

8. Section 3633(a)(2) requires each competitive product to cover its “costs attributable,” which are defined as “the direct and indirect postal costs attributable to such product through reliably identified causal relationships.” § 3631(b). The Commission has historically used attributable costs to develop recommended rates under the Postal Reorganization Act. Enactment of the PAEA raises issues concerning the need, if any, to modify the Commission’s historic approach as well as the classification of costs arising under the PAEA.

Regarding the term “costs attributable”—

a. Identify any costs currently classified as attributable that, in light of PAEA, should be classified as institutional. The rationale for the proposed change should be explained.

b. Identify any costs currently classified as institutional that, in light of PAEA, should be classified as attributable. The rationale for the proposed change should be explained.

c. How should Retiree Health Benefit costs be classified?

9. The PAEA establishes a rate floor for each competitive product, *i.e.*, each competitive product must cover its attributable costs. § 3633(a)(2). Product is defined as “a postal service with a distinct cost or market characteristic for which a rate or rates are, or may reasonably be, applied[.]” § 102(6).

Regarding the term “product”—

a. Is each International Customized Agreement a competitive product?

b. Is each Negotiated Service Agreement a product?

c. Is each special classification a product?

d. Is each class not of general applicability a product?

Approval and Promulgation of Implementation Plans: State of Florida; Prevention of Significant Deterioration Requirements for Power Plants Subject to the Florida Power Plant Siting Act

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: On February 3, 2006, the State of Florida, through a State Implementation Plan (SIP) submittal addressing New Source Review Reform (NSR) requirements, requested that EPA grant it full approval to implement the State’s Clean Air Act (CAA or Act) Prevention of Significant Deterioration program for electric power plants subject to the Florida Electrical Power Plant Siting Act. EPA is proposing to approve this specific request under section 110 of the Act. EPA intends to take action on all other portions of Florida’s February 3, 2006, NSR Reform SIP submittal in a future rulemaking. In the Final Rules section of this **Federal Register**, EPA is approving the State’s request as a direct final rule without prior proposal because the Agency views this as a noncontroversial action and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this rule, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time.

DATES: Written comments must be received on or before June 25, 2007.

Instructions: Direct your comments to Docket ID No. EPA-HQ-OAR-2006-0859. As described further in section VII of the advanced notice of proposed rulemaking, specific data change suggestions need to be accompanied by supporting documentation that includes a description of any assumptions used and any technical information and/or data that you used. We strongly urge that all data revision comments be submitted in the form of updated Microsoft(r) Access files, which are provided on the <http://www.epa.gov/ttn/atw/risk/rtrpg.html> webpage. Data in the form of written descriptions or other electronic file formats will be difficult for EPA to translate into the necessary format in a timely manner. Additionally, placing the burden on EPA to interpret data submitted in other

formats increases the possibility of misinterpretation or errors. EPA's policy is that all comments received will be included in the public docket without change and may be made available online at www.regulations.gov, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through www.regulations.gov, or e-mail. Send or deliver information identified as CBI only to the following address: Mr. Roberto Morales, OAQPS Document Control Officer, U.S. EPA (C404-02), Attention Docket ID No. EPA-HQ-OAR-2006-0859, Research Triangle Park, NC 27711. Clearly mark the part or all of the information that you claim to be CBI. The www.regulations.gov Web site is an "anonymous access" system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an e-mail comment directly to EPA without going through www.regulations.gov, your e-mail address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses.

Docket: All documents in the docket are listed in the www.regulations.gov index. Although listed in the index, some information is not publicly available, (i.e., CBI or other information whose disclosure is restricted by statute). Certain other material, such as

copyrighted material will be publicly available only in hard copy. Publicly available docket materials are available either electronically in www.regulations.gov or in hard copy at the EPA Docket Center, EPA West, Room 3334, 1301 Constitution Ave., NW., Washington, DC. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. SUPPLEMENTARY INFORMATION: Regulated Entities. Entities potentially affected by this action include facilities containing any one or more of the 22 major source categories subject to the 12 national emission standards for hazardous air pollutants (NESHAP) (or commonly referred to maximum achievable control technology (MACT) standards) listed in Table 1. The Petroleum Refineries source category is affected by this action, but will not receive an extension of the comment period due to the court-ordered deadline of August 22, 2007, for proposal of the technology review. This action does not affect area sources, as these NESHAP do not apply to area sources. Industries regulated by these MACT are classified by the North American Industry Classification System (NAICS) codes shown in Table 1. In addition, a classification system of MACT codes has been developed and is used in the 2002 National Emissions Inventory to identify processes included in each MACT source category. The MACT codes for the 22 source categories addressed in this notice are also displayed in Table 1.
