408 for the CM-2970A. This information collection is currently approved for use through October 31, 2007.

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- enhance the quality, utility and clarity of the information to be collected: and
- minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.
