Clean Air Act Operating Permit Program; Petition To Object to Title V Permits for Potlatch Corporation's Clearwater Wood Products Facility, Idaho Pulp and Paperboard Division, and Consumer Products Division, Lewiston, ID

AGENCY: Environmental Protection
Agency (EPA).

ACTION: Notice of final order on petition
to object to state operating permits

SUMMARY: Pursuant to Clean Air Act (CAA) section 505(b)(2) and 40 CFR 70.8(d), the EPA Administrator signed an order dated May 7, 2007, denying a petition to object to state operating permits issued by the Idaho Department of Environmental Quality to Potlatch Corporation's Clearwater Wood Products Facility, Idaho Pulp and Paperboard Division, and Consumer Products Division, all located in Lewiston, Idaho (Potlatch permits). This order constitutes final action on the petition submitted by Mr. Mark Solomon, representing the Idaho Conservation League, Friends of the Clearwater, and himself, on February 7, 2003, requesting that EPA object to the issuance of the Potlatch permits. Pursuant to section 505(b)(2) of the CAA, any person may seek judicial review in the United States Court of Appeals for the appropriate circuit within 60 days of this notice under section 307 of the CAA.

ADDRESSES: Copies of the final order, the petition, and all pertinent information relating thereto are on file at the following location: Environmental Protection Agency, Region 10, Office of Air, Waste, and Toxics (AWT-107), 1200 Sixth Avenue, Seattle, Washington 98101. The final order is also available electronically at the following Web site: <http://www.epa.gov/region07/programs/artd/air/title5/petitiondb/petitiondb.htm>.

FOR FURTHER INFORMATION CONTACT:
Doug Hardesty, Office of Air, Waste and Toxics, EPA Region 10, telephone (208) 378-5759, e-mail hardesty.doug@epa.gov.

SUPPLEMENTARY INFORMATION: The Clean Air Act affords EPA a 45-day period to review and object to, as appropriate, operating permits proposed by state permitting authorities. Section 505(b)(2) of the CAA authorizes any person to petition the EPA Administrator within 60 days after the expiration of this review period to object to a state operating permit if EPA has not done so. Petitions must be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided by the state, unless the petitioner demonstrates that it was impracticable to raise these issues during the comment period or that the grounds for the objection or other issue arose after the comment period.

On February 7, 2003, EPA received a petition from Mr. Mark Solomon, representing the Idaho Conservation League, Friends of the Clearwater, and himself, requesting that EPA object to the issuance of the Potlatch permits. The petition alleged that: (1) The three Potlatch divisions should be covered by a single Title V operating permit; and (2) IDEQ used the wrong model in determining the ambient air quality impacts of the Potlatch facilities. The order explains the reasons behind EPA's decision to deny the petition for objection on all grounds.

Ronald Kreizenbeck,

Deputy Regional Administrator, Region 10.

ACTION: Notice.

SUMMARY: In this document, the Commission seeks to update the record for a Petition for Reconsideration filed by the Center for the Study of Commercialism (CSC), concerning stations that air home shopping programming and their status. The Commission seeks comment on CSC's argument that the Commission failed to consider in its public interest analysis the significant amount of commercial programming broadcast by home shopping stations; on the specific issues concerning how home shopping stations serve the people in their communities, including the elderly and homebound; on CSC's assertion that the Commission failed to consider information relevant to one of three statutory factors, *i.e.*, competing demands for the spectrum; and on CSC's assertion that the Cable Act requires the Commission to consider non-broadcast uses in its analysis of competing demands for spectrum. The Commission would like to update the record for this proceeding before ruling on the petition.

DATES: Comments for this proceeding are due on or before June 18, 2007; reply comments are due on or before July 2, 2007.

Summary of the Notice

1. In this Public Notice, the Commission seeks to update the record for a Petition for Reconsideration of its *Report and Order* in MM Docket No. 93–8 (58 FR 39156–01), concerning

stations that air home shopping programming and their status under section 4(g) of the Cable Television Consumer Protection and Competition Act of 1992. In the *Report and Order*, the Commission concluded that television broadcast stations that are used predominantly for the transmission of sales presentations or program length commercials (such as home shopping stations) serve the public interest and are therefore qualified for mandatory cable carriage. The Center for the Study of Commercialism (CSC) filed a petition for reconsideration of that order. We issue this Public Notice because the Commission would like to update the record for this proceeding before ruling on the petition.

2. On January 14, 1993, the Commission opened a proceeding to implement section 4(g) of the Cable Act of 1992. The Cable Act requires the Commission to determine, regardless of prior proceedings, whether home shopping broadcast stations are serving the public interest, convenience, and necessity. Pursuant to this provision, if the Commission finds that these stations serve the public interest, it must qualify them as local commercial television stations for the purposes of mandatory cable carriage, or must-carry. If the Commission found that one or more such stations did not serve the public interest, then the Act required the Commission to provide them with reasonable time to provide different programming. The Cable Act further provides that the Commission consider three factors in making its public interest determination: "The viewing of home shopping stations, the level of competing demands for the spectrum allocated to such stations, and the role of such stations in providing competition to nonbroadcast services offering similar programming."

3. In the *Report and Order*, the Commission noted that the overwhelming majority of commenters in the proceeding contended that home shopping stations do serve the public interest, that their programming format should not adversely affect their renewal expectancy, and that they should be eligible for must-carry status. Addressing the first of the three factors enumerated in Section 4(g), the Commission found that home shopping stations have significant viewership. With respect to the second factor, the Commission found that it must consider the demands only of other television broadcasters and not the demands of services other than broadcast television. The Commission further found that the licensing process adequately took into

account the competing demands of television broadcasters for the television broadcast spectrum. Finally, turning to the third factor, the Commission found that the existence and carriage of home shopping broadcast stations play a role in providing competition for nonbroadcast services supplying similar programming. Thus, the Commission found that each of the three statutory factors supported a conclusion that home shopping stations are serving the public interest.

4. In addition, the Commission found that other factors, including the following, supported its conclusion: (1) Home shopping stations provide a needed and valuable service to people without the time or ability to obtain goods outside the home, including the disabled, elderly, and homebound; (2) home shopping stations fulfill public interest programming obligations; (3) the role played by the Home Shopping Network in assisting minority-controlled and other small and marginal stations to attain financial viability; and (4) lack of evidence that the marketplace had failed to serve television viewers based on the then-present number and variety of home shopping services. Accordingly, the Commission concluded that home shopping stations serve the public interest, and it therefore qualified them as local commercial television stations for the purposes of mandatory cable carriage.

5. CSC argues that (1) the Commission did not consider the amount of the commercial programming home shopping stations broadcast when it concluded that such stations discharge their obligation to broadcast programming that is in the public interest; and (2) the Commission did not consider information relevant to the second of the three factors in section 4(g) relating to competing uses for the television broadcast spectrum.

6. In order to update our records for this proceeding, we seek comment on the issues presented in the petition for reconsideration filed by CSC. CSC argues that the Commission failed to consider in its public interest analysis the significant amount of commercial programming broadcast by home shopping stations. We seek comments on this assertion. Additionally, in order to update the record, we're now seeking comment on the specific issues concerning how home shopping stations serve the people in their communities, including the elderly and homebound.

7. We also seek comment on CSC's assertion that the Commission failed to consider information relevant to the second statutory factor, *i.e.*, competing demands for the spectrum. Specifically,

CSC claims that the Commission failed to consider evidence regarding Congressional intent that the Commission consider non-broadcast uses for the television broadcast spectrum, such as those of police and fire departments. We seek comment on CSC's assertion that the Cable Act requires the Commission to consider non-broadcast uses in its analysis of competing demands for spectrum.

8. Finally, given the passage of time since the *Report and Order* was adopted, we seek comment on the current number of broadcast stations that provide home shopping programs for the majority of their broadcast day. How do home shopping stations meet their public interest obligations? In particular, how do they comply with the requirements of the Children's Television Act of 1990 and licensees' obligation to provide coverage of issues facing their communities?

9. *Ex Parte Rules*. This proceeding will be treated as a "permit-but-disclose" proceeding subject to the "permit-but-disclose" requirements under section 1.1206(b) of the Commission's rules. *Ex parte* presentations are permissible if disclosed in accordance with Commission rules, except during the Sunshine Agenda period when presentations, *ex parte* or otherwise, are generally prohibited. Persons making oral *ex parte* presentations are reminded that a memorandum summarizing a presentation must contain a summary of the substance of the presentation and not merely a listing of the subjects discussed. More than a one- or two-sentence description of the views and arguments presented is generally required. Additional rules pertaining to oral and written presentations are set forth in section 1.1206(b).

10. Pursuant to Sections 1.415 and 1.419 of the Commission's rules, interested parties may file comments and reply comments on or before the dates indicated on the first page of this document. All filings must be submitted in MM Docket No. 93-8. Pleadings sent via e-mail to the Commission will be considered informal and will not be part of the official record.
