*Proposed Project:* Voluntary Customer Satisfaction Surveys to Implement Executive Order 12862 in the Substance Abuse and Mental Health Services Administration (SAMHSA)—(OMB No. 0930-0197)—Revision

Executive Order 12862 directs agencies that “provide significant services directly to the public” to “survey customers to determine the

kind and quality of services they want and their level of satisfaction with existing services.” SAMHSA provides significant services directly to the public, including treatment providers and State substance abuse and mental health agencies, through a range of mechanisms, including publications, training, meetings, technical assistance and Web sites. Many of these services are focused on information dissemination activities. The purpose of this submission is to extend the existing generic approval for such surveys.

The primary use for information gathered is to identify strengths and weaknesses in current service provisions by SAMHSA and to make

improvements that are practical and feasible. Several of the customer satisfaction surveys expected to be implemented under this approval will provide data for measurement of program effectiveness under the Government Performance and Results Act (GPRA). Information from these customer surveys will be used to plan and redirect resources and efforts to improve or maintain a high quality of service to health care providers and members of the public. Focus groups may be used to develop the survey questionnaire in some instances.

The estimated annual hour burden is as follows:

Type of data collection	Number of respondents	Responses/ respondent	Hours/ response	Total hours
Focus groups .....	250	1	2.50	625
Self-administered, mail, telephone and e-mail surveys .....	89,750	1	.250	22,438
Total .....	90,000	.....	.....	23,063

**SUPPLEMENTARY INFORMATION:** Notice of this meeting is given under the Federal Advisory Committee Act, 5 U.S.C. App.

(Pub. L. 92-463). The HSAC exists to provide organizationally independent advice and recommendations to the Secretary of the Department aiding in the creation and expeditious implementation of critical and actionable policy and operational capacities across the spectrum of Homeland Security operations. The HSAC shall periodically report, as appropriate, to the Secretary on matters within the scope of that function. The HSAC serves as an advisory body with the goal of providing advice upon the request of the Secretary.

The committee will meet for the purpose of discussions with senior Department of Homeland Security Officials and will discuss priorities and the progress of various initiatives.

### Basis for Closure

The Federal Advisory Committee Act permits the closure of advisory committee meetings, or portions thereof, as a matter of public interest subject to the requirements of the Government in the Sunshine Act (5 U.S.C. 552b(c)). At this meeting, the Committee will participate in sensitive discussions with senior officials regarding priorities and ongoing initiatives in the department.

Pursuant to 5 U.S.C. 552b(c)(9)(B), the nature of the discussions could lead to premature disclosure of information on Department of Homeland Security actions that would be “likely to significantly frustrate implementation of a proposed agency action.” Additionally, discussions of ongoing investigations with Department of

Homeland Security enforcement components and outside law enforcement partners fall within the meaning of 5 U.S.C. 552b(c)(7)(E) insofar as they will "disclose investigative techniques and procedures."

The closed meeting will be dedicated to pre-decisional discussions of the updates to the National Response Plan and the rollout of radiation screening in ports, as well as the investigative and enforcement efforts of Immigration and Customs Enforcement, Customs and Border Protection, New York Police Department, and the New York State Department of Public Safety. The predecisional discussion with Coast Guard and FEMA will involve information that, if publicly disclosed, is likely to inhibit the government's ability to implement the National Response Plan and the planned radiation screening programs. The discussions with internal and external enforcement components will involve information about sensitive investigative techniques and procedures.

[Docket No. DHS-2007-0021]

**United States Visitor and Immigrant Status Indicator Technology (US-VISIT); Privacy Act of 1974; Notice of Decommission of System of Records**

**AGENCY:** United States Visitor and Immigrant Status Indicator Technology (US-VISIT), DHS.

**ACTION:** Notice of Decommission for System of Records.

**SUMMARY:** The Department of Homeland Security (DHS), US-VISIT Program, conducted a proof of concept (POC) for Increment 2C (70 FR 39300, US-VISIT Privacy Impact Assessment, July 7, 2005) to assess the capability of automatically, passively, and remotely recording the entry and exit of US-VISIT covered individuals at U.S. land border ports of entry (POEs) using Radio Frequency Identification (RFID)-enabled I-94 (Arrival/Departure) Forms. To support the US-VISIT Increment 2C POC, the Automated Identification Management System (AIDMS) was created to link the unique and

individually-assigned RFID tag number to existing biographic information received from the Treasury Enforcement Communications System (TECS) and the entry and exit event information for each covered individual crossing the land border. The AIDMS maintained four general categories of records: traveler (i.e., covered individual) identification information, RFID tag related information, RFID tag read event information, and border crossing history information. The traveler identification information and the border crossing history information were duplicative of information stored in TECS and the Arrival/Departure Information System (ADIS). The RFID tag information was comprised of data collected about the issuance and status of the Form I-94 as well as data associated with the reading of an RFID tag. On November 7, 2006, US-VISIT concluded the Increment 2C POC. Upon completion of the estimated one year POC (as noted in the US-VISIT Notice published August 4, 2005, 70 FR 44934), AIDMS has been decommissioned because data is no longer being collected or stored in the system. All data previously stored in AIDMS will be deleted/destroyed 30 days after publication of this notice and in accordance with the National Archives and Records Administration (NARA) General Records Schedule (GRS) 20, Item 1.a. The AIDMS SORN was previously published in the **Federal Register** on July 5, 2005, at 70 FR 38700. A Privacy Impact Assessment regarding this decommission has been published at <http://www.dhs.gov/privacy>.

The purpose of this notice is to inform the public of the termination of AIDMS on June 25, 2007.

**Disposition:** In accordance with NARA GRS 20, Item 1.a, the data collected and stored in AIDMS will be deleted/destroyed 30 days after publication of this notice.

**FOR FURTHER INFORMATION CONTACT:** Steve Yonkers, Privacy Officer, US-VISIT Program, Department of Homeland Security, Washington, DC 20528; telephone 202-298-5200 (this is not a toll free number).
