SUPPLEMENTARY INFORMATION:

I. Abstract

Fishery quotas are established for many species in the fishery management plans developed by both the Gulf of Mexico Reef Fish Fishery Management Council and the South Atlantic Fishery Management Council. The Southeast Fisheries Science Center (SFSC) has been delegated the responsibility to monitor these quotas. To do so in a timely manner, seafood dealers that handle these species are required to report the purchases (landings) of these species. The frequency of these reporting requirements varies depending on the magnitude of the quota (*i.e.*, lower quota usually require more frequent reporting) and the intensity of fishing effort. The most common reporting frequency is twice a month; however, some fishery quotas, *e.g.*, the mackerel gill net, necessitates weekly or by the trip.

In addition, information collection included in this family of forms includes interviews with fishermen to gather information on the fishing effort, location and type of gear used on individual trips. This data collection is conducted for a subsample of the fishing trips and vessel/trips in selected commercial fisheries in the Southeast region. The fishing trips and individuals are selected at random to provide a viable statistical sample. These data are used for scientific analyses that support critical conservation and management decisions made by national and international fishery management organizations.

II. Method of Collection

The SFSC will provide a reporting form to each dealer selected to report the minimum information necessary to

monitor the quota(s). This form must be faxed or sent as an e-mail attachment to the SFSC within 5 business days of the end of each reporting period. For dealers that do not have a rapid fax machine or access to e-mail, pre-addressed, pre-paid envelopes will be provided. Fishery biologists that are located at strategic fishing ports throughout the Southeast Region (North Carolina through Texas) intercept fishermen as they are unloading their catch and interview them.
