**SUPPLEMENTAL INFORMATION:** Section 106 of the National Historic Preservation Act requires Federal agencies to consider the effects of their undertakings on historic properties and provide the

Advisory Council on Historic Preservation (ACHP) a reasonable opportunity to comment with regard to such undertakings. ACHP has issued the regulations that set forth the process through which Federal agencies comply with these duties. Those regulations are codified under 36 CFR part 800 “Section 106 regulations”).

Under Section 800.14(e) of those regulations, agencies can request ACHP to provide a “Program Comment” on a particular category of undertakings in lieu of conducting individual reviews of each individual undertaking under such category, as set forth in 36 CFR 800.4 through 800.6. An agency can meet its Section 106 responsibilities for those undertakings by taking into account ACHP's Program Comment and by following the steps set forth in those comments.

On August 18, 2006, the Advisory Council on Historic Preservation approved and issued to the Department of the Army a Program Comment for World War II and Cold War era (1939–1974) Army Ammunition Production Facilities and Plants, and to the Department of Defense a Program Comment on World War II and Cold War era (1939–1974) Ammunition Storage Facilities, and a Program Comment on Cold War era (1946–1974) Unaccompanied Personnel Housing. The Program Comments pertain to all Army ammunition production facilities (Army Real Property category group 226XX) built between 1939 and 1974, all properties built between 1939 and 1974 at Army Ammunition Plants, all buildings and structures designed and built as ammunition storage facilities (DoD Real Property category group 42XXXX) within the years 1939–1974, and all buildings and structures that were designed and built as Unaccompanied Personnel Housing (DoD Real Property category group 72XXXX) in the years 1946–1974. The Program Comments include treatment measures for the following undertakings for these four categories of properties: ongoing operations, maintenance and repair; rehabilitation; renovation; mothballing; cessation of maintenance, new construction; demolition; deconstruction and salvage; remediation activities; and transfer, sale, lease, and closure of such facilities. The Department of the Army has taken into account the Advisory Council on Historic Preservation's Program Comment for World War II and Cold War era (1939–1974) Army Ammunition Production Facilities and Plants, the Program Comment on World War II and Cold War era (1939–1974) Ammunition Storage Facilities, and the Program

Comment on Cold War era (1946–1974) Unaccompanied Personnel Housing, and accepts and adopts these Program Comments. The Department of the Army ensures that the effects of these undertakings on these categories of historic properties is taken into account by execution of the steps identified as treatment measures in the Program Comments, Sections II.A. Treatment measures vary by property type. For Cold War era Unaccompanied Housing, the Army will prepare a publicly available version of the existing context entitled “Unaccompanied Personnel Housing (UPH) During the Cold War (1946–1989).” For World War II and Cold War era Ammunition Storage Facilities, the Army will prepare a Historic Context on ammunition storage facilities that covers the Cold War era; a context entitled “Army Ammunition and Explosive Storage in the United States, 1775–1945” already exists. The Army will also prepare documentation of ammunition storage facilities at nine installations, six of which have World War II-era properties, and three of which have Cold War era properties. For the World War II and Cold War era Army Ammunition Facilities and Plants, the Army will prepare a Historic Context, and develop documentation of selected architecturally significant ammunition production facilities and Plants at two installations. Finally, the Army will prepare a display and popular publication on the ammunition production process, from production to storage. The full text of the Program Comments can be found on the DENIX Web site at <http://www.denix.osd.mil/ProgramAlternatives>.

The Army also announces the availability of the final Environmental Assessment (EA) and signed Finding of No Significant Impact (FONSI) for the Program Comment process. Notice of the availability of the draft EA and FONSI was published in the **Federal Register** on October 26, 2004, Vol. 69, No. 206, pp. 62431–62432. The Army considered all public comments received on the draft before finalizing the EA and FONSI. Copies of the final EA and FONSI are available at <http://www.denix.osd.mil/ProgramAlternatives>.
