

flag vessels. If MARAD determines, in accordance with Pub. L. 105-383 and MARAD's regulations at 46 CFR part 388 (68 FR 23084; April 30, 2003), that the issuance of the waiver will have an unduly adverse effect on a U.S.-vessel builder or a business that uses U.S.-flag vessels in that business, a waiver will not be granted. Comments should refer to the docket number of this notice and the vessel name in order for MARAD to properly consider the comments. Comments should also state the commenter's interest in the waiver application, and address the waiver criteria given in § 388.4 of MARAD's regulations at 46 CFR part 388.

DATES: Submit comments on or before June 20, 2007.

ADDRESSES: Comments should refer to docket number MARAD-2007-28176. Written comments may be submitted by hand or by mail to the Docket Clerk, U.S. DOT Dockets, Room PL-401, Department of Transportation, 400 7th St., SW., Washington, DC 20590-0001. You may also send comments electronically via the Internet at <http://dmses.dot.gov/submit/>. All comments will become part of this docket and will be available for inspection and copying at the above address between 10 a.m. and 5 p.m., E.T., Monday through Friday, except federal holidays. An electronic version of this document and all documents entered into this docket is available on the World Wide Web at <http://dms.dot.gov>.

FOR FURTHER INFORMATION CONTACT: Joann Spittle, U.S. Department of Transportation, Maritime Administration, 1200 New Jersey Avenue, SE., #W21-203, Washington, DC 20590. Telephone 202-366-5979.

SUPPLEMENTARY INFORMATION: As described by the applicant the intended service of the vessel CAROLINA GALE is:

Intended Use: "sailboat charters and instruction."

Geographic Region: "Coast of North Carolina, South Carolina, Georgia, and Florida."

DEPARTMENT OF TRANSPORTATION

Maritime Administration

[Docket No. MARAD-2007-28167]

Requested Administrative Waiver of the Coastwise Trade Laws

AGENCY: Maritime Administration, Department of Transportation.

ACTION: Invitation for public comments on a requested administrative waiver of the Coastwise Trade Laws for the vessel RAFFLES.

SUMMARY: As authorized by Pub. L. 105-383 and Pub. L. 107-295, the Secretary of Transportation, as represented by the Maritime Administration (MARAD), is authorized to grant waivers of the U.S.-build requirement of the coastwise laws under certain circumstances. A request for such a waiver has been received by MARAD. The vessel, and a brief description of the proposed service, is listed below. The complete application is given in DOT docket MARAD-2007-28167 at <http://dms.dot.gov>. Interested parties may comment on the effect this action may have on U.S. vessel builders or businesses in the U.S. that use U.S.-flag vessels. If MARAD determines, in accordance with Pub. L. 105-383 and MARAD's regulations at 46 CFR Part 388 (68 FR 23084; April 30, 2003), that the issuance of the waiver will have an unduly adverse effect on a U.S.-vessel builder or a business that uses U.S.-flag vessels in that business, a waiver will not be granted. Comments should refer to the docket number of this notice and the vessel name in order for MARAD to properly consider the comments. Comments should also state the commenter's interest in the waiver application, and address the waiver criteria given in § 388.4 of MARAD's regulations at 46 CFR Part 388.

BILLING CODE 4910-81-P

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

Petition for Exemption From the Federal Motor Vehicle Motor Theft Prevention Standard; MAZDA

AGENCY: National Highway Traffic Safety Administration, Department of Transportation (DOT).

ACTION: Grant of petition for exemption.

SUMMARY: This document grants in full the petition of Mazda Motor Corporation, (Mazda) for an exemption in accordance with § 543.9(c)(2) of 49 CFR Part 543, *Exemption from the Theft Prevention Standard*, for the Mazda 5 vehicle line beginning with model year (MY) 2009. This petition is granted because the agency has determined that the antitheft device to be placed on the line as standard equipment is likely to be as effective in reducing and deterring motor vehicle theft as compliance with the parts-marking requirements of the Theft Prevention Standard.

DATES: The exemption granted by this notice is effective beginning with model year (MY) 2009.

FOR FURTHER INFORMATION CONTACT: Ms. Carlita Ballard, Office of International Vehicle, Fuel Economy and Consumer Standards, NHTSA, 400 Seventh Street, SW., Washington, DC 20590. Ms. Ballard's phone number is (202) 366-0846. Her fax number is (202) 493-2290.

SUPPLEMENTARY INFORMATION: In a petition dated March 8, 2007, Mazda Motor Corporation (Mazda), requested an exemption from the parts-marking requirements of the theft prevention standard (49 CFR part 541) for the Mazda 5 vehicle line beginning with MY 2009. The petition requested an exemption from parts-marking pursuant to 49 CFR 543, *Exemption from Vehicle Theft Prevention Standard*, based on the installation of an antitheft device as standard equipment for the entire vehicle line.

Under § 543.5(a), a manufacturer may petition NHTSA to grant exemptions for

one line of its vehicle lines per year. Mazda has petitioned the agency to grant an exemption for its Mazda 5 vehicle line beginning with MY 2009. In its petition, Mazda provided a detailed description and diagram of the identity, design, and location of the components of the antitheft device for the new vehicle line. Mazda will install its passive antitheft device as standard equipment on its 5 vehicle line. Mazda's submission is considered a complete petition as required by 49 CFR 543.7, in that it meets the general requirements contained in § 543.5 and the specific content requirements of § 543.6.

Mazda's antitheft device is activated when the driver/operator turns off the engine using a properly coded ignition key. When the ignition key is turned to the "ON" position, the transponder (located in the head of the key) transmits a code to an immobilizer control module which then communicates with the powertrain's electronic control module. The vehicle's engine can only be started if the transponder code matches the code previously programmed into the module. If the code does not match, the engine will be disabled. Mazda stated that communications between the immobilizer system control function and the powertrain's electronic control module are encrypted with 18 trillion different codes, and each transponder is hard coded with a unique code at the time of manufacture. Mazda also stated that its immobilizer system incorporates a light-emitting diode (LED) that provides information as to when the system is "set and "unset". When the ignition is initially turned to the "ON" position, a three-second continuous LED indicates the proper "unset" state of the device. When the ignition is turned to "OFF", a flashing LED indicates the "set" state of the system and provides a visual confirmation that the vehicle is protected by the immobilizer system. The integration of the setting/unsetting device (transponder) into the ignition key prevents any inadvertent activation of the system.

In addressing the specific content requirements of 543.6, Mazda provided information on the reliability and durability of its proposed device. To ensure reliability and durability of the device, Mazda conducted tests based on its own specified standards. Mazda also provided a detailed list of the tests conducted and believes that the device is reliable and durable since the device complied with its specified requirements for each test. The components of the immobilizer device are tested in climatic, mechanical and chemical environments, and, immunity
